BUG AND BUGBEARS.

Our friends who waste their type and time
Defending "goldbugs" still,
Who print verse with no sense or rhyme,
Their gaping space to fill;
Who quote the "*Post*," which contradicts
Their own long-winded screeds,
And show an ignorance which afflicts
The mind of him who reads.

These friends of ours seem to forget
That gold has never been
Upheld by any party yet,
Save "tyrants of the tin!"
Bimetalism is the scheme
That all platforms endorse;
But our blind friends resist the stream,
And fight for gold, of course!

Our poor, deluded friends, who fear
To lose their gold reserve!
Their anxiety for Wall Street dear,
Makes us admire their nerve.
'Tis very well for millionaires
To love the golden calf,
But for our friends to take such airs!
It nearly makes us laugh!

Will our "gold standard" paper,
Which prints its figures long,
And cuts so many a caper
To show free silver's wrong,
Will they just tell us quickly
How many "cartwheels" they
Can get for one gold dollar
In Chestertown today?

But, oh, they talk of bullion,"
Of ounces, and demand;
Their talk is worse than nonsense,
It bears the falsehood's brand.
Italics cannot make a truth,
Nor epithets a lie;
So, when they talk of silver's falls,
They need but one reply!

The greedy ghouls of British marts,
Forced silver to the wall,
And made gold worth two hundred cents
Per dollar, that is all!
The man who prates of "anarchy,"
Is really very cool!
He has no argument you see,
He's nothing but a fool!

Don't think you scare us, friends by your
Enormous bugaboo,
Just spare the farmer's temper, or
'Twill be worse for you!
The tiller of the soil stands up,
And at your babbling hoots,
If once the farmer turns you down,
You'll jump from out your boots!

PAT RYOT.

Who Are the .... Millionaires?

The campaign now begins to open up and among the publications by the two parties are some interesting figures of individual wealth.

McKINLEY'S SUPPORTERS.

Tariff and Income Tax Dodgers Who Will Put Up to Beat Bryan.

Following are the names of the rich gold bugs of New York who say that they are going to contribute enough money to buy McKinley into the Presidency. These are the fellows who were struck by the income tax clause in the Wilson tariff bill, for which scare they will never forgive the Democrats. It must be confessed that they can raise a lot of money, but they will find that all the people are not for sale this year. We put the wealth of each opposite his name:—

BRYAN'S AGE.

Hon. Wm. Jennings Bryan, the Democratic nominee for President, was thirty six years old on the 19th of last March, and will not be quite thirty-seven when inaugurated next March. Not being able to attack him upon any other point his youth is pointed to as a reason why he should not be elected.

The *Advocate* has always contended that age counts for nothing. Youth and inexperience do not go hand in hand nor is wisdom always linked to gray hairs and wrinkled brow.

Charles XII of Sweden was but little more than eighteen when he fought the battle of Narva and routed 50,000 intrenched Russians with an army of 8,000 Swedes. Richelieu was Secretary of France at twenty-five. Napoleon Bonaparte was only thirty when made First Consul. Hannibal was in his zenith at thirty. Alexander the great died in his 33d year. Alenander Hamilton was Secretary of the Treasury when thirty-two. Jefferson was only thirty-three when he wrote the Declaration of Independence.

The "Fathers of the Republic" were in reality young men. Of forty-three signers of the Declaration of Independence, only five had reached the age of sixty. Twenty were less than forty-five and all the leading spirits were less than forty. History is full of examples of distinguished young men.

In our time there are numerous examples. Pattison was Governor of Pennsylvania at thirty-two, and so well did he fill the office he was called again to the gubernatorial chair at forty, and at forty-five his State endorsed him for President Russell was Governor of Massachusetts at thirty-two, and at thirty-seven the delegates at the Chicago convention supported him for President. Bryan was an easier winner over both Pattison and Russell. His career in Congress had given him a national reputation when he was thirty-one. His big brain, his conservative judgment, his wisdom, his matchless oratory, his firm stand as the champion of the people's rights pointed him out as the great leader to carry the party to victory.

Age does not count, and Bryan will make a President who will rank with the strongest and ablest.

IN THE HIGHLANDS.

WESTERN MARYLAND COLLEGE,

WESTMINSTER, MD.

Thirteenth Year begins September 15, 1896. Buildings all brick; heated by steam; lighted by electricity; hot and cold baths. All rooms furnished with single beds.

The unexampled success of this College has been a steady growth based on thorough work, conscientious care and righteous discipline. There has never been any rowdyism at the College, and parents know it is a *safe place* to send their boys and girls.

Both sexes received, but trained in separate departments; the ideal educational arrangement modelled on the home. We began it thirty years ago and its success is demonstrated.

Our students are our references. You are sure to find some of them in your county. Send for a catalogue to T. H. LEWIS, President.

Farmers, Take Notice!

MACHINERY OILS!

Best Quality! Lowest Price!

M. A. TOULSON, DRUG STORE.

It has been fully Demonstrated that after a Successful Experience of FORTY-TWO SEASONS in the Manufacture and Sale of

HIGH GRADE FERTILIZERS

That our Brands are EQUAL TO THE BEST, and SUPERIOR to the REST no matter at what PRICE they are sold. Our Eagle comes laden with cereals, not arrows, and means peace and plenty, not war. Buying our material at first hands and in large quantities for SPOT CASH and having unexcelled facilities for manufacture and shipping we are enabled to furnish OUR REGULAR BRANDS and ALL FERTILIZING MATERIALS

AT EXTRMEMELY LOW PRICES!

We aim to treat our customers with equal consideration, but CASH or SHORT CREDIT will be duly appreciated and proper allowance made. Although our trade extends over New Jersey, Pennsylvania, Delaware, Maryland and Virginia we will not give a list of our patrons but refer to a few only. Of our regular grades there are:

1st. A. A. Bone Super-phosphate,

Unequalled for Wheat and Grass and a permanent manure, built upon highest scientific principals, having a positive animal bone base, and the best result of over twenty years' trial.

2d. Imperial Compound

Is not all bone, but it also has an Animal Bone Rase and costs less than A. A. and has never been surpassed for Wheat. It is also an excellent fertilizer for grass.

3d Victor.

This is a HARD TIMES PHOSPHATE. The price suits the price of wheat. Inexpensive but not cheap. It is as carefully made and drills as well as any goods in the market. Some of the greatest crops this year have been grown with VICTOR.

One of our patrons who used our A. A. called at our office a few days ago and stated that he had threshed the most satisfactory crop of wheat from it this year that he had ever had, and that he and his brother would want 90 to 100 tons this fall.

Another who used 73 tons of Imperial and Victor states that the wheat on his farms was eminently satisfactory.

Another was in this week, he and his sons used 58 tons, stated that on one farm they estimated that a satisfactory yield would be 3300 bushels, but instead threshed from the machine on that place over 4100, and his phosphate bill on this wheat was only $900, the unexpected yield of wheat more than paid the phosphate bill.

Another states that the 43 tons of Victor did splendidly, having threshed from machine 33 bushels per acre off the home farm, and many other such reports we could give did space permit.

Besides these Standard Goods we are prepared to furnish Pure Dissolved Bone and S. C. Rock at the Lowest Prices consistent with quality. Prompt attention given to correspondence concerning car-load or larger quantities. Remarkably low prices for cash. Address for information or particulars

ELKTON, MARYLAND.

WELL BALANCED FERTILIZERS.....

If you wish EXTRA FINE CROPS OF WHEAT and FULL VALUE FOR YOUR MONEY, do not hesitate to use Fertilizers manufactured by

WILLIAMS & CLARK

FERTILIZER COMP'Y,

as their line of goods, embracing ALL FERTILIZER MATERIALS, are equalled by few and surpassed by none. They furnish Phosphoric Acid, Ammonia and Potash in the most available and concentrated form for crop production. The cost is in proportion to the quantity of the plant food they supply, and is as low as such material can honestly be furnished under the most favorable conditions. Their peculiar composition causes an absorption of moisture from the atmosphere, which nourishes the plant. In time of drouth these Fertilizers have a strong chemical effect upon the inert mineral matter in the soil and sets free natural elements of plant food that otherwise would remain dormant. Thousands of farmers know the great value of these Fertilizers, and farmers should buy them exclusively for fall purposes.
