What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorator and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels, (as mucous colitis), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

The "Favorite Prescription" is advised for the cure of one class of diseases—those peculiar weaknesses, derangements and irregularities incident to women only. It is a powerful yet gently acting invigorating tonic and nervine. For weak worn-out, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formulæ of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines.

The words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereof they speak.

Both medicines are non-alcoholic, non-secret, and contain no harmful habit-forming drugs, being composed of glyceric extracts of the roots of native, American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines of known composition, any secret nostrum.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

CUT THROAT IN DREAM.

Townsend, Del., March 16.—Dreaming that a mob of blood-thirsty madmen was after him, and preferring death at his own hands, Horace L. Harmon, aged 32 years, a prosperous miller, last night slashed his throat with a case-knife and probably would have died had not his wife found the unconscious body several hours later and summoned physicians, who restored him.

Harmon is one of the best known men of Townsend, where he has lived for years. He had no cause to attempt suicide. When he retired at 10 o'clock last night he had his youngest child under his arm. Three hours later his unconscious body was found on the bedroom floor, in a pool of blood, while the child slept in the bed unconscious of the injuries its father had inflicted on himself. He had cut himself on each side of his throat and five stitches were required to close each wound.

After recovering consciousness Harmon told Drs. Enos, of Townsend, and Lewis, of Middletown, how it happened. "A mob of crazy men, armed with all sorts of weapons demanded my life,' he said he dreamed. "Just when I thought I had escaped from them I turned around in my flight and found them closer than before. Preferring death at my own hands, I drew my knife and cut my throat. It was all a dream. Of course I would not have done such a thing while in possession of my reason.',

GOOD ROADS FOR MARYLAND.

If the Legislature had done nothing else its session may be counted a great success if the good roads bill passed last Tuesday proves to be what its friends hope for it. It assures the State of a new era in road building. The appointment of the commission to carry out the scheme of good roads building rests with Governor Crothers which is a sufficient guarantee to the people that the work will be done in a business like manner.

Valuable Chicks.—A telegram from Kansas City states that "a shipment of four Orphington chickens was yesterday billed to Mme. Ignace J. Paderewski at Morges, Switzerland, by Ernest Keller-Struss for $7500. The chickens were boxed in a crate just as ordinary chickens are shipped but they were insured for their full value. Lady Helen, Victoria and Crystelline, Jr., were three of the royal chickens shipped. Mr. Keller-Strauss refused an offer of $5000 made by Mme. Paderewski for another chicken."

WHAT ABOUT A COOK-STOVE.

Now that summer time and "dog-days" are just ahead, everybody who "summers" at home, is considering how to simplify things and get the most comfort out of an uncomfortable situation.

We interview the ice-man; order thin clothes; plan to ease up here and relax there; but more than likely forget the one most important item in the whole hot-weather scheme—some means of doing the family cooking without the insufferable heat of a coal fire in the kitchen.

Everyone with experience knows how tire some it is to stay in a stuffy room to prepare a meal, let alone the doing of a big baking. But everyone doesn't know how very easy it is to change a hot kitchen to a cool one, and do better cooking at the same time. Just add to your list of summer conveniences a New Perfection Wick Blue Flame Oil Cook-Stove and you've done all that any one can do to lesson hot weather discomfort.

Wouldn't it be fine to a summer morning to step in the kitchen, put on the kettle, broil the steak, bake the muffins, filter the coffee and give the breakfast call in one-fouth the time you'd take to do it all on a coal stove?

And wouldn't it be fine to be as cool when the breakfast was prepared as when you first entered the kitchen?

People who have tried it say that the New Perfection Oil Stove actually does everything in the line of cooking and domestic service without overheating the room or the worker.

Undoubtedly the reason is to be found in the blue flame principle on which the stove works.

A cylindrical chimney concentrates the heat at the stove top and in this way prevents surface radition as in a coal or wood stove.

It is easy to see that this lessens very much the matter of personal discomfort in summer housekeeping.

So don't forget the New Perfection Oil Stove in your summer plans and you will have a comfortable kitchen and the best cook-stove in the world.

WISE SUGGESTION FOR KENT

The Founder Of The "Echo" Writes An Interesting Letter To The Chestertown High School Scholars.

The "Echo" has been revived at the Chestertown High School and among the contributions the following from one of the best teachers Kent ever had.

Editors of the Echo,

My dear young friends:—

It gives me peculiar pleasure that you should remember me and ask me to contribute a page to the time honored Echo. I am glad to be remembered as its founder. It awakens a train of happy memories and I recall the dear old times when I was a teacher in your school and it touches me deeply to know that I am not forgotten. It has always been my cherished desire to live in your memory and to have this chance to come before the old school again is to me a rare chance. It is just twenty-two years ago this Christmas time that I had a letter in the Echo. It contained my parting words to the school just before entering upon a life of great happiness.

Many interesting scenes come to my mind, I am thinking of a little letter written in a childish hand and signed by five boys, who were then in the 1-6 grade.

It contained their parting words to me and so gratifying was the sentiment expressed that I have always kept that letter and have it now among my treasures. The boys names were Willie Usilton, Clarence Perkins, Eben Perkins, David Perkins and Harvey Culp. These boys are men now filling honorable positions. I should like to mention many of my old pupils, and among these would be the ones who became teachers. It gives me a thrill of pleasure to know there are teachers in your school who were once my honored pupils. I should like to give a word of tribute to the three principals with whom I worked, Messrs. Peterson, Ebaugh and Fallowfield. Each one has been called to a higher sphere of action but the work they did to establish and organize a fine school is the foundation on which you are able now to build a fine superstructure and I would have you remember them with gratitude together with the trustees of those days—Mr. Charles Baker, Mr. Waters Russell, Mr. Colin Stam and Dr. Perkins.

While we stand in this memory gallery let us be reverently silent a moment when we think the name of our honored examiner, Mr. Eben F. Perkins who gave the best of his life to the schools of Kent.

Only two of the trustees of those days remain with you—Mr. Wm. B. Usilton and Mr. Jas. W. Chapman. But I must not dwell upon reminiscences.

It is my pleasure, once a year to visit my old home and I have watched with interest the improvements in your fair town. I rejoiced with you when the new building became a reality and it gives me pleasure to see it standing in the very shadow of the churches, rearing its proud tower as high as their spires its bell ringing out with theirs to call to the same noble work of helping and elevating humanity. In this new building with your noble band of teachers there is no limit to your privileges and possibilities.

As a school you might become a valuable auxiliary to the town improvement society. There is so much you might do in keeping the streets clean and beautifying them.

Your Arbor Day privileges might be enlarged, so that, instead of planting a few trees you might plant many, extending on every side far into the country; and if the other schools would extend their planting until they met yours, then you would have a system of public roads which would rival those of old England. In time they would be avenues of arching trees, a veritable thing of beauty and a joy forever."

I have already trespassed upon your time. I thank you for this privilege, hoping that the Echo may be heard as long as the school lasts.

I am faithfully yours,
ANNIE L. EBAUGH.

Maryland Biscuit Receipt.—The NEWS last week asked some of our lady patrons to send a good receipt for Maryland Biscuit. We have gotten several answers and select the following as one given by one of Kent's finest lady chefs and this receipt, she says, came from the Fairlee Grange receipt book:

Rub 1 pound of good lard into 6 pounds of the best flour with 2 ounces of salt, make a stiff dough with a trifle more than 1 quart of cold water or milk and water, mould it together and beat on a biscuit-block with an axe three-quarters of an hour or until the dough snaps on pulling a bit off. Cut into pieces weighing 2½ ounces and mold in smooth balls depressed in the centre, arrange in a clean dripping pan without grease or flour as they will not touch, and bake one-half an hour. To try the oven throw a little flour in the oven; if it burns in one-half minute by the clock, the heat is right if too hot the biscuits will bake without rising, if too cool they will be full of little cracks on the surface.

The Corrupt Practices act finally passed the House Thursday night with practically no opposition. All that it now needs to become a law is the signature of the Governor. The passage of this bill is the redemption of the second of the party pledges made by the Democrats. The first pledge redeemed was the suffrage amendment.

The Bill states than on or about the 7th day of March 1890, the said Martha A. Price and others conveyed certain real estate which is particularly described in said Bill unto the said Annie Hines and others by way of mortgage to secure the payment of the sum of $2500, which was then due and owing by the said Martha A. Price to said Annie Hines and others and for which the said Martha A. Price and others gave their promissory note payable one year after date with interest thereon.

That the whole of said sum of $2500, and interest thereon since the ——— day of September 1907, still remains due and owing by the said Martha A. Price and others.

That the said Martha A. Price being so indebted unto the Plaintiff and unto diver's other persons, departed this life on or about the ——— day of March 1907, leaving a last will and testament by which she devised said real estate to her children, Thomas L. That letters of administration c. t. a. were duly granted unto the said Thomas L. Price, who has passed his first administration account that the personal estate is totally insufficient to pay the debts of the Plaintiff and the other creditors of said Martha A. Price.

That the said Thomas L. Price and Eva B. Price, his wife, reside in the City of Brooklyn, in the State of New York, that the said William H. Price, and Kate Price, his wife; Olive F. Price, Nellie M. Price, Charles R. Hart, husband, all of full age; and Lillian Hart, Lambert Hart and John Hart the infant children of A. Margaret Hart deceased, all reside in the city of Philadelphia, in the state of Pennsylvania, and are non-residents of the State of Maryland.

It is thereupon this 21st day of March 1908, Ordered by the Circuit Court of Kent County in Equity and that the Plaintiff by causing a copy of this order to be inserted in some newspaper published in said Kent County, once in each of four successive weeks before the 27 day of April 1908, give notice to the said absent defendants of the object and substance of this Bill warning them to appear in this Court in person or by solicitor on or before the 14th day of May, next to show course if any they have, why a decree ought not to be passed as prayed.

In The Circuit Court For Kent County In Equity. No. 1655.

THE object of this suit is to procure a decree for the sale of certain property in Kent county, in this State, which was devised by a certain David A. Price, late of said county, deceased, to his wife, Martha A. Price for life, and then to his children, and to divide the proceeds thereof amongst the parties entitled, according to their respective interests.

The bill states that the said David A. Price was in his lifetime seized and possessed of certain real estate situated in Kent county, Maryland, that being so seized the said David A. Price departed this life on or about the —— day of December, 1888, leaving a last will by which he devised said real estate to his wife, Martha A. Price for life, and then to his children and their children. That the children of said David A. Price at the time of his death were: Thomas L. Price, and Mary A. Vansant, the plaintiffs, and William H. Price, Olive F. Price, Nellie M. Price and A. Margaret Hart. The said A. Margaret Hart has since departed this life leaving the defendants, Charles R. Hart, her husband, and Lillian Hart, Lambert Hart and John Hart, all infants, her only children.

That the said Martha A. Price departed this life in the month of March, 1907.

That the said real estate is not susceptible of division amongst the parties entitled without loss and injury and by reason of the infancy of three of the devisees a sale could not be made without the aid of this Court.
