WALTER T. PIPPIN,

Contractor & Builder.

Plans and Specifications Made on Application.

I offer my services and only ask a chance to prove the following assertions:

I deal with mills that work clean and smooth materials.

I give my personal supervision to all my work.

My work is carefully constructed with care to last and give satisfaction.

I have had a wide experience in all classes of buildings.

I use nothing but Ash Posts and Balustrades in main stairway dwelling houses.

3 years experience in Washington city.

19 years experience in Chestertown and adjoining counties.

I employ the best mechanics the market will afford and compete for all classes of work.

I endeavor to advise my patrons to build in seasons that there will be no risk from chimneys falling to pieces and mortar falling off.

Respectfully yours,

WALTER T. PIPPIN,

j9 6m Chestertown, Md.

It is just a common cold, people say, there's no danger in that. Admitting their statement, then there are *uncommon* colds, colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the best is "Dr. Pierce's Pleasant Pellets." If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well known alterative extract, which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

It contains no alcohol to shrivel up the blood corpuscles, but makes pure rich red blood.

Dr. Pierce's 1000-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. 1008 pages. It was formerly sold for $1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE UNIVERSAL EXPOSITION

The Achievements of Individuals and Nations Faithfully Recorded by This Encyclopedia of Society.

By FREDERICK J. V. SKIFF, Director of Exhibits, World's Fair.

"The wisdom of all ages is none too great for the world's work." In this single salient sentence, uttered in his famous address at Buffalo in September, 1901, President McKinley described the object and the result of expositions.

A modern universal exposition is a collection of the wisdom and achievements of the world, for the inspection of the world, for the study of its experts, by which they may make comparisons and deduction and develop plans for future improvements and progress. Such a universal exposition might well be called an encyclopedia of society. It constitutes a classified, compact, indexed compendium of the achievements and ideas of society in all phases of its activity, extending to the most material as well as the most refined. It offers illustrations covering the full field of social performance, from the production of the shoes on our feet and the pavement beneath them to a presentation of the rarest and most delicate creations of the brains and hands of men in what are called the fine arts of civilization.

The Universal Exposition in St. Louis in 1904 will be such a social encyclopedia in the most comprehensive and accurate sense. It will give to the world in revised and complete details "a living picture of the artistic and industrial development at which mankind has arrived" and will actually provide "a new starting point from which all men may direct future exertions." It will present for the inspection of specialists in all lines of industrial and social endeavor and for the public an assembly of the best which the world has done and has to show in industry, art and science, and, what is very important, it will offer these achievements of society, these trophies of civilization, in a highly selected, accurately classified array.

The creators of the St. Louis Exposition have had the experience of all previous great expositions by which to plan and effect its high organization. The continuous and repeated burden of the message of experience handed down by all expositions has been more perfect, more effective classification and arrangement of exhibits.

The classification of the St. Louis Exposition has been prepared to present a sequential synopsis of the developments that have marked man's progress. On its bases will be assembled the most highly organized exposition the world has yet seen.

The St. Louis classification is divided into 16 departments, 144 groups and 807 classes. These grand departments in their order will record what man has accomplished at this time with his faculties, industry and skill and the natural resources at his command in the environment in which he has been placed.

At the head of the Exposition classification has been placed Education, through which man enters social life. Second comes Art, showing the condition of his culture and development. Liberal Arts and Applied Sciences are placed third, to indicate the result of his education and culture, illustrate his tastes and demonstrate his inventive genius, scientific attainment and artistic expression. These three departments equip him for the battle and prepare him for the enjoyments of life. The raw material departments, Agriculture, Horticulture, Mining and Forestry, show how man conserves the forces of nature to his uses. The Department of Manufactures will show what he has done with them; the Department of Machinery the tools he has used. The Department of Transportation will show how he overcomes distances and secures access to all parts of the world. The Department of Electricity will indicate the great forces he has discovered and utilized to convey power and intelligence. And so through the several departments to Anthropology, in which man studies man; and to Social Economy, which will illustrate the development of the human race, how it has overcome the difficulties of civilization and solved problems in which society is involved.

Last is placed physical culture, in which man, his intelligence having reached the supreme point, is able to treat himself as an animal, realizing that his intellectual and moral constitutions require a sound physical body to prompt them to the proper performance of their function.

Education is the keynote of the Universal Exposition of 1904. Each department of the world's labor and development will be represented at St. Louis, classified and installed in such manner that all engaged or interested in such branch of activity may come and see, examine, study and go away advised. Each of the separate sections of the Exposition will be an equivalent of—or, rather, will be in actuality a comprehensive and most effective object lesson in—the line of industrial and social achievement and progress which its presents.

Whooping Cough.

"In the sping of 1901 my children had whooping cough," says Mrs. W. Capps, of Capps, Ala. "I used Chamberlain's Cough Remedy with the most satisactory results. I think this is the best remedy I have ever seen for whooping cough." This remedy keeps the cough loose, lessens the severity and frequency of the coughing spells and countereacts any tendency toward pneumonia. For sale by M. A. Toulson, Druggist, Chestertown, Md.

A Hard Struggle.

It's a hard struggle to fight the battles of life with the heavy burdens of kidney ills. The constantly aching back—The weariness—Distressing urinary disorders—All yield quickly to

Doan's Kidney Pills,

A Modern Medicine for Every Kidney Ill.

Mr. William McLaughlin, of No. 542 South Duke street, Lancaster, Pa., says: "I first noticed my back give out when I was a letter carrier. I was constantly taking cold, and it always settled in my back. I employed a doctor and took numerous kinds of medicine, but they availed me nothing. When on the railroad the work made me worse. The pain was sharp in the small of the back, and at night when in bed it was terrible, and I often had to get up on account of a urinary weakness. I sent my daughter to Hull's drugstore and got Doan's Kidney Pills. After using them for three days I felt better. I continued until I was all over my trouble, and could heartily recommend Doan's Kidney Pills to others."

Doan's Kidney Pills for sale by all druggists; 50 cents per box. Foster-Milburn Co., Buffalo, N. Y.
