The Great Speech!

Bryan's Remarkable Argument in the Great Metropolis!

No speech ever delivered in this country will be read by more persons than that delivered by the great candidate, BRYAN, at the New York meeting Aug 14. It is too long for the columns of the NEWS, or we should give it entire. We shall, however, from time to time, give extracts from the remarkable document. Below will be found the opening and closing:

Introductory Thoughts—The Comnom People Can Be Trusted.

I assert that property rights, as well as the rights of persons, are safe in the hands of the common people. Abraham Lincoln, in his message sent to Congress in December 1861, said: "No men living are more worthy to be trusted than those who toil up from poverty; none less inclined to take or touch ought which they have not honestly earned." I repeat his language with unqualified approval, and join with him in the warning which he added, namely: "Let them beware of surrendering a political power which they already possess, and which power, if surrendered, will surely be used to close the doors of advancement against such as they, and to fix new disabilities and burdens upon them, till all of liberty shall be lost." Those who daily follow the injunction "In the sweat of thy face shalt thou eat bread," are now, as they ever have been, the bulwark of law and order—the source of our nation's greatness in time of peace, and its surest defenders in time of war.

But I have only read a part of Jackson's utterances—let me give you his conclusion: "But when the law undertakes to add to those natural and just advantages artificial distinctions—to grant titles, gratuities and exclusive privileges—to make the rich richer and the potent more powerful—the humble members of society—the farmers, mechanics and day laborers—who have neither the time nor the means of securing like favors for themselves, have a right to complain of the injustice of their government." Those who support the Chicago platform indorse all of the quotations from Jackson—the latter part as well as the former part.

We are not surprised to find arrayed against us those who are the beneficiaries of Government favoritism—they have read our platform. Nor are we surprised to learn that we must in this campaign face the hostility of those who fine a pecuniary advantage in advocating the doctrine of non-interference when great aggregations of wealth are trespassing upon the rights of individuals. We welcome such opposition—it is the highest indorsement which could be bestowed upon us. We are content to have the co-operation of those who desire to have the Government administered without fear or favor. It is not the wish of the general public that trusts should spring into existence and override the weaker members of society; it is not the wish of the general public that these trusts should destroy the competition and then collect such tax as they will from those who are at their mercy; nor is it the fault of the general public that the instrumentalities of government have been so often prostituted to purposes of private gain. Those who stand upon the Chicago platform believe that the Government should not only avoid wrong doing, but that it should also prevent wrongdoing, and they believe that the law should be enforced alike against all enemies of the public weal. They do not excuse pitit larceny; but they declare that grand larceny is equally a crime; they do not defend the occupation of the highwayman who robs the unsuspecting traveler, but they include among the transgressors those who, through the more polite and less hazardous means of legislation, appropriate to their own use the proceeds of the toil of others. The commandment, "Thou shalt not steal," thundered from Sinai and reiterated in the legislations of all nations, is no respector of persons. It must be applied to the great as well as to the small; to the strong as well as to the weak; to the corporate person created by law as well as to the person of flesh and blood created by the Almighty. No government is worthy of the name which is not able to protect from every arm uplifted for his injury the humblest citizen who lives beneath the flag. It follows as a necessary conclusion that vicious legislation must be remedied by the people who suffer from the effects of such legislation, and not by those who enjoy its benefits.

Closing Thought—The West and the South Greet the East!

We shall not offend other nations when we declare the right of the American people to govern themselves, and without let or hindrance without, decide upon every question presented for their consideration. In taking this position, we simply maintain the dignity of seventy million citizens who are second to none in their capacity for self-government.

The gold standard has compelled the American people to pay an over-increasing tribute to the creditor nations of the world—a tribute which no one dares to defend. I assert that national honor requires the United States to secure justice for all its citizens as well as do justice to all its creditors. For a people like ours, blest with natural resources of surpassing richness, to proclaim themselves impotent to frame a financial system suited to their own needs, is humiliating beyond the power of language to describe. We cannot enforce respect for our foreign policy so long as we confess ourselves unable to frame our own financial policy.

Honest difference of opinion has always existed, and ever will exist, as to the legislation best calculated to promote the public weal; but, when it is seriously asserted that the nation must bow to the dictation of other nations and accept the policies which they insist upon, the right of self-government is assailed, and until that question is settled all other questions are insignificant.

Citizens of New York: I have traveled from the centre of the continent to the seaboard that I might, in the very beginning of the campaign, bring you greeting from the people of the West and South and assure you that their desire is not to destroy but to build up. They invite you to accept the principals of a living faith rather than listen to those who preach the gospel of despair and advise endurance of the ills you have. The advocates of free coinage believe that, in striving to secure the immediate restoration of bimetalism, they are laboring in your behalf as well as in their own behalf. A few of your people may prosper under present conditions, but the permanent welfare of New York rests upon the producers of wealth. The great city is built upon the commerce of the nation and must suffer if that commerce is impaired. You cannot sell unless the people have money with which to buy, and they cannot obtain the money with which to but unless they are able to sell their products at remunerative prices. Production of wealth goes before the exchange of wealth; those who create must secure a profit before they have anything to share with others. You cannot afford to join the moneychangers in supporting a financial policy which, by destroying the purchasing power of the products of toil, must in the end discourage the creation of wealth.

I ask, I expect your co-operation. It is true that a few of your financiers would fashion a new figure—a figure representing Columbia, her hands bound fast with fetters of gold and her face turned toward the East, appealing for assistance to those who live beyond the sea—but this figure can never express your idea of this nation. You will rather turn for inspiration to the heroic statue which guards the entrance to your city—a statue as patriotic in conception as it is colossal in proportions. It was the gracious gift of a sister Republic and stands upon a pedestal which was built by the American people. That figure—Liberty enlightening the world—is emblematic of the mission of our nation among the nations of the earth. With a Government which derives its powers from the consent of the governed, secures to all the people freedom of conscience, freedom of thought and freedom of speech, guarantees equal rights to all and promises special privileges to none, the United States should be an example in all that is good and the leading spirit in every movement which has for its object the uplifting of the human race.

WANTS TO BET ON BRYAN.

Mr. Collins Has $50,000 That He Is Anxious To Find Takers For.

From the New York Journal.

Daniel Collins, a real estate man of No. 1564 Broadway, was a Bryan man who could not get a bet in Wall Street yesterday. He went the rounds of the banking and brokerage houses, but did not succeed in placing a dollar.

Mr. Collins has $50,000 which he wants to place all or any part of at odds of one to three that Bryan will be the next President of the United States.

M. A. TOULSON, DRUG STORE.

It has been fully Demonstrated that after a Successful Experience of FORTY-TWO SEASONS in the Manufacture and Sale of

HIGH GRADE FERTILIZERS

That our Brands are EQUAL TO THE BEST, and SUPERIOR to the REST no matter at what PRICE they are sold. Our Eagle comes laden with cereals, not arrows, and means peace and plenty, not war. Buying our material at first hands and in large quantities for SPOT CASH and having unexcelled facilities for manufacture and shipping we are enabled to furnish OUR REGULAR BRANDS and ALL FERTILIZING MATERIALS

AT EXTRMEMELY LOW PRICES!

We aim to treat our customers with equal consideration, but CASH or SHORT CREDIT will be duly appreciated and proper allowance made. Although our trade extends over New Jersey, Pennsylvania, Delaware, Maryland and Virginia we will not give a list of our patrons but refer to a few only. Of our regular grades there are:

1st. A. A. Bone Super-phosphate,

Unequalled for Wheat and Grass and a permanent manure, built upon highest scientific principals, having a positive animal bone base, and the best result of over twenty years' trial.

2d. Imperial Compound

Is not all bone, but it also has an Animal Bone Rase and costs less than A. A. and has never been surpassed for Wheat. It is also an excellent fertilizer for grass.

3d Victor.

This is a HARD TIMES PHOSPHATE. The price suits the price of wheat. Inexpensive but not cheap. It is as carefully made and drills as well as any goods in the market. Some of the greatest crops this year have been grown with VICTOR.

One of our patrons who used our A. A. called at our office a few days ago and stated that he had threshed the most satisfactory crop of wheat from it this year that he had ever had, and that he and his brother would want 90 to 100 tons this fall.

Another who used 73 tons of Imperial and Victor states that the wheat on his farms was eminently satisfactory.

Another was in this week, he and his sons used 58 tons, stated that on one farm they estimated that a satisfactory yield would be 3300 bushels, but instead threshed from the machine on that place over 4100, and his phosphate bill on this wheat was only $300, the unexpected yield of wheat more than paid the phosphate bill.

Another states that the 43 tons of Victor did splendidly, having threshed from machine 33 bushels per acre off the home farm, and many other such reports we could give did space permit.

Besides these Standard Goods we are prepared to furnish Pure Dissolved Bone and S. C. Rock at the Lowest Prices consistent with quality. Prompt attention given to correspondence concerning car-load or larger quantities. Remarkably low prices for cash. Address for information or particulars

WELL BALANCED FERTILIZERS.....

If you wish EXTRA FINE CROPS OF WHEAT and FULL VALUE FOR YOUR MONEY, do not hesitate to use Fertilizers manufactured by

WILLIAMS & CLARK

FERTILIZER COMP'Y,

as their line of goods, embracing ALL FERTILIZER MATERIALS, are equalled by few and surpassed by none. They furnish Phosphoric Acid, Ammonia and Potash in the most available and concentrated form for crop production. The cost is in proportion to the quantity of the plant food they supply, and is as low as such material can honestly be furnished under the most favorable conditions. Their peculiar composition causes an absorption of moisture from the atmosphere, which nourishes the plant. In time of drouth these Fertilizers have a strong chemical effect upon the inert mineral matter in the soil and sets free natural elements of plant food that otherwise would remain dormant. Thousands of farmers know the great value of these Fertilizers, and farmers should buy them exclusively for fall purposes.
