RAILROAD PROBLEM HALTS PROSPERITY

Present Situation of Carriers Most Important Factor in Business Recovery.

Manner in Which Freight Rate Problem is Solved Will Decide Fate of Roads, Chicago Authority Says.

Alfred H. Mulliken, president of Peabody, Mulliken & Co. of Chicago, one of the best posted men in the country on railroad topics, has made a public statement in which he says: "Every man in the United States who is interested in the return and maintenance of prosperity is asked to consider carefully the following facts. Although the recent adversity came when the prosperity of the railroads was most pronounced, it was due to the attacks upon them, which compelled the roads to stop all expenditures for improvement, as their attack upon their credit made it impossible for them to sell bonds or obtain money. The panic of 1907 was caused by the attack upon railway credit, which created a fear in the minds of the people which led them to distrust all securities. But, putting aside railroad history, we are now faced by a condition, not by the past.

All Desire Prosperity.

What we all desire is prosperity. We cannot be prosperous if any large interest among our people is suffering and depressed. The credit of an individual or of a corporation is only improved by an increase in their net earnings. The railroad expenses have increased in the one item of labor alone \$100,000,000 in the last twelve months. They face this situation: Either reduce wages, increase freight rates or go into the hands of receivers and stop all payments for interest and dividends. The roads have been forced by public opinion and by the administration to advance wages and by the same are unable to reduce them. They are therefore compelled to face the other two alternatives.

We know what would be the effect of many roads going into the hands of receivers. The only practicable alternative, therefore, is to advance freight rates throughout the country.

Increases Not Felt by Consumers.

This advance will eventually fall upon the consumer, but it will be so small that he will not notice it. For instance, a 10 per cent horizontal increase in freight rates would hardly be known by any consumer. This increase on a suit of clothes from New York to Chicago would be less than 1 cent per suit, on a pair of shoes from Boston to Chicago less than half a cent per pair, on a hat from New York to Chicago less than one-third of a cent per hat. To the railroads it would mean an increase of \$140,000,000 to \$150,000,000 in earnings per year.

The Carriers as Buyers.

The railroads consume 50 per cent of the iron and steel manufactured in this country, and the moment railroad buying ceased activity in the steel mills diminished and business generally was impaired.

The railroads are the second largest purchasers of everything in the United States. Seventy per cent of their earnings are immediately distributed for labor and material. Within the last twelve months they have increased their payments to their employees over \$100,000,000. Does any one think that this \$100,000,000 is not a benefit to the people?

Dividends paid by all the railroads in the United States in 1907, the most prosperous year, was 3.75 per cent. The average dividend per annum paid by all railroads in the past thirteen years was less than 2 1/2 per cent per year.

Our Roads Charge Lowest Rates.

Freight rates are higher in this country than in any other, and the service here is much better than in any other region on earth.

The capitalization of the railroads in the United States is lower than in any other country. The average is about \$67,000 per mile in stocks and bonds. In France the average is about \$140,000, in Germany about \$110,000, in England about \$275,000 per mile, and one English road is capitalized at \$200,000 per mile, on which it pays 4 per cent dividends.

On these high values the French railroads pay 4.5 per cent, the English 4 per cent and the German 6 1/2 per cent. A reduction in freight rates below a fair return to the railroads does not help any one.

Railroad Prosperity Helps All.

It is absolutely true that the railroads cannot prosper without helping the people. They do not hoard their earnings. As stated above, 70 per cent of their gross earnings are spent immediately for labor and material.

If this advance in freight rates takes place it will improve the credit of the railroads, it will enable them to sell long time bonds at a fair rate of interest and use the money to properly maintain and improve their properties. The railroads should be helped, not hindered, in their efforts to keep out of bankruptcy, improve their properties and give adequate service.

A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal or pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness. If any considerable number of the above symptoms are present there is no remedy that will give quicker relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening medicine known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills. You cannot afford to accept any medicine of unknown composition as a substitute for this well-proven remedy or expose your system to the danger of a serious complication, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.
