THE BEST

SPRING MEDICINE

is SIMMONS LIVER REGULATOR—don't forget to take it. The Liver gets sluggish during the Winter, just like all nature, and the system becomes choked up by the accumulated waste, which brings on Malaria, Fever and Ague and Rheumatism. You want to wake up your Liver now, but be sure you take SIMMONS LIVER REGULATOR to do it. It also regulates the Liver—keeps it properly at work, when your system will be free from poison and the whole body invigorated.

You get **THE BEST BLOOD** when your system is in A1 condition, and that will only be when the Liver is kept active. Try a Liver Remedy once and note the difference. But take only SIMMONS LIVER REGULATOR—it is SIMMONS LIVER REGULATOR which makes the difference. Take it in powder or in liquid already prepared, or make a tea of the powder; but take SIMMONS LIVER REGULATOR. You'll find the RED Z on every package. Look for it.

C. S. FRICK,

Sec'y and Treas. of the Frick Merchantile Co., Keithsburg, Ill.

Gives an interesting account of the cure of a severe case of Rheumatism that came directly under his personal observation. Being in the merchantile business he had many calls for the most celebrated "Yagers Cream Chloroform Liniment." He says:—

"The first bottle he sold was to a party who came into our place of business suffering intensely with Rhematic pains. I advised him to try a bottle of the Yager's Liniment, he thought it would be useless, said he had tried almost everything and could get no relief. I insisted on his trying it and informed him if it did not relieve him should cost him nothing. This was about 4 P. M. He took a bottle and started home, he was hardly able to walk. I saw nothing more of him until bright and early the next morning, when he came into our store walking as lively as could be with no signs of suffering about him. I inquired about the Liniment, he said it was the best stuff he ever used, would not take $5 for the bottle. Said he got home almost done up and as soon thereafter as he could he applied the Liniment, and it gave him almost instant relief, before retiring he applied it once more, went to bed and slept soundly all night, and in the morning bathed the parts affected again and at present felt no pain whatever. This was about four or five weeks ago. I see the party every few days and he says he is not troubled with Rheumatism any more."

The Goodwin Washer.

READ THIS TESTIMONIAL:

TOLCHESTER BEACH, MD., Jan 20, 1896.

MR. WM. T. MATTHEWS, Gen'l Agent:

Dear Sir—I have been using 3 of your Goodwin Washers for the past year, and I find them a very durable and useful machine. We used these machines not once a week, but every day at the Hotel and Bath Houses, and in fact washed every thing we had occasion to wash, with one-half the labor as formerly. After the close of the season here I sent one of these machines to Baltimore, to a friend, and quote their words, "You have certainly sent us a good friend." It gives me pleasure to recommend this Washer to anyone who desires a Labor Saving, Easy, Durable and Clean Washer. Resp'y, yours, &c.,

The Future of the Sahara.

M. Bonnel de Mezieres, member of the Maistre and Attanoux Missions, has, says the Paris correspondent of the London Daily News, expressed his opinion on the future of the Sahara, to the effect that there is no doubt that immense sand ocean will be in time changed into a fruitful territory. He says:

"The Sahara rivers which I have crossed all hide a rich subterranean stratum of water, and form the natural passages to the Soudan, on which with very little trouble, vegetation can be largely developed. In the south of Temassinin and in the Igharghars there are groves of tamarind, gum trees, etc., of two miles long, scarcely separated by grassy and clover-covered plains. The rivers, which in spring are full of water, are from three to ten miles wide. When the water retreats, the beds of the rivers are changed into rich meadows. The date seeds planted by Flatters at El-Biod have grown without the least care into fine trees, and the same is the fact also of the seeds planted near the cisterns of Tebalbalet, in spite of the inconsiderate manner in which the Tuaregs get in the harvest. Trees are not so rare in the Sahara as is supposed. The Tuaregs often assured our expedition that we should have to march two or three days without finding water, but very soon we found a little out of the path some filled up or otherwise purposely hidden wells. For the Tuaregs, who serve as guides to caravans, always choose the most difficult and desolate routes, in order to keep the caravans in a state of dependency. Caravans will become more frequent; travelers will succeed each other, but the secret of the Sahara is well kept, and its reputation of barrenness is still preserved. For example, Oscar Lenz crossed the Sahara and reached Timbuctoo without seeing anything but desert land, and yet he mentioned that behind a chain of hills which he passed there was a place called by the natives 'The Head of the Waters.' Dr. Borth, who was for months in Tuareg camps, and was the guest and friend of the Sheik El Bakey, was told innumerable facts about the traditions and manners of the land; but its geography was hidden from him. When Lieut. Hourst and Lieut. Bluyet explored the region and an arm of the Niger, they found a lake nearly one hundred miles long. And when the officers of the Timbuctoo extended their excursions, they found that not only one but more than twenty lakes existed, all very large, and stretching far to the north into the very heaft of the supposed arid Sahara. If there be no water, and, therefore, no vegetation, where does the charcoal come from which is sold by the Tuaregs? Where do they find nourishment for the numerous camels, horses, sheep, asses and goats they possess?"

Another Matter.

The late Dean Burgon, when a curate in Berkshire, was requested by a village couple to Christen their boy "Venus," or, as they call it, "Vanus."

"Are you aware," he said, "that you are asking something ridiculous as well as exeedingly wicked? Do you suppose I am going to give a Christian child, a boy, the name of a woman in heathen mythology? How did such a monstrous notion get into your heads?"

"Please, sir," said the father, "we want him called after his grandfather."

"And do you mean to say his grandfather was named Venus?"

"Yes, sir; there he is, sir."

A poor old man, looking very unlike Venus, hobbled out of the crown.

"Do you mean to say you were christened Venus?" asked the indignant clergyman.

"Well, no, sir," was the respectful answer; "I was christened Sylvanus, but they always called me Vanus."

LONGING.

There's a cozy little cottage in the country far away
From the city where the waves of commerce swell;
And the holly-hocks are blooming in the garden all the day,
While the sunflowers stand on guard around the well.

I can see within the doorway of that cozy little cot,
A neat figure the morning-glories frame;
And she shades her eyes and gazes down the highway white and hot,
While her lips have shaped themselves to breathe my name.

Ah! her eyes are dim with weeping and her cheeks are moist with tears,
And her glossy ravin locks are flecked with snow,
And the lines upon her forehead are the foot-prints of the years
That have vanished since we parted long ago.

And I'm longing—oh! I'm longing—for my mother's kindly face,
With a homesick feeling tongue can never tell;
For the sweet old-fashioned hollyhocks that bloom about the place,
And the sunflowers standing guard around the well.

Evidently the Case.

Children Cry for Pitcher's Castoria.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labelling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. SAMUEL PITCHER. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word **"Castoria"** and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government-protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children will be kept well, and that you will have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher. is on every wrapper.
