What The Earth Produces.

The earth has nourished us through unknown ages of human existence. Is it not true that the earth supplies us with everything that we really require for existence? Have you ever thought that it is probable that the earth supplies us with the means to keep our bodily vigor, our health, if we only knew it? The animals know by instinct what is good for them and will search until they find in some plant what they need for correcting indigestion or constipation, etc. Is it, therefore, not possible that there are roots and herbs supplied by nature which will cure the diseases that afflict human kind? That is why Dr. Pierce, of Buffalo, N. Y., has such faith in his "Medical Discovery." Years ago, when he was in general and active practice, he found that a combination of certain herbs and roots made into an alterative extract, without the use of alcohol, would always put the stomach into a healthy condition, nourish the tissues, feed the blood and nerves and put healthy tone into the whole system.

Dr. Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

L. Royalty, Esq., Justice of the Peace, Lexington, Ky., for 29 years, writes: "I am satisfied that Dr. Pierce's Golden Medical Discovery will give permanent relief, and cure any one who may be suffering from stomach and liver trouble, which as a rule are the result of bowel difficulties. My experience with the above-named medicine was most satisfactory. It soon had my system well regulated and toned up, and I have felt in splendid health and spirits ever since."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 cents in stamps for paper-covered, or, 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

DISARMING THE GODS.

How Chinese, Japanese and Hindoo Boys Prepare For School Life.

Among the eastern nations the beginning of school life is a critical time for the child. The priest or astrologer must be consulted to choose a lucky day. Every precaution must be taken to avert the jealousy of the gods, whose malice is especially directed against a fine boy.

The Chinese father who adores his son will take the utmost pains to convince the powers of the air that the boy is of no account. The child may be given a despicable name, like flea or chutze, a pig, or, more insulting still, he may be given a girl's name. The boy may be started off to school wearing a girl's dress and one earring, and if the deception is complete this will be the most effectual of all, for even the gods do not care for girls in China.

The Japanese schoolboy wears hanging from his belt a little red bag containing a brass tag with his name and his parents' name and address upon it. He must have his paper umbrella and his fan, and in a gray bag upon his arm is a jar of rice for his luncheon. This quaint little fellow has probably made his offering at his own private shrine to Tenjinsen, the god of penmanship.

When the Hindoo boy has found an auspicious day to begin school he is taken to the god of learning, Sarasvati. Here the little supplicant presents his offerings of rice and betel nuts and repeats the letters of the alphabet after the priest. Thus he is entered into the ways of knowledge in the very presence of the god.—Everybody's Magazine.

OMNIVOROUS MAN.

Reptiles Are Eaten With Eagerness All Over the World.

Reptiles are eaten with eagerness all over the world. Neither want of beauty nor abundance of venom protects them from omnivorous man. Although they suggest to us by form and motion all that is false and unfair, hideous and horrid, even God's curse of the serpent does not shield it, and from the humble frog of the pond to the colossal crocodile of Egypt they are all only so much food for men. Old Mexicans loved the speckled salamander and ate it with Spanish pepper. The Spaniards learned the odd fashion, and the habit has not entirely died out. Vipers are a favorite dish with Italians. The lizards of this continent are a most delicate dish, and the iguanas of the Antilles were carried to South Carolina in great numbers, the rice fields of that state being well suited to them.

Snakes find a ready market in many eastern countries. The giant of Java, which infests the pepper plantations and whose venom is fatal, is a favorite. The huge boa constrictor furnishes an exceedingly fat meat, and the negroes of its native country prefer it to the daintiest food of the white man. The anaconda of Brazil supplies the table of the poor, though the Portuguese use only the rich fat it produces. South American natives eat almost every kind of snake, and the far west has taught many a fastidious palate from over the sea to relish the fatal rattlesnake of our own country. Snake eating is more common in the United States than one would imagine.

How the Indians Dun.

We have all heard the phrase, "After him with a sharp stick," but it may not have occurred to many of us that the stick referred to is the much feared yearly January bill. Such, however, is the meaning that the saying conveys to the Nushinan Indians of California, who have seen the disagreeable habit prevalent among us of sending gifts. When one Indian owes another, it is considered bad taste for the creditor to dun the debtor. He proceeds with more delicacy. He procures a certain number of sticks, according to the amount of the debt, and paints a ring around the end of each. These he carries and tosses into the debtor's wigwam and then goes away without a word. The debtor invariably pays the debt and destroys the sticks, as it is considered a reproach to have the January dunning stick thrown into the wigwam. Indeed the creditor never uses them except with hard customers.

Cliff of Natural Glass.

A cliff of natural glass can be seen in Yellowstone park, Wyoming. It is half a mile long and from 150 to 290 feet high, the material of which it consists being as good glass as that artificially manufactured. The dense glass which forms the base is from 75 to 100 feet thick, while the upper portion, having suffered and survived many ages of wind and rain, has naturally worn much thinner. Of course the color of the cliff is not that of natural glass—transparent and white—but is mostly black and in some places mottled and streaked with brownish red and shades of olive green and brown.

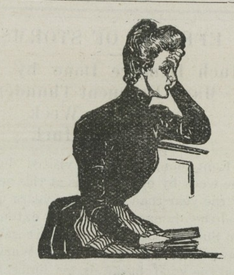

The Tomb of David.

The tomb of David, king of Israel, is still pointed out to travelers in Palestine and, despite its age, is in a remarkably good state of preservation. David died in 1015 B. C. and was buried in the "city of David." His tomb became the sepulcher of several subsequent kings and one of the sacred places of the kingdom. It stands on Mount Zion, at Jerusalem, just outside of the city wall.

Compulsory Piety.

Sunday School Teacher—I hope all the little girls in my class love God? Eva Brown—I do. Sunday School Teacher—That's right, Eva. Now tell us why you love him. Eva Brown—Got to.—Lippincott's Magazine.

There is a whole chapter of sound advice in the admonition: "Don't dodge difficulties; meet them, greet them, beat them."

Weary and worn out all the time. Back weak and lame and aching. Headache, Nervous, Restless, Excitable. The Kidneys are sick.

Doan's Kidney Pills

cure every symptom of Kidney Ills, from common backache to complicated urinary disorders.

Mrs. James Rodman, of No. 11 South Diamond street, Shamokin, Pa., says: "For over a year I had backache and lameness across my kidneys. I felt it most when doing any extra housework, but if I sat for any length of time I felt it catch me in the back when I attempted to get up. I had more or less pain in my head. My husband heard about Doan's Kidney Pills and brought me some from Smink's pharmacy. After taking them the languor and depression departed, as well as the pain, and I felt generally invigorated."
