SNAP SHOTS FROM . . . . . ALL SOURCES.

That Oriental war is almost as hard to wind up as the old fashioned Waterbury watch.

Being talked to death is not a modern infliction. There is the case of the dead languages.

A young woman has invented a car fender. If she can't catch her man one way she will another.

It doesn't always follow that a young man and woman are married simply because they quarrel.

General interest will be felt in the rumored ice trust, for this is a thing that may be laid at any man's door.

To a certain extent every bride is constrained to accept much that is implied in the present day by free silver.

The sweet girl graduate will now tell us how to run the world and then go right out and run it some other way.

As a general rule for sea bathing don't undertake to swim out too far. It may prove quite a job for the undertaker.

Livery stable folks complain of the competition of the bicycle. Oddly enough, the patrons of the former are also falling off.

And yet when a politician takes to the woods, it's really of less interest to him how he goes in than how he's going to come out.

That proposed Corbett-Fitzsimmons fight is a disgrace which about nine-tenths of the people look forward to with unalloyed pleasure.

Massachusetts is about trying the experiment of a vagrant colony. Bearing as it does on tramps it remains to be seen whether it will work.

The only way to put a stop to the personal altercations of the lawyers in court is for the court to allow the next one to be fought to a finish.

"There is something about you," remarked Rubberneck Bill, as he gently removed the travelers's money belt, "there is something about you that I like."

"I fear," said the cautious mother, "I fear that young man who is calling on Laura plays cards for money." "And does he get it?" asked the paternal parent.

A Denver clergyman says "there are 10,000 men going to hell on bicycles." If his figures are correct there must be several hundred thousand men wheeling their way to heaven.

"Charley," she asked, as they sat looking at the game, "how many balls make a bat?" He looked long and suspiciously at her, then averted his face and slipped into another clove.

"Is this drinking water?" asked a stranger in Kentucky. "No 'ndeed, syh," replied the colored man who was standing by the spring. "Dat's jes' washin' watah. Dah ain' no sech t'ing ez drinkin' watah."

Old Whipple, the Main lumberman, who paid $10,000 for a gold brick, says: "Perhaps if I had read less of Talmage's sermons and more of the crimes going the rounds I should have been a less easy victim."

Silver seems to have now become a great patent medicine, warranted to cure billiousness, mend broken legs, repair squint eyes, give bald-headed men long, curly hair and in fact relieve anything from corns to consumption.

Miss Ella Erving, of Gorin, Mo., feels quite flattered when her friends call her "a pocket Venus." She is only 20 years of age, but she is 8 feet 2 inches high, weighs 256 pounds and has feet that measure 17 inches from heel to toe.

Officer McWart—"Here, now! It is agin the law to ride that wheel on the sidewalk." Beginner—"But I am not riding; I am only trying to." "Bejabers, thin, I'll will run ye in for givin' an akkyrobatic exhibition widout license."

When a mother sees her little girl's name on a programme for a piano solo she feels that there can be nothing greater in life to hope for, but when, in the course of a few weeks, the girl appears and plays with her hands crossed she wonders why she was so proud before.

HELPFUL THOUGHTS FOR GRADUATES.

This is the season sacred to the sweet girl graduate. To her these thoughts are respectfully dedicated.

Try not to imagine yourself the most important and most interesting object in the universe. Remember that there are so many of your kind that the significance of each individual is comparatively small.

Impress it upon your mind that it has not always been the girl whose appearance upon the commencement stage was most charming who has created the greatest furor in the educational and literary world later.

Of course to your cultured eyes the limitations of your mother's education must be painfully apparent. Try not to show your superiority too strongly. Even go so far as to cultivate a little wholesome humility by reflecting that civilization is advanced more by well-brought up families and well ordered households than by essays on "What We Owe to Our Times."

Do not promise to keep up an animated correspondence with half your class. You will not do it, and you will be more kindly regarded if you send occasional, unexpected letters than if you send more frequent expected ones. Correspondence that has the appearance of spontaniety is the only pleasant sort.

And lastly, remember that while you know a great deal now and are fairly replete with information on many subjects, you will have forgotten most of it in a year. Therefore, be not vain of that which must quickly pass away.—*New York World.*

Large Real Estate Sale.—A sale of a portion of the estate of the late Geo. W. Cummins, to meet the expenses of the contest of his will, was held in Smyrna on Saturday, as follows:

The Severson Farm, near Severson Church, containing 205 acres with improvements, to Pressley Ford, for $3,300.

The Barron Hope Farm, near the same Church, containing 300 acres with dwelling and outbuildings in excellent repair, to Jessie S. Vane, for $3,520.

The Stewart Farm, near Brenford, containing 215 acres of good land, with dwelling and outbuildings, to Miss Sallie Cummins, for $5,005.

The Carroll Farm, near Severson's Church containing 200 acres, with dwelling and outbuildings in good condition, to Geo. W. Moore for $5,000.

The total amount of the sale was $16-825.—*Clayton Call.*

What Fighting Means in Kentucky.

An old woman living some distance from Manchester, Ky., was summoned as a withess to tell what she knew about a fight at her house several nights before in which three or four people were killed. She mounted the stand with evident reluctance and many misgivings, and when questioned by the court as to what she knew about the matter said: "Well, Jedge, the fust I knowed about it was when Bill Sanders called Tom Smith a liar en' Tom knocked him down with a stick of wood. One of Bill's friends then hit Tom with a knife, slicin' a big piece out of him. Sam Jones, who was a friend of Tom's, then shot the other fellow, en' two more shot him, en' three or four others got cut right smart by somebody. That naturally caused some excitement, Jedge, en' then they commenced fitin'."—*Louisville Journal.*

Common Sense

Should be used in attempting to cure that very disagreeable disease, catarrh. As catarrh originates in impurities in the blood, local applications can do no permnant good. The common sense method of treatment is to purify the blood, and for this purpose there is no preparation superior to Hood's Sarsaparilla.

Hood's Pills cure constipation by restoring peristaltic action to the alimentary canal.

The religion that would kill a smile on the face of a child does not come from God.

A man in earnest about his soul will be in earnest about everything he does.

Anybody can make enemies, but only the Christian can love them.

FOR THE BLOOD

TAKE SIMMONS LIVER REGULATOR

The Best Spring Medicine

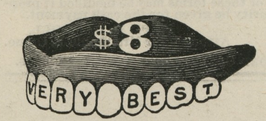

Just now everybody is thinking about taking something for the blood. A Spring medicine as we speak of it. And it's a good thing to do, but you want to get the proper medicine. If you consult your physician he will tell you to

Take a GOOD LIVER MEDICINE

and that, because the liver has everything to do with the blood. If the liver is sluggish the system is clogged, the blood becomes impure, and the whole body suffers. Every medicine recommended for the blood is supposed to work on the liver. Then get at once the "KING OF LIVER MEDICINES,"

SIMMONS LIVER REGULATOR

It does its work well, and tones up the whole system. It is "Better than Pills," and can be had in liquid or powder.

Twice the Price

Would not buy a better set of teeth than we make for $8.00. A smaller price would make perfection impossible.

MERCURIAL POISON

Is the result of the usual treatment of blood disorders. The system is filled with Mercury and Potash remedies—more to be dreaded than the disease—and in a short while is in a far worse condition than before. The most common result is

RHEUMATISM

for which S. S. S. is the most reliable cure. A few bottles will afford relief where all else has failed.

I suffered from a severe attack of Mercurial Rheumatism, my arms and legs being swollen to more than twice their natural size, causing the most excruciating pains. I spent hundreds of dollars without relief, but after taking a few bottles of S.S.S. I improved rapidly, and am now a well man, completely cured. I can heartily recommend your wonderful medicine to anyone afflicted with this painful disease.
