Perseverance

A steady accumulation of small savings deposited as they are saved in a safe and sound institution like this, where they will draw interest, will in a few years amount to a total of surprising magnitude.

At first the amount may seem small, and determined perseverance may be necessary to overcome discouragement; but after a year or two the accumulations will begin to be a stimulus to further saving, and you will find that with an increasing principal comes an increased interest.

FELL IN MILL RACE.

Little Two-Year-Old Boy Rescued From Urville Pond by Mother on Monday.

The two-year-old son of Mr. and Mrs. J. W. Solloway, of Urville mill, made a narrow escape from drowning Monday afternoon. While the mother was busy in the kitchen the little fellow wandered away and finally reached the mill race which is but a short distance from the house. Mrs. S. has been ever watchful less the active little fellow would get into the stream, and as soon as she missed him went there to look for him. But he was not there. Going further up stream to the forebay she was shocked to see the little fellow floating on the water on his stomach as if he had just fallen overboard! His head was even under the water. She quickly rescued the lad and seeing he was black in the face and to all appearances lifeless, she ran to the house for help. In carrying the child on her arm she had jolted what water he had swallowed out of him and she could see signs of life. Dr. G. I. Barwick and wife were summoned and the little fellow soon revived. It was certainly a narrow escape.

It is reported that Mrs. Hickey is to be the new postmistress at Pomona.

The Bryan Club of Fourth and Seventh Districts will meet in Court House Tuesday evening next, at 7.30.

The Ladies Town Improvement Association will meet next Monday afternoon at 2 o'clock at the residence of Mrs. H. H. Barroll. A full attendance is requested.
