ESTABLISHED 1841.

W. B. USILTON. FRED. G. USILTON.

WM. B. USILTON & SON,

EDITORS AND PROPRIETORS.

CHESTERTOWN, MD., FEBRUARY 15, 1896.

THE new tariff bill has been defeated. The present tariff is now appreciated.

AN election law that will prevent bribery is the crying need in Maryland.

AND NOW it is said "Addicks has some design upon the Eastern Shore of Maryland." We hope not.

DR. HERING'S new assessment bill is up in the Senate. It's merits will be ventilated next Tuesday.

THE Senate has confirmed all the Governor's appointments unanimously, including Kent's election supervisors.

THE "spoilsmen" from Baltimore were in Annapolis in force last Wednesday to kill the civil service bill and had some hot sparring with president Bruce.

GOVERNOR LOWNDES proposes to appoint women on the boards of institutions where the female sex are cared for. And that's right.

THE Westminster *Advocate* says "Senator Hering will be the Democratic nominee for Congress next fall and will lead Mr. Baker at the polls in the neighborhood of 2,000 votes." Such results are devoutly to be desired!

LIFE'S UNCERTAINTY was never more forcibly presented to our community than by the startling event of last Saturday night, when Dr. Beck, one of our most prominent and useful citizens, was stricken by death without a moment's warning!

"How careful then ought we to live—
With what religious care—
Who such a strict account must give
For our behavior here?"

A POSTAL from Baltimore sends us a clipping from the editorial columns of the KENT NEWS of Feb. 8, in which it is stated that the Morgan syndicate got the bulk of the bond loan, and the correction is made to the effect that "the Morgans got only about one-third, viz., $33,211,350, at over 3 per cent!" We stand corrected. This *one* banking firm got *only one-third* of the hundred million! Other banking syndicates probably got nine-tenths of the balance. Very little of it was secured by the smaller banks, and less still by ordinary money lenders. Again it is claimed that the government made a big profit, as the bonds sold for 111, making it about a 3½ per cent. loan. This looks very pretty on the face. But to illustrate: If A sells a house to B for $1,000, and the latter immediately sells the same house to C for $1,500, you would certainly not give A credit for good financiering. He would be justly counted short-sighted. Just so with the Government. It sells its gold bonds for 111 and the purchasers immediately sell the same for 116! Where is the fool in this case? It is not the Morgans, or any other of the syndicates or other purchasers. The whole system is wrong. The financial policy of the Government is a miserable "make-shift" and would disgrace any solvent institution. The country is going from bad to worse—the executive department issuing bonds by the hundred millions, piling up the national debt higher and higher—while Congress haggles away at—nothing!

THE KENT NEWS is one of the cleanest, brightest, and best printed papers that comes to our sanctum. In typographical neatness it is a model of rural journalism.—*Annapolis Every Evening.*

We doff our hat to Bro. Abbott! A compliment from such a high source is certainly to be appreciated.

The True Issue.

Senator Vest, of Missouri, the other day in the U. S. Senate said: "There is an irrepressible conflict on this question, and men must align themselves on one side or the other of the proposition to retain the single gold standard. Then go to the people and have it done, and have an end put to the present condition of the distrust and unrest. But if, as I believe, the people of this country will respond to the call of those who, as Americans, demand that half the metallic money of the world shall not be destroyed; that this financial despotism shall be struck down—the money of our fathers to be the money of our children—we propose to have it done at the ballot box and crystallize it by legislation."

New Road System in Talbot.—The county commissioners on Tuesday last adopted the new road system presented by Commissioner George H. Trax. It calls for the appointment of a road superintendent for each of the five election districts, who shall have entire charge of roads. These superintendents were appointed: Easton district, Joseph H. White; St. Michael's district, Perry C. Benson; Trappe district, George A. Mulliken; Bay Hundred, Hiram S. Hall. No appointment was made for Chapel. The commissioners also decided to experiment with the contract system by letting out by contract about fifty miles of road in Trappe and Chapel districts.

Settled at Last!

Dispatches were received yesterday morning announcing that the Election Committee at a meeting on Thursday night had decided the recount contest in favor of Senator Westcott. Of the disputed ballots—56 in number—24 were counted for Pearce, and 19 for Westcott, one for Turner, and 12 rejected. This makes the final vote—

Westcott	2162
Pearce	2156
Westcott's majority	6

The committee was harmonious. The original returns gave Westcott 3 majority. The investigation throughout shows the fairness and exactness of the election officials in Kent. Mr. Pearce has expressed himself as fully satisfied with any result reached, feeling that he has only discharged his duty. The vote was extremely close and he asked that the absolute accuracy of the count be established beyond peradventure.

LEGISLATIVE NOTES.

Mr. Randall, of Anne Arundel county has prepared and will shortly introduce into the State Senate a bill prohibiting fishing with pound net, fyke net, stake net or any stationary net in the waters of the Chesapeake bay or Potomac river. For a violation of the provisions of the act the fine shall be not less than $50 nor more than $500 and confiscation of the net, tackle and appurtenance to the State.

The law is not to become effective unless the State of Virginia shall pass a concurrent act. Should this be done, then the Governor of Maryland is to give notice by proclamation of such concurrent action and that the law will become effective in this State on July 1 following. Senator Randall is chairman of the committee who will go to Virginia to urge the passage of this act.

A bill amending the mechanics' lien law has been introduced by Mr. Applegarth. The provisions are that buildings erected by a lessee or tenant for life or any number of years, or by an architect, builder or other person employed by such lessee or tenant, the lien shall only apply to the extent of the interest of such lessee or tenant.

An exception is made in Baltimore city, where the lessee or owner of the revision of the ground on which such buildings are erected shall contribute either in money or in property to the erection of such buildings, or where such lessee or tenant shall act on a contract between himself and the owner of such revision, in which case the revision of such interest shall also be liable to the lien.

The free school book bill came up in the House of Delegates Tuesday on its third reading as a special order. The bill had been reported favorably by the ways and means committee and had passed its second reading. A motion was made by chairman Barnie, of this committee, that the House go into a committee of the whole to amend the bill. Before this motion was put, Mr. Cook, chairman of the committee on education, moved that the bill be referred to his committee as the proper one to consider and amend the bill. He urged that it needed amending and the educational committee thought it had jurisdiction on this measure, the most important one affacting the public school system to be considered during the session. The bill was so committed by a yea and nay vote.

The objection to the bill as it came from the ways and means committee is that it gives the power to purchase all the books for the schools to the State Board of Education, and also that it provides for uniform text books for all the schools. These matters, it is urged by some, should be left to the county school boards, as at present, giving to each county its proportion of the free fund for this purpose.

Talbot Newspapers.

Mr. Wilson M. Tyler, proprietor of the *Easton Gazette*, on Saturday last purchased the *Easton Democrat* at mortgagee's sale, for $2,450. Mr. Tyler recently purchased the *Star*, which he leased to Ex-Comptroller J. Frank Turner. Mr. Turner will also assume charge of the *Democrat*. John Y. Todd, its present publisher, will go into business in New York.

Mr. Tyler, it will be remembered, lost his plant by fire some time ago; he has now fully refitted his office, and being a practical newspaper man will continue to improve his already first-class *Gazette*.

We heartily welcome into the newspaper fraternity Mr. J. Frank Turner, who has already made a high reputation in public life. He has had control of the *Star* for only a few weeks, but has improved it wonderfully. His promise is now to issue *The Easton Star and Democrat* as an eight page paper in a few weeks. It will no doubt take rank at once among the leading Democratic journals in Maryland. Mr. Turner is a vigorous writer and has the courage of his convictions. His large experience and knowledge of financial affairs enables him to discuss this vital question with great interest and profit to his readers.

Horses Raffled.—Capt. Daniel Friel, of Queenstown, raffled a pair of Avonmore mares Saturday. Harry Thomas, of Baltimore, and John Fountain, of Queenstown, were the lucky ones.

For State Librarian.

We notice the name of James H. Baker, Esq., among those mentioned for State Librarian. Where can Governor Lowndes find a more suitable appointee than the delegate from Kent? He has all the qualities desired for this position—intelligence, affability and accommodating disposition. The salary is $1500 per annum.

Mr. J. W. Wright, of Chestertown, is an applicant for weigher of hay, the salary of which ranges from $200 to $1000. Mr. W. says he is the only Eastern shoreman applying and will therefore win!

The Local Option Law.

A bill is now before the Legislature to amend the local option law for Kent county by the addition of new sections as follows:

Sec. 148 prevents the giving away of any kind of spirituous or fermented liquors at any place of business.

Sec. 149 prohibits persons, corporations or associations to have in possession or allow their place of business to be used as a depository for intoxicants.

Sec. 150 gives justices jurisdiction; they may take recognizances or commit to jail in default of bail.

Sec. 151 imposes fine of $100 to $500 for offense and imprisonment in House of Correction for six to twelve months in default of payment.

Sec. 151 A. makes the possession of the U. S. Internal Revenue license prima facie evidence of the intent to violate the local option law.

Sec. 152 regulates the sale by druggists, requiring bona fide prescription in ink by a regular physician, giving names, dates and kind and quality of liquor: all such prescription to be filed separately and exhibit same to State's Attorney, grand jury or justice demanding same; all druggists liable for the acts of their clerks or agents; cases of extreme illness are excepted; penalty for violation $50 to $300.

A strong petition supports the amendments. On the other hand a petition extensively signed has been sent to our representatives at Annapolis in opposition to the amendments, and suggesting as the best and only proper remedy for a curtailment of the evils of intemperance a stringent high license law.
