No War Tax
Effective May 8, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes is absorbed by the makers and is not added to the selling price. United States Rubber Company.

How did your neighbor's last bargain tire turn out
PROBABLY you know at least one car-owner who is always on the look-out for the cheapest tires he can find. He likes to get them by mail or at a sale or at some place where they have big red bargain signs over the door.
It would be fine if he could get "the edge" in every tire trade.
But the dealer can't afford to let him have it.
* * *
Even if a man saw any slight percentage in tire shopping at all—it disappeared when the "Usco" brought the price down.
A *standard* product—and the dealer sells it with pride.
A good tire. The dealer has no desire to trade you into a larger profit for himself.
An out-in-the-open tire. The dealer sells you confidence, not price. He wants you satisfied with performance and value. The only way he knows to get your business is to deserve it.
This is the "Usco" idea.
* * *
Compared with the ten-minute thrill of the bargain appeal, the "Usco" is just plain common-sense.
No tax charged on this 30x3½ "USCO"

One of the First
There was a time when an automobile dealer considered the sale of the car as his entire responsibility to his customer.
But in the nature of things it developed that the automobile owner needed more than a new car to be entirely happy.
We are proud of the fact that we were among the first to recognize and accept the dealer's responsibility for the satisfaction of the owner.
