KENNEDYVILLE ITEMS.

Owing to the bad spell of weather during the latter part of last week and the first of this travelers in going to Still Pond, passed through Mr. L. C. Justis' farm to avoid bad roads near Turner's Creek lane, which in some places were very deep and heavy.

Mr. H. E. Seney, in coming from Still Pond one night during last week, in trying to avoid the mud got out of the road and got one wheel on the bank and the other in the ditch, but with the help of Mr. Chas. Herzog, who was behind him, he was extricated from his uncomfortable position without any damage.

Sunday was St. Patricks day and proved to be as pleasant a day as we have had this spring.

Mr. John N. Bennett, of Trenton, N. J., is at home on a short vacation.

Mrs. John Pennington is visiting Mrs. W. E. Keyser, of Fairlee.

Mr. and Mrs. James Weer and son Hartley, spent Tuesday with Mr. and Mrs. William Money, of Shrewsbury Neck.

Misses Acca and Clara Vandyke spent Saturday and Sunday at home.

Miss May Turner has returned home from a visit to her brother at Still Pond.

Mr. Tilghman Shafer, who has been visiting in Philadelphia and vicinity has returned home.

Mrs. Daniel Hill returned Tuesday night from a short trip to Baltimore.

Miss Carrie Hessner, who returned to Philadelphia Tuesday week after a visit to her home has been right sick, but is now much improved.

Mrs. Harry Hill and Miss Sarah Cavender are on the sick list.

Mr. Oscar Jarrell, son of Mr. Joshua Jarrell, of this place, now in attendance at Bryants & Strattons Business school, Baltimore, narrowly escaped a terrible accident Thursday evening of last week. While walking along Eutaw street an electric wire fell striking the awning above his head, stunning him considerably and killing a little girl who was behind him and so severely shocking a little boy who was with her that he went into spasms and at last report was ill.

On Monday Dr. Jacobs went ducking and on his return home got out to shut a gate and his horse ran off and left him and came home. The villagers were very much disturbed at the return of the horse and cart without the Doctor. Mr. Charley Gill took the team and started on the hunt for him, whom he met coming home, having been overtaken by a colored man.

Miss Bertha Hendrickson and Annie Loud were given a surprise Wednesday evening Quite a number were present. The evening was spent in playing games, music, &c. Refreshments were served at an early hour and all bade their hostesses good night agreeing that they had a good time.

Mr. Harry Jarrell has been suffering considerably with a poisoned face, which is badly swollen. O.

BROKE UP THE WEDDING.

The Bride Objected to the Ante-Nuptials Contract.

An episode in the society circles of Cecil county was the failure of the marriage of Miss Mary Harvey, daughter of Mr. and Mrs. Daniel Harvey, formerly of Baltimore, who reside at Childs, about two miles above Elkton, on the Baltimore and Ohio Railroad, and Mr. John Frazer, a well-known merchant tailor of Elkton, which was announced to take place at the home of the bride's parents on Thursday evening last.

Mr. Frazer is about 53 years of age, and Miss Harvey about 42 years. After a courtship of some 13 years the wedding day was finally decided upon, and everything was in readiness for the happy event. The prospective groom had rented a handsome residence on East Main street, and had it repainted and renovated and furnished in its entirety. The intended bride had even gone so far as to send her trunks to what she thought would be her future home. The wedding was to be a quiet affair, only the immediate relatives being invited; but, nevertheless, it was the general talk of the citizens of the community.

Everything was passing off quietly, and the day arrived which was set apart for the event. About noon that day Frazer drove to the intended bride's home and left with her a marriage contract, which he wanted her to sign, which read to the effect that in case he died first his property should revert to the Frazers, but should she die first her property would go back to the Harvey family. Miss Harvey, it is said, signed the contract, but later told her family about it. They at once objected to it. Early in the evening the intended groom with his friends arrived at the Harvey mansion, and was ready for the ceremony to take place.

On entering the house he was informed that if he insisted on having a contract the wedding would not take place.

After a few minutes' talk together neither one would yield, and the groom departed for his home in Elkton.

New Sheriff in Queen Anne's.

Governor Brown has appointed Wm. F. Bailey to be sheriff of Queen Anne's county, vice C. M. B. Bryan, resigned. In making this appointment the Governor ignored the recommendations of both the Brown and Keating factions of the democratic party in Queen Anne's. The leaders of neither faction indorsed Mr. Bailey. The Governor selected him because, as he said, he knew him personally to be well fitted for the place. The new sheriff is about fifty years old. He is a farmer in Queen Anne's county and has never before held public office. He is a brother of F. Julian Bailey, president of the Journalist Club of Baltimore. He will hold the office of sheriff until the next election, when his successor will be chosen at the polls. He has slected Deputy Sheriff T. Frank Seward as his deputy which appointment gives entire satisfaction.

EDESVILLE ITEMS.

Messrs. Editors:—Our roads are getting nice again, but for some holes left in places where cuts were made through snowbanks. The district supervisor will doubtless be along pretty soon clearing out the ditches and doing other necessary work. Mr. Crew is a very good man, and we believe will do his duty; but the masses do not approve of the present style of letting out the roads, nor do they realize a lessening of the taxes by such system.

The delegates from Wesley Chapel will ask for a new minister when the conference meets at Alexandria in April. The present pastor Rev. Jesse Shreeve requested the quarterly conference to ask for a change. The action of the quarterly conference in cutting the minister's salary to four-hundred dollars was a great mistake; and cutting Broad Neck appointment off entirely amounts to a serious blunder, to say the least. Mr. Shreeve announced last Sunday that he would in all probability preach his last sermon to-morrow morning.

For several weeks past the whooping cough has had full sway in the community. Among those effected with it is the three weeks old baby of Mr. L. C. Francis. The little one has also pneumonia and is quite ill at this writing, but we trust the complication will yield to the treatment administered by the physician Dr. T. B. Willson.

Mr. Purnell Jump and children have been on the sick list, but are convalescing under careful treatment.

Mrs. J. Frank Wheatley is still under treatment for the grip. After a spell of it for six weeks, but a relapse early last week proved to be much more severe, and she was quite ill. Glad to say she is again improving.

I read so much in the papers and hear so much talk about "mad-dogs" I'm forced to express the opinion that not one affected with rabies, has passed through this village within fifteen years.

Our esteemed friend Mrs. Araminta Sutton, who, after having spent the winter with her sons (dividing the time) Messrs. David S. and J. Walter Sutton, is now in attendance upon the session of the M. E. Conference at Smyrna, Del. We trust she will have a most excellent time in making new and renewing old friendships.

Your valued correspondent "West End" picks-em-up every week; my, he must be a hustler, must keep one eye open all the time. He lives close by Mr. Keyser's separator and creamery. Wish we had one in Edesville.

Politics are being discussed very little in our midst, the most we hear is that Democrats are determined to get together, let by-gones be by-gones and close up the ranks, so that no lack of interest shall be manifest at any point, a pull altogether to win. If the right kind of ticket is selected, the right kind of effort will be made to elect it.

Mrs. Nannie Collins and children, of Wilmington, Del., are visiting her sister in-law Mrs. Walter E. Sadtler.

Misses Greenwood and Sutton often frequent the haunts of the bayshore fishermen, they evidently love fresh fish.

Mr. Shawn, Sr., of near Edesville is visiting friends in Queen Anne's county.

Observer.

THE M. E. CONFERENCE.

Bishop Hurst in the Chair—Reports on the Work.

Rev. Alfred Smith, presiding elder of this district, conducted the services at the opening Wednesday of the twenty-seventh annual session of the Wilmington Methodist Conference. Bishop Hurst presided. There were 278 ministers in attendance. Officers were elected as follows: President Bishop John F. Hurst; secretary, A. S. Mowbray; assistants, W. A. Wise, Z. H. Webster, John D. Rigg; journalist, John D. Rigg; statistical secretary, W. R. Mowbray; treasurer, C. A. Crise. Dr. S. A. Keen, of Cincinatti, addressed the conference. R. Irving Watkins, secretary of examination, presented a rasolution containing a provision which extends the right to all students who passed at the June examination to be allowed the privilege of taking the final conference examination. Much discussion was occasioned by the presentation of this resolution. Bishop Hurst, however favored it. The report of the Easton, Md., district was read by Presiding Elder Smith.

The case of Rev. J. D. Kemp, of Still Pond, Kent county, Md., was referred to a committee of inquiry. The reports of the various districts were as follows: Wilmington, 10,500 probationers; Salisbury, 9,600 probationers; Easton, 6,786 members and 1,134 probationers. The proposition extending the right to women to be admitted as lay delegates to the General Conference will stir up a discussion when introduced.

On Tuesday last the Board of county commissioners for Queen Anne's appointed Messrs. Chas. McCollister of the Second District; A. S. Gadd for the Third; Chas. O. Coursey for the Fifth and A. L. Rittenhouse for the Sixth. In the First, Fourth and Seventh Districts the present collectors re-appointed for the second year respectively; W. D. Roe, H. A. Legg, and Isaac Snitcher.

Prisoner Sick.—Robert Comegys, a prisoner in the jail, is extremely ill with pneumonia. Dr. Hines says unless there is a change within a few days death will result.

FAIRLEE BRIC-A-BRAC.

Mr. Thomas Hill, of Baltimore, is thinking about having the marl found on his farms near Bettershell Hill put into market. To do this steam is thought of being used to elevate this valuable fertilizer to the surface of the ground. It is supposed that it runs down as deep as 50 feet, and to be equal to, or better than S. C. Rock in fertilizing qualities, and as a basis for phosphate, generally. Shedding will be erected and carts used to carry the marl from the elevators and dumped in wind-rows under these sheds to dry. He would like to run a railroad from the plant to the Ship-yard landing on Lankford Bay, the Ship-yard farm being owned by Captain C. A. Leary. He thinks of having cars for the special purpose. The length of the road would be about two miles. Engineers, we understand, were there last Monday to consider the best and eheapest method of excavation.

Last Sunday was a "Red Letter" day at the Fairlee church. There was a large congregation in the morning and in the evening the Missionary Anniversary was held. It was a success, and to the committee having it in charge—Mrs. G. W. Bramble, Mrs. J. C. Staats and Miss Minnine A. Smith, I will simply repeat the ejaculation of many, "Bravo." The committee labored under dire disparagements occasioned by sickness and the condition of the roads. The little folks acquitted themselves grandly and the choir elegantly. Mrs. B. L. Legg, the efficient superintendent of the school was not able to be present on account of illness, and her presence was greatly missed. Those comprising the choir were—Mrs. J. C. Staats, Misses Ida and Rose Bramble, Miss Zadie Lee, Mrs. E. O. Duyer, Miss Minnie Hudson, Messrs. W. G. Smith, Charlton Kidd, W. T. J. Keyser and E. O. Duyer. Miss Minnie Smyth presided at the organ in her usual skillful manner. There were several readings nicely rendered.

There is still a great deal of sickness around. I suppose with the putting forth of vegetation, and when the trees bring forth their foliage, thereby affording absorbents for effluvia, which now permeates our very being, lassitude will not be so general.

The little fifteen-months-old child of Mr. and Mrs. R. S. Diehl, formerly of Kent county, now residing in Baltimore, is laying very near death. The attending physician has given the case every attention, but says, it is only a matter of a very short time as Tuberculosis has set in. Dr. W. H. Price is the physician.

Rev. J. B. Merritt left home on Wednesday morning for conference. The board of stewards of his church met at the parsonage last Monday evening to hand over to the reverend gentleman an amount of cash contributed by the congregation of Salem to be accounted as salary, which was just that much in excess of the obligation of the stewards, showing that there must be real merit in Mr. Merritt. The amount was very thankfully received.

Mr. Isaac Simms, on the Westcott farm, is hauling some very fine long-leaf pine logs to the saw-mill. Messrs. Vincent Lee and Walter Stokes are also hauling logs from their respective farms.

Mr. Walter F. Sparks has purchased of the trustees of St. James Church the chapel that was built a few years ago on a lot of land near the school house, opposite Mr. J. W. Corey's farm, near Melitota. He will remove it to his home, and make a building of it for his vast amount of machinery.

In a few days, or as soon as the weather will permit, work will begin on the sidewalk, from the town hall to the church, a distance of about 150 yards. Messrs. Wm. S. Sparks and G. E. Noland have kindly given permission to move their fences in two feet, whereby a five-foot sidewalk will be procured.

The road, the length of the proposed sidewalk, cannot be kept in any condition, due to the fact that it cannot be ditched to carry the water off properly. We would like to call the attention of our worthy and *highly esteemed* commissioner, Mr. Willson, to this short piece of road, in the heart of the village, and see if he, with the consent of the board will grant shells enough to properly cover it. I know Mr. Willson is very judicious in the management of the affairs of the county, as far as his sphere of the office goes, as he has been very vividly portrayed lately, and we fifth district people are proud of such an officer. We would only be reasonable in making any request, and I can say that Fairlee has never asked this much before, that we know of, and it is hoped the commissioner will look into the matter, present it to the board, and that it will meet their favorable cosideration. Not that we desire to get even with the other districts for seemingly lavish expenditure in "*Blockade work*," but because of an actual necessity.

Next morning after the burning of the Chestertown creamery, a goodly number were added to the list of patrons of the Fairlee Creamery. This plant has the capacity to manage 30 or 40,000 pounds of milk per day and new patrons are always welcome.

Mr. Samuel Todd, of the first district, announces his willingness to accept the nomination for county commissioner from that district, subject to the Democratic primaries. I would like to tell our district voters something about him—now just listen: He *is a Democrat*, a grand, good man, thoroughly competent for the office. *We know whereof we speak.* Just such a man as we fifth district people want. We ask for undefiled men, and in him we have it. He may not be generally known among our people here hence the above statements, and what is said here is not simply designing adulation or flattery, but facts. West End.

BAY SIDE ITEMS.

Messrs Editors:—We of this vicinity are in communication with the out-side world. The steamer Emma Giles made her first excursion trip Saturday. Many availed themselves of the opportunity of spending a few hours in Baltimore which this very popular route affords. It has grown especially popular with the ladies, as it gives them three hours in the city for shopping, returning the same day.

Several anglers came over fishing for pickerel in the lake but their efforts were unsuccessful. Mr. Eliason and Mr. Fountain of the Tolchester Co., spent the day with Superintendent Noland, planning the many and various improvements to be made for the coming season. They were met here by Mr. York of your town who has been engaged to make extensive improvements to the sanitary arrangements of hotel and grounds. Active operations will begin at once for the improvement of the popular resort.

Farmers of this vicinity are making preparations to begin their spring work.

We notice in your last issue that the commission merchants have combined to discontinue furnishing fruit crates gratis to the shippers, this they have a right to do and is strictly proper. I would like to ask other farmers if they would not join an organization pledged not to ship to any commission merchant who would not guarantee to return the empty crate, or if not returned promise to pay the "cost value" of the same over and above the product shipped in them? This would at least compel them to have all "empties" manifested, which is not generally done.

The fishermen along our coast are meeting with great success catching large quantities of rock and perch, all bringing good prices.

Mr. W. P. Crosby, of our vicinity had a curiosity in the birth of a lamb one day this week. It had eight distinct legs and one neck with two perfectly formed heads. Clayton.

BARCLAY ITEMS.

Mr. John Hall and Miss Emma Godwin, both of this village, were joined in wedlock Wednesday night at Ingleside.

Mr. Jos. Sparks, of Tilghman's, visited visit us last week and is as jovial as ever.

Dr. L. W. Evans, of Templeville, visited his son, L. N. Evans, last week.

Mr. Ell Bowers is on the sick list.

Mr. John Sparks, of near this place is very ill.

A gentleman of Philadelphia, tackled our champion checker player and was completely knocked out.

A young man in our village last Saturday took a road cart ride, one of our young men acted as horse; a gentleman from Tilghman's was driver and landed his guest safely home with the exception of tearing his pantaloons.

Curables versus Incurables.

There is no such thing as "medical science. The so-called "science of medicine, offer no proof of anything but death. Who *knows* for a *certainty* what the effect of any medicine will be upon a patient, except that *enough* will produce death. Therefore medicine taking is guess work, and guessing is not science.

The curable forms of disease, that is what the faculty claim they *sometimes* cure, are few, and are entirely, almost, to be found among the fevers.

The incurable forms, that is what the faculty say cannot be cured, and must therefore be endured, or removed by the knife, or helped by crutches (glasses are crutches), are many. Among them are:

Asthma,	Astigmatism,
Catarrh,	Cataract,
Cancer,	Near-sightedness,
Consumption,	Glancorna,
Hay Fever,	Strabisisms,
Bright's Disease,	Deafness,
Locomotor Ataxta,	Paralysis,
Tumors,	Weakness.

Now, I come to you with the "science of healing." Why do I say "science?" Because every known fact about the human system confirm the theory upon which my system is based, and the results obtained under the system are an ever increasing volume of testimony to its truth.

No man or woman has ever made a careful study of my system, who has not been convinced of the truth of its basis.

The trouble is that people are so educated that from babyhood to fall back at every moment on their doctors, that they have no minds of their own and *won't* investigate.

There is no need of the great death roll of our daily paper. There is no need of the array of practically helpless invalids of our land.

Take medicine and die. There is an "irrepressible conflict" between nature and drugs. When any one is apparantly cured of any form of disease by the use of drugs, it is because matters has had a fight and is victorious, but the subject has been on the opposing side, and is a traitor to himself.

More than that, the victory cost the victors something. Nature has been victorious once over your enemy, drugs, but how much power has she lost for the future?

Take medicine and die, but if you do not wish to die, and if you *do* wish to become men and women again, learn natural laws, give her a chance and if there is anything in you worth saving she will do it.

I am here to tell you how without medicines, without knife, without electric machines

90 per cent. of my clients are the "incurable."

95 per cent. of all incurable have been cured, and they number the many thousands.

Consultations free. Come and see me for yourself, or for your friends. Write to me if you cannot come.

The Wilson Institute has devoted 5 Parlors to consultation purposes, 2 of these are exclusively for ladies.

Prof. Wm. C. Wilson, Pres't,
Optical and Medical Reform Association
Wilson Institute,
123 and 121 N. Eutaw St., Baltimore.

PHOSPHATES!

After a successful experience of twenty years in the manufacture of Fertilizers, we confidently refer you to our record, and earnestly solicit your patronage for an article that has been sold forty seasons in succession with an increased sale each spring and fall. Our sales at home and abroad for 1894 having been much larger than ever before ought to convince the most skeptical as to the merits of our goods, and that they must have superior quality and absolute uniformity and purity.

TRADE MARK

FOR OATS

use our Special Oat Fertilizer, which has stood the test for years. One patron claims to have grown over 60 bushels per acre with it. We have a nice lot on hand ready for shipment.

FOR GRASS.

As a top-dressing for Grass our Phosphate has no equal. One patron says that he made as much again hay where used, and it should be applied in February or March if possible.

FOR POTATOES

Our Special Potato Manure has been used in competition with Mapes', Yarnell's and Baugh's, in fact all the high grade goods on the market. If not growing for special early market, try some of our $24 Potato Manure, it is an article of perfection for the money. We have sold already this spring over 100 customers this goods.

FOR GENERAL TRUCK.

We make Special Truck Phosphate that contains all the required elements of plant food. One fair and impartial trial, will convice the most skeptical as to its merits.

FOR TOMATOES.

We have a specialty, and our testimonials are so many we could not give them here, but we have a separate circular, which we will send upon application, and we think it will pay you to drop us a postal for one if you contemple growing this crop, as we have devoted several pages of same to Tomato culture, telling how to grow a crop from beginning to end.

OUR CORN PHOSPHATE.

Have you tried it? if not, then give it a trial. Undoubtedly it is the leading Corn Fertilizer on the Peninsula. But, if you want a cheaper goods with a S. C. base, we have a large lot of that class of goods, such as we used to get $17 for from the Still Pond Farmer's Club, which we will sell at $13 per ton on good note, or $12 cash. We have a large lot of this bought and it must go.

DON'T FORGET YOUR PEACH TREES.

Such gentlemen as Captain R. S. Emory, George W. Davis and Joseph Rasin say if you want to have fruit you must feed your trees. OUR FRUIT GROWER has been used more extensively than any other Peach Manure in the world.

We never had a nicer line of mixed goods, as well as materials, than we have at this time, which were bought and paid for before the combination prices went into effect. If you need anything in our line, and have not received by mail one of our 64-page pocket diaries for 1895, write for one, and also what your requirements will be in the way of Fertilizers.

Yours respectfully,

T. R. HUBBARD & SON,

March 23, 1895. CHESTERTOWN, MD.

The Cleveland Bay Stallion,

PRIDE OF ENGLAND,

REGISTERED NUMBER 161, IMPORTED, STANDS ALTERNATE WEEKS AT ELKTON AND CHESTERTOWN, MARYLAND.

PRIDE OF ENGLAND, 161, is a Beautiful Blood Bay color, stands 17 hands high and weighs 1300 pounds. Pride of England is registered in the Ontario Coach and Roadster Horse Breeders' Association of St. Thomas, Canada, as No. 161; is a descendant of the best producing families on both sides for speed, beauty, endurance and general utility.

Tracing from Mark Twaine, Moonstone and Old Clear Grit [859] as producers of speed, and through Rattler and Hornpipe to thoroughbred and imported coach horses, through Fox Hunter, Pride of England [161] sired by Mark Twain, he by Moonstone, by Old Clear Grit [859], he by Lapadist by Touchstone, the English race horse.

Mark Twain's dam, Big Nell, by Foster's St. Lawrence, he by Old St. Lawrence. Mark Twain is sire of Nellie Baker with four-year-old record of 2.32 with six weeks handling. She gave a trial mile on Woodbine Track, Toronto, in 2.21¾, and a half mile in 1.08.

Moonstone's dam by Bradley's thoroughbred, he by Oliver's thoroughbred. Moonstone is sire of Nettie C., record 2.23, and several others that show their ability to trot close to 2.30.

Old Clear Grit [859], was one of the greatest Canadian Sires. Sire of Amber, record 2.23, made in Australia, and the fastest record for two, three and ten miles in Europe. Flora F., 2.24¾, Bay William, 2.27¼, Little Billy, 2.23¾, Billy M., pacer, 2.19¾, St. Patrick, 2.30¼, Fuller, pacer, 2.13¾, and a large number that trot under 2.40.

Pride of England [161], dam Fanny [55] by McQueen's Rattler, he by Willson's Rattler, he by Biggart's Rattler, by Sir Henry, he by the Garrett Horse, by Leonidas Imported Thoroughbred. Biggart's Rattler, sire of Joe Brown, 2.23, also of Warner's Rattler, sire of Mary Davis, 2.26.

Pride of England [161], grand dam by Hornpipe by Imported Thoroughbred, great dam by Fox Hunter, he by imported coach horse.

It will be seen by the above that Pride of England is gilt-edged on both sides. Breeders cannot possibly err in breeding their brood mares to this noble stallion, as the intensity of his breeding is in itself a certainty that his stock will partake largely of the characteristics of their sire.

TERMS OF BREEDING—$20 to insure, to be paid when mare proves in foal.

T. H. COOPER, M. D., Proprietor,

DANIEL WARREN, Groom. CHESTERTOWN, MD.

Paints! Paints!

The time to Paint and Paper is at hand, and we are ready with a supply. No better READY-MIXED PAINT can be —produced than—
