Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through your blood arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It sends the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Name of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

(Continued from Second Page.)

ter Baird, the latter the daughter of Col. Darius Dexter, of Dexter, N. Y. She was born in Perry, Ill. Mr. and Mrs. Bryan lived for three years at Jacksonsville before moving to Lincoln, Nebraska.

Mrs. Bryan is a student and recently took a special course in literature and languages at the University of Nebraska. She has also recently studied German.

Advises Her Husband.

Mrs. Bryan has been and is still the confident and trusted adviser of her famous husband. In 1896, when Mr. Bryan went East after his nomination, it was Mrs. Bryan who warned him against the Eastern Democrats and kept him on his guard as to their plans for the campaign.

Essentially a home-loving woman, Mrs. Bryan is a member of but two local clubs in Lincoln. She is fond of her flowers, and one of her fads is the raising of chickens. She is also fond of sports and plays an excellent game of tennis or golf and can ride on horseback.

An exercise of which she is very fond is swimming. Her saddle horse is a fine Arabian mare. The home life of the Bryans is simple and unassuming. During the building of their new house at Fairview they lived for several months in a building constructed as a stable.

Mr. and Mrs. Bryan have three children—Mrs. W. H. Leavitt, who was Miss Ruth Bryan; Miss Grace Dexter Bryan and William Jennings Bryan, Jr. Mrs. Leavitt has two children—Ruth and Bradford Bryan Leavitt. William J. Bryan, Jr., is a youth of 19 and a student at the Nebraska State University. Miss Grace Bryan is studying at Hollins Institute, in Virginia.

KERN A PRODUCT OF HOOSIER STATE

LIFE SKETCH OF NEBRASKAN'S RUNNING MATE.

HELD OFFICE AT HIS HOME

Served as City Attorney Under Taggart When the Latter Was Mayor—Was A Candidate For Governor in 1900 and Defeated—Name Once Before Considered in Connection With the Vice-Presidency—Mr. Kern's Father a Virginian.

Indianapolis, Ind., July 10.—John W. Kern was born December 20, 1840, at the village of Alto, Howard county, Ind. His father, Dr. Joseph W. Kern, was a Virginian by birth, who moved to Shelby county, Ind., in 1836 and lived there until 1846, when he moved into the new Northern country. John Kern's mother was Nancy Diggett and she and Dr. Kern were married in Warren county, O., in 1834. When John was five years old the family removed to Warren county, O. In 1855, when John went to Iowa until he was 15 years old he did not see a railroad train. The family moved back to Howard county in 1864. In the 60's, while still in Iowa, Mrs. Kern died. Two children were left John and his sister, who is now Mrs. Isaac Engel, of Danville, Va. John was educated in the district schools and he continued his education by attending the Indiana Normal School, of Kokomo, Ind., riding horseback 10 miles each way every day. Later he taught school near Alto. He earned money to enter Ann Arbor, graduating from the law department of Michigan University in 1866. He immediately began practicing in Kokomo, Ind.

He was "drafted" when he was 21 years old to make the race for the legislature in the Republican county of Howard, but was defeated. He was chosen city attorney of Kokomo for six terms over Republican aspirants. In 1884 he was elected reporter of the Supreme Court. Since then Indianapolis has been his home, where he has practiced law. He has worked in every campaign, served the county in the legislature and was the leader of his party in the state Senate. He was city attorney under the last two administrations of Mayor Thomas Taggart, from October, 1897, to October, 1901. In 1900 he was nominated for governor, but was defeated. Before the St. Louis convention of four years ago Mr. Kern's name had been prominently mentioned among the vice presidential possibilities.

Mr. Kern has been president of the Commercial Club, and has always been conspicuous in all state and civic movements. Mrs. Kern is prominent in all of the social and literary affairs of the city. Miss Julia Kern, their daughter, is well known socially. There are two other children—John W. Kern, Jr., aged nine, and William H. Kern, who is now five years old.

A Revelation

It is a revelation to people, the severe cases of lung trouble that have been cured by Foley's Honey and Tar. It not only stops the cough but heals and strengthens the lungs. I, M. Ruggies, Resnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhage and pain in my lungs and they are now as sound as a bell." Sold by all druggists.

Why Governor Crothers Is Absent.

A letter from Governor Crothers was read at the night session in which the Governor explained his regret that preparation for the coming Democratic convention prevented his presence as one of the speakers for the evening. Governor Crothers' place on the program was filled by Mr. J. D. Bledsoe, superintendent of the Maryland School for the Blind. Mr. Bledsoe gave an interesting account of the development of instruction of the blind since 1784, when a printer began to teach a blind beggar and later invented embossed type for reading by touch.

1908 COAL 1908

STOVE, EGG AND NUT.

I have on hand an entirely new stock of Lehigh and Mahony Coal—bright, clean and not a lump of old stock. All kinds covered. Oak and Pine wood sawed and split; all kinds of staves, KIDDLING, short and long as you want it. With thanks, A. P. MATTHEWS, Chestertown.

COURSE OF STUDY.

Prescribed By State Board Of Education At Ocean City Last Week.

The State Board of Education met in Ocean City Friday in practically an all-day session. Governor Crothers and Mr. Robert C. Cook were unable to attend and the members present were Messrs. M. Bates Stephens, Clayton Furnell, Zadock P. Wharton, Col. W. S. Powell, Dr. T. H. Lewis and Rufus K. Wood. Miss Inez Johnson, of Frostburg, Md., was elected primary teacher in the model department of the State. A uniform course of study was adopted by the State Board for the three normal schools of Baltimore, Frostburg and Chestertown, and the recommendation of the State Superintendent of a number of high schools for the approved list was adopted.

The course of study for normal schools in Maryland adopted by the State Board of Education June 25, 1908, is as follows: "The course of study required by who would obtain a normal school diploma in Maryland covers two years and is designated the normal course. To enter that course a student must hold a certificate from an approved high school in Maryland or pass examination on a course equivalent to that pursued in such high school or complete the course herein laid down and designated the academic course.

"The academic course covers two years, and to enter the first year of that course a student must have completed the eighth grade in the public schools of Maryland, according to the schedule adopted by the State Board of Education, or pass examinations equivalent to that.

The Course Outlined.

Academic Course (First Year)—English, composition and rhetoric, first term, three periods each week; second term, three periods each week. History, ancient and medieval, first term, three periods each week; second term, three periods each week. Why Governor Crothers Is Absent. A letter from Governor Crothers was read at the night session in which the Governor explained his regret that preparation for the coming Democratic convention prevented his presence as one of the speakers for the evening. Governor Crothers' place on the program was filled by Mr. J. D. Bledsoe, superintendent of the Maryland School for the Blind. Mr. Bledsoe gave an interesting account of the development of instruction of the blind since 1784, when a printer began to teach a blind beggar and later invented embossed type for reading by touch.

Takes both to make Good Wheat POTASH

Good clover follows good wheat, but it takes Potash to set the clover.

Starved clover won't feed the crop that follows it. It needs a vigorous root and a sturdy growth for itself before it can gather nitrogen for you. Give it a good start by enough Potash with your phosphates in this Fall's seeding of wheat or rye. The clover will do the rest—you'll see when you cut the clover. Clover, timothy, rye and oats, for turning under, or a crop in rotation—all need more Potash than most commercial mixtures afford. Do not use fertilizers that contain less than 6 per cent. Potash. If your dealer does not carry them, then mix 15 pounds of Muriate of Potash with each 100 pounds of your fertilizer. Potash is profit. Buy the Potash first.

Send for pamphlets containing facts about soil, crops, manures and fertilizers. Mailed free.

Isn't It Awful?

You surely know by this time that a cream separator may even double your dairy profits, and make the work easier, too. Then why not have one?

Just take one good look at these pictures—and then a good look at your wife. The upper picture shows the simple bowl of the Dairy Tubular Separator—washed clean in one to three minutes. The other picture shows the actual insides of one of the many styles of complicated bowls used in all other separators. Which are you going to ask your wife to wash? We'll be pleased to take a Tubular apart for you. Bring your wife to see it.
