MINUTE TALKS

IN THE INTEREST OF THE BUSINESS MEN'S ASSOCIATION OF CHESTERTOWN

By Wm. R. Moody

When you stop to consider the fact that the executive work of the B. M. A. is being done by a few individuals who are serving entirely without pay of any kind and solely because of their belief that such an organization can do something toward making Chestertown the kind of a town you want to live in—then it is up to you to do your little share toward making your town what you want to see. If anything is wrong with the town, it is'nt your town—it's YOU.

If you want to live in the kind of a town
Like the kind of a town you like,
You need'nt slip your clothes in a grip
And start on a long, long hike.

You'll only find what you left behind,
For there's nothing that's really new,
It's a knock at yourself when you knock your town,
It is'nt the town—it's you!

Real towns are not made by men afraid
Lest somebody else get ahead,
When everyone works and nobody shirks,
You can raise a town from the dead.

And if, while you make your personal stake,
Your neighbor makes one too,
Your town will be what you want to see;
It is'nt your town—it's you.

The sentiment of agricultural and business interests in every part of Maryland is being sought regarding the calling of a conference to meet at Frederick about the middle of November to discuss legislative measures for the farmers that should be submitted to the next General Assembly.

The purpose of this conference is to obtain the best thought of the State on the agriculturists' problems, which are considered of vital interest to the business men as well as to the farmers themselves.

The consideration of these problems will be entirely dissociated from political prejudices. It is an effort on the part of the business men to express by practical action their interest in the farmer and their willingness to cooperate with his efforts.

Western Maryland Backs Plan

Following a recent meeting of the executive council of the Western Maryland Chamber of Commerce that body has gone on record as indorsing the conference. Whether the conference will be a truly State-wide representation depends upon the sentiment of the business men and the farmers themselves.

Members of the Salisbury-Wicomico Chamber of Commerce, headed by President Oscar L. Morris, have also expressed themselves as heartily in favor of the plans. With these two organizations, probably the largest in the State in which are represented both interests, practically every section of the 23 counties is expected to send a delegation.

Subjects that have been tentatively suggested for consideration at the conference are:

1. A sufficient appropriation by the General Assembly to eradicate tuberculosis among the cattle of the State in three years.

2. A general marketing program and the standardization of products and the containers.

3. A survey of the water power of the State.

4. Drainage of waste lands and their utilization.

5. Inspection and grading of products at points of shipments as well as at the markets.

For Better Marketing

Maryland's legislative policy in the past has been looked upon as lax in providing measures governing the marketing of crops, it is claimed. The delegations will seek to have placed upon the statue books at the next General Assembly Statewide legislation which will aid in developing and improvement of farming methods in Maryland.

The eradication of tuberculosis by putting dairy herds through tests at more frequent intervals is a matter in which Western Maryland dairymen are greatly interested for the improvement of thoroughbred herds. A small appropriation made by the Legislature for this work would forestall heavy losses each year, it is believed.

A survey of the water power for utilization in rural sections, as well as the towns and cities, would also be of inestimable value to the Western Shore counties. The topography of the Eastern Shore is such that other motive power must be used.

Maryland has a total of 4,758,000 acres in farm lands, but the approximate acreage actually under cultivation is estimated by the University of Maryland Extension Service at 2,000,000. Much of the farm land which is improved, but not under cultivation, is left idle each year because of improper drainage.

WOMEN GIVE OUT

Housework is hard enough when healthy. Every Chestertown woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder troubles, should be glad to heed this Chestertown woman's experience:

Mrs. J. E. Allen, 511 W. High street, says: "Doan's Kidney Pills are the best remedy I have ever found for kidney complaint. My kidneys were weak and in a disordered condition. I became run down and had no energy. My back often ached and pained so it was all I could do to keep going. Headaches were frequent, which kept me feeling miserable and the action of my kidneys was never regular. I used Doan's Kidney Pills from Toulson's Drug Store and they just suited my case. I have never had anything act as quickly as Doan's. My energy was restored and my kidneys didn't trouble me."
