ESTABLISHED 1841. SUBSCRIPTION \$1.00 PER YEAR. PUBLISHED BY WM. B. USILTON, JR. PUBLISHERS AND EDITORS. SATURDAY, JANUARY 16, 1909.

The inauguration of a gas plant in Chestertown will be hailed with pleasure by our citizens. The Board of Commissioners have done a wise thing in encouraging its establishment.

The President rode 98 miles on horseback Wednesday to prove that it should be no hardship for an officer to do the same thing. He was unharmed while the army man is supposed to be in fine condition. He is surely a strenuous man. Part of the trip was made in a rain storm after night.

The Peninsula Horticultural Society met in Wilmington this week and elected Mr. W. Irving Walker president. Among those present from Kent were Messrs. E. W. Emory, H. P. Skipper and others. The display of fruits exceeding any yet made at the Association. Learned speakers addressed the meetings.

Gov. CROTHERS has named a commission to suggest changes in our present game laws and placed Isaac Gibbs, Esq., of Kent, on same. A State law is badly needed and not laws that apply to single counties.

The Governor has named Senator Wm. M. Slay as chairman of the commission to revise the banking laws of the State.

The "harmony" dinner in Baltimore was a grand success. The Governor's strong speech struck a responsive chord in every breast. Kent county Democrats adopted the Crawford county system several years ago and find it to be satisfactory to everyone. Messrs. Wm. M. Slay, Marion deK. Smith, Wm. B. Usilton, Dr. W. F. Hines and R. H. Collins were present at the feast from Kent.

OUR WATER SUPPLY.

Present Conditions and Future Possibilities. Chestertown has not yet succeeded in securing needed additional water supply for which the authorities have been so earnestly striving. A new artesian well, it was hoped, would give water in plenty and of highest quality. But up to this time it is a failure. The contractor, the Messrs. Shannahan, have reached a depth of 1115 feet under varying difficulties without the results desired, and now they are into a rock which they declare almost impenetrable. The contractors notified the Water Board of the conditions, and on Wednesday night the subject was considered by this board in a joint meeting with the town commissioners. Mr. Shannahan thought it practically useless to attempt to go through the rock, except with a drill and pipe so small as to be utterly powerless to lift any large quantity of water, even if it was found. The meeting, however, determined that nothing should be left undone to get some good results, and the contractor was directed to make further efforts to get through the rock. The work has cost \$3,345 so far, and though the desired results have not been secured, it may be of value in demonstrating the non-utility of artesian wells in the "spring meadows."

The next move—provided the present well is a failure, as now appears certain—will be to use storage tanks to purify the old artesian waters. This well is almost inexhaustible in water of the finest quality, except for its taint of iron and sulphur. These extraneous ingredients can be eliminated by the storage system. This system was carefully considered, with this object in view, by the former water committee, and would most certainly have been adopted had the sale of the works to the town not taken place. This is the thing to do now, and the great boon of an abundant and pure water supply for the town will be realized after it.

Mr. Shannahan thinks he can save a 500 foot well by withdrawing his pipes to that depth, and striking the same stream that supplies the old artesian. The water will be of the same character, but the quantity, it is thought, will be measurably increased.

The authorities are doing all in their power to get the best results, and should not be unjustly criticised for failures or mistakes beyond their power to control.

In another column will be found a statement concerning the excellent results of the business of the year of the Kent County Mutual Fire Insurance Co. This company today under the management of Mr. Thomas W. Eliason, president, and the careful directorate is one of the most successful institutions on this peninsula. It benefits every member and not a limited number of stockholders.

On another page of the News today will be found the able address of School Commissioner John P. Ahern delivered before the School Commissioners of the State in Baltimore. Also able papers on Grange matters and an interesting history of Rock Hall.

The Fireman's Carnival on January 26, 27 and 28 will be a big affair. Make your arrangements to be present.

COURT OF APPEALS OPINIONS.

Judgment of Court Reversed in Railroad Damage Case Removed From Kent—To Get Pay For Peaches.

Judge Burke delivered the opinion of the Court of Appeals in the case of the Philadelphia, Baltimore and Washington R. R. vs. Henry M. Green. Judgment reversed with costs and new trial awarded. This was one of four cases, two of which were tried at Chestertown. Green was awarded a verdict of \$1,000 and Jones \$500. The two cases tried at Easton resulted in a verdict of \$1,500 each. So that this ruling of the higher court will likely affect all the cases. The costs in the Green case is over \$1,000. Marion deK. Smith, Esq., was the counsel for the railroad company.

Philadelphia, Baltimore and Washington Railroad Company against George F. Diffendal, appealed from the Circuit Court for Carroll County.—This is a damage-suit case instituted by the appellee to recover for injuries alleged to have been sustained by reason of the alleged negligence of the defendant company, in the transportation of a carload of peaches from Baltimore to Washington, D. C. The plaintiff obtained a verdict of \$608, and from that judgment the company appealed. The damages sued for lay in the fact that the peaches were delayed in reaching their destination and many of them had rotted. At the trial below the defendant offered no evidence whatever in defense of the action, but relied upon what it contends was a failure of proof on the part of the plaintiff to sustain the action. It is held by the Court of Appeals that the plaintiff is entitled to be compensated to the extent of his loss, and it affirms the judgment of the Carroll County Court.
