The Hall Mark of Service

THE WORLD'S PLEASURE GROUND

This is the ideal season of the year for a trip to the Seashore. There is a tang in the air wafted from old ocean, a health-giving breeze from the piney wilds, a vitalizing influence for every welcome visitor, which seems to renew the spirit of youth and make a visit to Atlantic City a constant source of health, joy and happiness.

Charming at all times, especially delightful in the month of June. As James Russell Lowell has beautifully phrased it:

"And what is so rare as a day in June?
Then, if ever, come perfect days."

VISIT ATLANTIC CITY NOW

Stroll on the great wide boardwalk, enjoy the wondrous array of beauty and fashion, see its magnificent hotels, its splendid shops, its varied theatres and amusements which, with attractive piers, delightful sun parlors, splendid orchestral music, nightly dances, excellent fishing and invigorating golf facilities, provide a galaxy of amusements to welcome the visitor at this season of the year.

Whether you roll in a chair, dance on the piers, listen to the bands or look at the beauty show on boardwalk or beach you will find there is a sense of holiday in all that pertains to Atlantic City in June—a holiday of ease and pleasure, bringing health and strength in its train.

THE ALL-RAIL DELAWARE RIVER BRIDGE ROUTE

Provides direct train service, avoiding possible ferry delay to and from Atlantic City.

—With six hundred day-old chicks, in six boxes, strapped securely to his back, a man, en route to Cecil county, passed through Chestertown Thursday afternoon after the storm. He had ordered the chicks from the Bramble Poultry Farm and walked from Cecil county to this place, leaving his home in Cecil early Thursday morning, getting several rides which helped him considerably on the way. He stated at the Bramble Poultry Farm that he expected to walk to the state road at Washington College and then secure a ride, if possible. This extraordinary walking feat on the part of the man may have its laudable aspects, but, when one considers the risk to the chicks which one runs by exposing them to heat and cold, it is far from practical.
