MAXIMUM QUALITY MINIMUM PRICE

A. L. Sparks' Emporium

A SPLENDID STOCK OF

Dress Goods

When the quality can be thoroughly depended upon and the price is entirely moderate, the buying proposition becomes a very simple matter. Here we offer you the very best that is possible to buy; show an extremely large assortment including all the new and popular shades and the range of prices makes it possible for every one to find something here exactly as wanted.

SILKS SILKS SILKS

The price of silks have advanced very materially but we are still offering our guaranteed 3/8 inch black taffeta at \$1.00 per yard.

Over twelve hundred yards sold in the preceding twelve months without a dissatisfied customer.

DOMESTICS DOMESTICS

We are selling staple muslin at wholesale prices, our purchases before the advance enable us to do this.

MILLINERY . . . MILLINERY

The Rich and Refined in Millinery has full an eloquent expression in this department of our store. Efforts intelligently directed are productive of results beyond precedent in the all-important questions of style, elegance and quality.

Your attention is directed to our extremely low prices.

This Department has stood the test of a careful buying public for years and is now complete with an array of stylish and up-to-date garments not often seen except in a city store.

Our well-known low prices are a large factor in the successful business done in this department.

Come and see us, we can show you our stock much better than we can tell you about it.

SATURDAY, JULY 25, 1908.

A BEE in an apple eaten by a hog belonging to Albert Burke, at Red Pump, Md., stung the animal in the throat and caused it to suffocate.

GOMPERS and MITCHELL, the great labor leaders, have announced their intention of supporting Bryan and Kern, How's that for a starter? This is the first time that Mr. Bryan has had the support of the great labor organizations. It is simply a whole stack of straw to show how the wind is blowing.

The Cochran and Jones Lumber Company was incorporated to purchase, lease or otherwise acquire timber, farm and grazing lands in Delaware and Maryland. The incorporators are George F. P. Cochran, George L. Townsend and Henry Corbit Jones, all of Middletown. The capital stock is \$50,000. It is reported that this company will start a lumber yard at Georgetown, this county.

It was stated this week by a number of business men at Ocean City that there has been more active business at that resort so far this year than has been done in years when the saloons were wide open. The large number of people already at Ocean City indicate that the season will be a profitable one to the merchants.

The 127th session of Washington College, Chestertown, begins September 18th, as per announcement in our advertising columns. This college offers four courses of study—classical, latinscientific, scientific, each leading up to the degree of Bachelor of Arts, and normal, leading to the normal diploma, which entitles the holder to teach in any county of the State without examinations. Sub-Freshman and Sub-Normal classes are maintained for the benefit of those who desire a thorough preparation. In the Collegiate Department the elective system enables each student to select the studies suited to his particular needs.

With the trip of the pay car on Monday the employees of the P. B. & W. R. received their last pay in check form. In the future they will be paid in cash from a steel car containing a regular bank. By the new system the three days that it required to make out the checks will be saved.

On the pay-rolls of the Pennsylvania Railroad are 1350 active employees who have been with the road more than 40 years, beside there are 1013 who have served the company more than 40 years, but have retired and are receiving pensions.

Roads in Two Counties Fixed.—The State Road Commission, after arguments last Wednesday by delegations from St. Mary's and Calvert counties for and against several proposed routes for improved roads, decided to stand by its original selections of routes in these counties. The next meeting of the commission will be held next week when preliminary routes for roads will be located in several counties. On August 4 public hearing similar to that of Wednesday will be given on preliminary routes already selected in Cecil, Kent, Caroline Queen Anne's and Talbot counties. After these public hearings the roads to be improved in those counties will be permanently located. The taxpayers of this county should bear the date in mind and hold a public meeting in the meantime and select a route that will be satisfactory to the majority of taxpayers and not put it off until the route is selected by the commission before they make their "kick," when it will be entirely too late to accomplish anything.

CHILD KILLED BY A REAPER
Machine Driven By Father Passes Over Baby in Wheat—Other Accidents.

Frederick, Md., July 11.—Mr. Henry Deardorf, of near Booneville, a farmer, living across the Maryland State line in Pennsylvania, drove a reaper over his little child, killing it almost instantly.

The little boy had been playing at the barn while the father was hitching horses to the machine. Unobserved the child crawled into the field and lay down under a tree in the wheat. Thinking the child was still in the barn Mr. Deardorf drove into the field and let down the binder blade. Upon making a second round he came upon its motionless form lying directly in the path of the machine. Finding that the child had been run over he carried its body into the house and summoned a physician. Death ensued in about 10 minutes from concussion of the brain, the sheaf carrier having struck him at the base of the brain.

A most shocking accident occurred Monday morning last at the farm of Mr. Charles Smith, about three miles from Salisbury. Mrs. Smith had a large pot of water boiling on an open fire in the yard, when her little daughter, two and a half years old, who was playing around the yard fell into the boiling pot and was frightfully scalded. The parents summoned Dr. Dick who did all in his power to relieve the little sufferer, but the child died on Tuesday.

Farmer Caught in a Steel Trap. Caught in a steel trap, Hiram Conoway, a farmer near Greenwood, Del., was held for a half day until rescued by his wife. Tuesday he went to a swamp part of the farm to clear off the timber there. In moving around, he was suddenly caught around the leg by jaws of steel. With a jerk he attempted to escape, but fell to the ground, breaking his right arm. He tried to pry himself loose, but with the broken arm he could do nothing, and every movement only brought him more pain. Suffering from his broken arm and the teeth of the trap, which was fastened to a tree, he yelled until he was hoarse, and half conscious he lay there until after dark, when his frightened wife finally found him and dragged him nearly a mile to the home.

SEEKING NEW HOMES.
Messrs. Allie Townsend, Royce Bartlett, Edgar Duke and Horace Powell, all with the exception of Bartlett, residents of Centerville, left town on the train over the Queen Anne's and Kent branch of the Pennsylvania Railroad last Wednesday morning, for a trip to Seattle, Wash., in which place, we are informed, they propose to work their way to Seattle, Washington, where the Alaska-Yukon Pacific line will be held next year. It is said it is the desire of the young men to see more of the world.

Since the above article was put in type two of the fortune seekers have returned home, arriving Thursday night, after having been gone just two days. One of the party who has just returned was not looked for so soon, as he is said to be a first-class pedestrian and has made a number of journeys before. It is not known just how long the rest of the party will remain away, but they are looked for on the arrival of every incoming train. There is no place like home, especially when the vitals are cooked and served like they are in and near Centerville.—Record.

COMMON SENSE
Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrapper and advise its correctness under oath, are daily growing in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce, being desirous of having the search light of investigation turned fully upon his formula, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hunch-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unequalled endorsement of scores of medical leaders—better than any amount of lay or non-professional testimonials. They are not given away to be experimented with but are made by all dealers in medicines at reasonable prices.
