1881. 1895.

BE ALERT!

FOURTEEN YEARS DOING BUSINESS IN CHESTERTOWN, WE APPEAR THIS SPRING WITH A MORE COMPLETE LINE OF

Clothing and Furnishing Goods!

THAN EVER BEFORE.

AN unexpected good trading last year ridded us of all our Summer Goods, which has been replaced with a Gorgeous Line of Up-to-date Styles, carefully selected from the Largest New York Manufacturers, for which we put down the hard cash, thus enabling us to meet the expectation of the most economical buyer. A comparison of our prices and goods with others will clearly show the advantage of trading with a long experienced dealer. We are receiving shipments daily, and when complete we are sure to suit every one.

Our Line of Men's Suits,

consisting of Clay Diagonals in Regent and Sack, Cheviots, Cassimeres and Worsteds must surely please you, and a comparatively large line of YOUTH'S and BOYS' SUITS. No pains have been spared in selecting something for the "YOUNG FOLKS." Our success in this line last season encourages much attention in this direction.

Gent's Furnishing Department

complete, including SOFT and STIFF HATS, such as Yowman's, Stetson's, Dunlap's, Gilfords & Co'.s. NECKWEAR, HOSIERY and Underwear, also a carefully selected line of PERCALE SHIRTS, a good one, already laundered, in colored and fancy bosoms, only 45 cents.

☞MERCHANT TAILORING a specialty. In a few days we will receive a large line of piece goods to which we invite your inspection. Avail yourself of these many advantages shown you and give us a call.

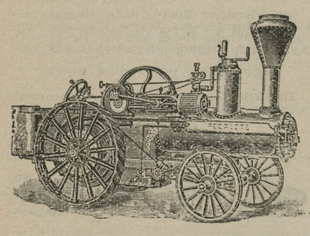

Yours, respectfully,

A. FRIEDMAN & CO.,

16 West Camden Street, Baltimore, Maryland.

The Cleveland Bay Stallion,

PRIDE OF ENGLAND.

REGISTERED NUMBER 161, IMPORTED, STANDS ALTERNATE WEEKS AT ELKTON AND CHESTERTOWN, MARYLAND.

PRIDE OF ENGLAND, 161, is a Beautiful Blood Bay color, stands 17 hands high and weighs 1300 pounds. Pride of England is registered in the Ontario Coach and Roadster Horse Breeders' Association of St. Thomas, Canada, as No. 161; is a descendant of the best producing families on both sides for speed, beauty, endurance and general utility.

Tracing from Mark Twaine, Moonstone and Old Clear Grit [859] as producers of speed, and through Rattler and Hornpipe to thoroughbred and imported coach horses, through Fox Hunter, Pride of England [161] sired by Mark Twain, he by Moonstone, by Old Clear Grit [859], he by Lapadist by Touchstone, the English race horse.

Mark Twain's dam, Big Nell, by Foster's St. Lawrence, he by Old St. Lawrence. Mark Twain is sire of Nellie Baker with four-year-old record of 2.32 with six weeks handling. She gave a trial mile on Woodbine Track, Toronto, in 2.21¾, and a half mile in 1.08.

Moonstone's dam by Bradley's thoroughbred, he by Oliver's thoroughbed. Moonstone is sire of Nettie C., record 2.23, and several others that show their ability to trot close to 2.30.

Old Clear Grit [859], was one of the greatest Canadian Sires. Sire of Amber, record 2.23, made in Australia, and the fastest record for two, three and ten miles in Europe, Flora F., 2.24¾, Bay William, 2.27¾, Little Billy, 2.23¾, Billy M., pacer, 2.19¾, St. Patrick, 2.30¾, Fuller, pacer, 2.13¾, and a large number that trot under 2.40.

Pride of England [161], dam Fanny [55] by McQueen's Rattler, he by Willson's Rattler, be by Biggart's Rattler, by Sir Henry, he by the Garrett Horse, by Leonidas Imported Thoroughbred. Biggart's Rattler, sire of Joe Brown, 2.23, also of Warner's Rattler, sire of Mary Davis, 2.26.

Pride of England [161], grand dam by Hornpipe by Imported Thoroughbred, great dam by Fox Hunter, he by imported coach horse.

It will be seen by the above that Pride of England is gilt-eged on both sides. Breeders cannot possibly err in breeding their brood mares to this noble stallion, as the intensity of his breeding is in itself a certainty that his stock will partake largely of the characteristics of their sire.

TERMS OF BREEDING—$20 to insure, to be paid when mare proves in foal.

T. H. COOPER, M. D., Proprietor,

DANIEL WARREN, Groom. CHESTERTOWN, MD.

In Poor Health

means so much more than you imagine—serious and fatal diseases result from trifling ailments neglected. Don't play with Nature's greatest gift—health.

A few bottles cure—benefit comes from the very first dose—*it won't stain your teeth*, and is pleasant to take

It Cures

Dyspepsia, Kidney and Liver Troubles, Neuralgia, Constipation, Bad Blood Malaria, Nervous ailments Women's complaints.

Get only the genuine—it has crossed red lines on the wrapper. All others are substitutes. On receipt of two 2c. stamps we will send set of **Ten Beautiful World's Fair Views** and book—free.

BROWN CHEMICAL CO. BALTIMORE, MD.

BEFORE I could get relief from a most horrible blood disease, I had spent hundreds of dollars TRYING various remedies and physicians, none of which did me any good. My finger nails came off, and my hair came out, leaving me perfectly bald. I then went to

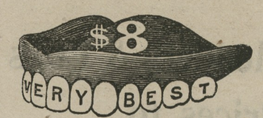

HOT SPRINGS

Hoping to be cured by this celebrated treatment, but very soon became disgusted, and decided to TRY **S.S.S.** The effect was truly wonderful. I commenced to recover after taking the first bottle, and by the time I had taken twelve bottles I was entirely cured—cured by S. S. S. when the world-renowned Hot Springs had failed.

WM. S. LOOMIS, Shreveport, La.

DR. M. CURBY BURKHARD'S
FEMALE PERIODICAL PILLS

LADIES: By special request from patients at a distance, who can not personally consult me, and being unable to answer the many correspondents, and furnish at short notice the **Favorite Prescription**, as used by me during a practice of twenty-five years, have consented to prepare and supply to you this unrivaled remedy for Female Irregularities. The climax of medical chemistry attained in **Dr. Burkhard's Periodical Pills**, being six degrees stronger than any known medicine, yet so mild that the feebliest can take them with perfect security; yet so powerful in their effects that they can be safely called a Never-Failing Regulator. Each box contains fifty pills, with full directions enclosed. Price, Five Dollars per box. Sold by druggists or sent by mail upon receipt of price. Refuse all patent medicines. Take only the prepared prescription of a physician in practice. **Dr. M. Curby Burkhard**, the reliable specialist. Office, 107 Park Avenue, Baltimore, Md. Cut this out for future reference.

Potato Raising.

The following article written by Haines Brown of Pa. for the Country Gentleman, may be profitably read by our readers. It contains suggestions and ideas that may be worth thinking about:

"I have never raised potatoes on a large scale, bnt usually raise about three acres each year, never paying any attention to the price, but in the loug run, find the potato crop the best paying one we raise. However, when potatoes are extremely low and a drug on the market, we as a rule plant largely, as a majority of farmers cry, 'Potatoes don't pay!' and therefore raise what they need for family use only. Generally by the time the crop is harvested, the price has advanced to a paying one, and find such farmers with none to sell.

"We always plant our potatoes on the ground that was in corn the year previous; selecting low, but thoroughly drained ground; then give it a heavy coat of barnyard or hog manure in the late Fall or early Winter. The ground is then left until planting time, and that is whenever the ground is sufficiently warm to ensure a speedy growth, which mostly happens about the 20th of April. We always endeavor to plaut as early as we can to avoid the bugs, as everyone knows that they are more destructive to late crops and weak hills in the row,

We now select a pure variety of a kind of potatoes that are heavy producers and have a reputation on the market, and cut them to a single eye, if the pieces are large—never more than two eyes. Then we start to the field with plow, potatoes, and some good commercial phosphate, containing a large per cent of potash. We now start the plow down a cornstalk row, and the droppers then follow, dropping the pieces at the land side of the furrow at a distance of about fifteen inches apart. Then another man follows with the fertilizer, sowing it as near as he can to the next furrow to be plowed, or the one that is to cover the potato. "We then plant in every third furrow until done. If the ground is mellow (which it should be,) a heavy roller is run over the patch, and it is left for about ten days and then thoroughly harrowed with a good spike harrow—at least three times. After we see them peeping through the ground, we repeat the harrowing, thus destroying all weeds that will in any time interfere with the growth of the plant until it is large enough for the single cultivator, which we often use and as long as we can, or until after blossoms appear. I want no shovel plow in my patch, as level culture in nine cases out of ten gives the best crop. We have tried raising potatoes about every other way in planting, but the above gives us best satisfaction. Of course, attention must be paid to the bugs, or a day or two of neglect may let them ruin the most promising crop.

OYSTERS IN THE DELAWARE.

Planting Season Opened April 1, and Closes June 15.

Three hundred men, white and colored, are engaged in the work of planting oysters on the Delaware Bay. The season commenced on the 1st of April and ends on June 15th, and during that time some three hundred vessels and fifteen hundred men are kept busily employed. This will be the third year that men have gone from Baltimore to Port Norris, as formerly the law made it a misdemeanor to employ other than residents of the State. The way in which the work is prosecuted is simple: A boat goes out and dredges in the bay until a deckload of oysters is obtained and then sails for the bed of the owner of the boat, where the oysters are shoveled overboard. It takes about a day to get a deckload at the first of the season, but towards the latter part it sometimes takes as long as a week to obtain a load. Last season was a poor one, and a number of boats "cut out" at the end of six weeks. There was much dissatisfaction at this state of affairs, and as a sequence two bills were introduced into the legislature. One of these proposed to close the bay for a number of years, and the other prohibited the catching of oysters smaller than three inches. Both, however, failed to pass. Now, everything that comes up in the dredge is planted. The oysters which are planted are allowed to remain for some time undisturbed, and then are dredged for the market. Those taken are "primes," from six to eight inches across, and "culls," from four to six inches across. Nothing smaller is sold. The oysters are sold by the thousand, instead of by the bushel. The beds are very much depleted this year, and, in fact, every available oyster has been taken out.

The men who are employed in the business receive from $15 to $25 per month. The treatment received, according to a statement made by a man who said he had been there, is very good, and they have nothing of which to complain.

Don't Trim Your Postal Cards.

It is ruled by the postal authorities that any reduction of the size of a postal card by clipping, rounding off the corners or otherwise, will subject the receiver of the card to a charge of one cent on delivery. This makes the cost of a postal card equivalent to letter postage. Many persons inclose postal cards to correspondents in envelopes too small and imagine that a little clipping won't make any difference. Others round off the corners for ornamental purposes or convenience in handling. But the practice is wrong.

Frightened by a Charlatan.—A singular case of superstition affecting several hundreds of people appeared at Scranton last Tuesday. Some time ago a woman mind reader predicted there would be an explosion in the Saquoit silk mills, by which a hundred of the girls employed there would be killed. Six hundred girls quit work almost as soon as the mill opened. The dread of the impending explosion spread to the hands at work in the Meadow Brook silk mill, the Harvey silk mill and a button and woolen factory near by and mill hands from these establishments quit work for the day, making a total of 1,300 people who lost a day's wages by the silly prediction of a charlatan.

Ringing Noises

In the ears, sometimes a roaring, buzzing sound, are caused by catarrh, that exceedingly disagreeable and very common disease. Loss of smell or hearing also results from catarrh. Hood's Sarsaparilla, the great blood purifier, is a peculiarly successful remedy for this disease, which it cures by purifying the blood.

Hood's Pills are the best after dinner pills, assist digestion, prevent constipation.

Scratching and Swearing

only increase the irritation and heat the blood. What the skin needs is a cooling, healing application that brings comfort to body and mind, and which at the same time has strength enough to penetrate a clogged skin and to dissolve the scales of Eczema and Dandruff.

Foster's German Army and Navy Cure

is the only perfect preparation of this kind. It will cure Eczema, Tetter, Itch, Salt Rheum, Dandruff, Itching Piles, Ring Worm, Pimples, Blotches and other diseases of the skin. Sometimes it will cure in a few days—sometimes it takes longer—but the cure is certain and permanent. There is no question about it. It has been proven times without number.

50 cents—all drug stores.
