ESTABLISHED 1841. SUBSCRIPTION \$1.00 PER YEAR. FRED. G. USLTON, WM. B. USLTON, JR. WM. B. USLTON'S SONS. PUBLISHERS AND EDITORS. SATURDAY, OCTOBER 31, 1908.

ELECTION DAY—TUESDAY, NOV. 3. BRYAN is the Washington of America.

"SLASH" is the name applied to the hood used by the Republicans in Indiana, Ohio and New York. It is their only hope.

TOM PARRAN, the Republican Chairman, puts Kent down 100 majority for Bryan! Well, that may start it. But it will be nearer four times that.

The report that directors of the banks in Chestertown would vote for Taft is false in toto. Every one of them—except the Republicans—are heartily for Bryan.

Among all the good planks in the Democratic platform there is none better than the guarantee of bank deposits. That alone ought to be sufficient to insure his election.

Bryan will get every Democratic vote in Kent County. We do not believe that a single one will be so untrue to his party—to the best interest of his country—as to fail in his duty next Tuesday.

The New York Herald says "no one now fears that Mr. Bryan's election would provoke an industrial, commercial and financial cataclysm." This gives the lie to the Sun's scare-crow articles.

MARYLAND is safe for 5,000 for Bryan. The Sun evidently sees the handwriting on the wall and is begging Democrats not to desert her in her sinking condition. The Sun is to be pitied rather than condemned.

Democratic voters, bear in mind that two crosses (X) marks are needed to vote the full ticket—opposite the names of Bryan and Kern, and another opposite the name of James Harry Covington.

The Democratic party has but TWO tickets to vote NEXT TUESDAY: Get out a full vote and see that every voter mark his ticket correctly. If this is done we shall have a glorious victory for all of our great standard bearers.

DAVID B. HILL, the great New York Governor, who has always opposed Bryan, now comes forward and says: "I am sure now that Bryan is right in all the planks in his platform; the country needs just such a man. I will do my best to elect him."

ONLY TWO MARKS are requisite to vote a full Democratic ticket next Tuesday. Bear this in mind: TWO MARKS—only one in the square opposite the names: BRYAN AND KERN and the other opposite the name: JAMES HARRY COVINGTON.

The County is to be congratulated upon the industry with which they have conducted the business of this term. They have worked early and late and been cognizant of the burdens of the taxpayers of Kent, and as far as possible tries to relieve same.

EVERY case but one tried before the Circuit Court this week has been among the colored race. It is indeed remarkable and aggravating, too, that our courts are occupied with so much criminal business and nearly all of it caused by lawless negroes.

To vote the complete ticket will require but two marks this year. A cross mark opposite the names of Bryan and Kern will vote for the eight Democratic electors, and a cross mark opposite the words "James Harry Covington," votes for the Democratic Congressman.

The Democratic platform stands for tariff reform and a cessation of the robbing of the consumer to further enrich millionaire manufacturers; for a square deal to the workingman, and the protection of his rights in the courts; for the guarantee that the poor man's savings shall not be swept away by reckless or dishonest banking. How can you beat it?

JAMES HARRY COVINGTON, the Democratic nominee for Congress, while yet a young man, has proven himself to be one who does things. He is not the kind of man who could remain supinely at home and allow the interests of his constituents to take their chances at Washington. A vote for him is a vote for able, conscientious representation.

THERE is absolutely no possibility of Mr. Jackson being elected to Congress unless it should be by the use of money on election day. The Democratic party has it in its power to abolish that feature of the campaign, and if it does not do so deserves defeat. A few determined men at each polling place on the Eastern shore can stop the buying of votes, and the party owes its candidate, Mr. Covington, to see that this is done.

Democrats, Remember!

In order to make certain the election of Bryan, Kern and Covington, do not fail to go to the polls on Tuesday, November 3. Remember also, that in order to vote the straight Democratic ticket, you must make one cross mark opposite the names of Bryan and Kern and also one cross mark opposite the name James Harry Covington. Two cross marks votes the straight Democratic ticket.

How to vote—make TWO marks only—one in the square opposite the names of BRYAN AND KERN, and the other opposite the name of JAMES HARRY COVINGTON.

WHAT HYPOCRISY! President Roosevelt last week ordered the discharge of one of his petty party officials, who receives \$300 per year salary, for "pernicious activity in politics!" Yet the President himself has been as active in his efforts to secure Taft's election as any one, in office or out! More than that he has forced all his Cabinet to go out and take the stump! What ridiculous hypocrisy is this!

The most nonsensical of all the arguments used by Republican orators and newspapers against the election of Bryan is that he would be an unsafe man in the Presidential chair. An unsafe man!

WILLIAM JENNINGS BRYAN—the greatest of all living American statesmen to-day—a genuine patriot—a pure Christian man—would be unsafe? Teddy, or rather his man Taft, can alone bring the country back from the panic depths into which he and his party has plunged it! No, no, intelligent voters will hardly be fooled by such illogical pleading.

BRYAN is the only safe man to elect.

ROOSEVELT TO BECOME EDITOR. President Roosevelt has signed a contract with the Outlook to act as an associate editor after his retirement from the Presidency, in March next.

This is made subject to the existing contract to write the story of his African travels for Charles Scribner's Sons. His work in connection with the Outlook is to cover political and economic topics.

NO MORE BRIBERY IN MARYLAND. The new law known as the "Corrupt Practice Act," sounds the death knell to bribery in Maryland. Every good citizen of the State must rejoice in such a consummation. All the political parties are entitled to a full share in the honor of placing such a salutary law upon the statute books, and the people generally will see that it is strictly enforced.

Any payment of money, employment, gift or promise of any kind, to influence a voter subjects the offender to a heavy penalty—fine, imprisonment or disfranchisement. A better day has dawned for the electorate in Kent and the State.

"ORATOR" COULDN'T EXPLAIN IT! Messrs. Vannort, McMenamin, Davis and other Republican orators in Kent have been doing valiant service the past week in teaching the colored brother at the night meetings why he should stick to Taft. But some things they are unable to elucidate—nor can any one else. They use the stock arguments of the party—tell what an unsafe President Bryan would be and what lovely things would happen under a Teddy-Taft regime!

Among other things they declared the other night that the paper mill would start up immediately if Taft was elected!

One colored voter queried thus: "I say, boss, will you 'splain to us why dis publican paper mill has been shut up all dese months and de Dimikrat basket factory down town is kep' steady at it?" Nobody answered, and the colored brother popped another:

"Also, boss, how can we believe you will give us prosperity after de election if on us fore de election?"

The people are learning that Bryan is the safest and best man to elect—certainly more likely to bring prosperity than the men who caused the panic by their wretched tariff which has so long cursed the country.

FAVORS PLAN TO BRIDGE THE BAY

At Least \$1,000 Suggested as the Sum Necessary for the Preliminary Survey—The Idea of Bridging the Chesapeake Bay is Considered as Being Entirely Feasible.

The project of bridging the Chesapeake, in order to bring Baltimore in closer touch with the Eastern Shore, received a big boost Tuesday, when it became known that the committee which was appointed by the Merchants and Manufacturers' Association to look into the feasibility of the plan, will report favorably, and will recommend the expenditure of \$1,000 for a preliminary survey.

Mr. W. E. Weatherly has been interested in the project for over two years, and for the last five months has been trying to interest the Merchant and Manufacturers' Association and other trade bodies, as well as the people of Eastern Shore in the plan which he has worked out. So impressed was the executive committee of the Merchants and Manufacturers' Association recently with the ideas advanced by Mr. Weatherly that a committee was appointed to look into the matter. This committee has made an exhaustive examination, and is so convinced of its practicability and the advantages which would result to Baltimore, that it earnestly recommends in its report that \$1000 be expended in a preliminary survey to be made by Westinghouse, Church, Kerr & Company, New York.

If the appropriation is made by the executive committee, and there is no slightest doubt but that it will be made, the committee will have complete charge of the survey.

Mr. Frank N. Hoen, chairman of the committee, which has just completed the investigation, is very much impressed with its practicability, small cost and the enormous advantages resulting to Baltimore. In discussing the plan he spoke of it in the highest terms. The exact spot where the bridge will cross is being withheld for the present. It is said that the entire plan can be financed for \$5,000,000, while the longest single stretch of bridge will only be three miles in length. Mr. Weatherly is absolutely convinced of the fact that the bridge is not only practical, but will be a very profitable venture. He points out that there are scores of long bridges in the country, one being so close as Albemarle Sound.

The idea, of course, will be to run a fast trolley service over the bridge into the Eastern Shore, and thus bring the entire Shore within a few hours ride of Baltimore. This will place Baltimore where it used to be in regard to the Eastern Shore trade, for with a good trolley service Philadelphia will not be able to compete with this city. Connecting links of trolleys would soon sprout up to get their way to the shore, and a cobweb of lines connecting and main line leading to Baltimore with its Eastern Shore and Delaware, would soon be carrying freight as well as passengers to this city.
