

IN THE GOOD OLD SUMMER TIME,

When ladies wear short skirts for morning or country dress—and evening gowns are usually sheer and light—shoes are a most conspicuous part of the wardrobe.

They should be correct, fashionable and attractive.

Our Shoes have all these qualities—they fit every type of feet and conform to every demand of dress. This is the favorite store for Women's Shoes.

Upside Down.

Powerful lenses can be so placed before the eyes that persons and things will appear inverted. Men will appear to walk like flies on the ceiling.

Lenses must be considered as a power which may be used to give *good vision*, healthy action to the visual organs and pleasure or may be perverted to produce discomfort and untold harm.

If your eyes need attention they need intelligent, conscientious attention. This is the service we offer you in fitting glasses. If there are diseased conditions and you need a physician's attention, we tell you so.

OTHER WORLDS.

Our sole knowledge of the people on other worlds and how far the people there differ from our inhabitants, can only be guessed by comparison with animal nature on this small sphere of ours. More important to us is a knowledge of ourselves. "KNOW THYSELF" was an old Greek thought. How to take care of one's own body is not so simple as some think; the human mechanism is a wonderful thing and requires watching.

One man who has done more to teach the American people how to care for their bodies than almost any other, is Dr. R. V. Pierce, of Buffalo, N. Y., the Author of the "Common Sense Medical Adviser." He says: It is not the quantity of the food eaten which produces strength and health (for some people can keep strong on a very meagre diet), but it is how much food is *absorbed* and assimilated by the blood and carried to nourish every organ of the body. It is, therefore, vitally necessary for the body that the stomach be in a healthy state. If disease of the stomach, or what is called "stomach trouble," prevents proper nutrition then the heart, liver, lungs, and kidneys do not get proper food—they are not fed on rich red blood, and in consequence, begin to show signs of distress. Outwardly these *signs* may be pimples and eruptions on skin, pale face, sleepless nights, tired, languid feelings, or, by reason of the nerves not being fed on pure blood, they become starved, and we receive a *warning* in the pain we call neuralgia. Rheumatism, too, is a blood disease. After years of practice and study Dr. Pierce found that an Alterative Extract, which he named "Dr. Pierce's Golden Medical Discovery," made from the extracts of several plants, invariably produced a tonic effect upon the system. It helped the process of absorption of the healthy elements in the food and increased the red corpuscles of the blood, as well as eliminated the poisons from the system.

Business is business. No time for headaches. Constipation causes them. Doctor Pierce's Pleasant Pellets cure them by curing the cause. Laxative and mild.

TO THE TRAVELING PUBLIC.

The Baltimore *American* of August 5th published a highly sensational and inflammatory article purporting to be writen by its Easton correspondent, who falsely described and magnified a small accident on the steamer General J. A. Dumont which, on August 3rd, carried about 450 excursionists from Easton and Oxford to Chesapeake Beach.

In justice to the management and stockholders of the Eastern Shore Transport Company, which is running this steamer, we desire to furnish the public the following *truthful* statement of the matter:

As we turned Benoni's Point at the Tred Avon river, upon our return to Oxford from Chesapeake Beach, the steamer ran up on a shoal bar. She immediately backed off and proceeded to Oxford, where she tied up and remained sometime on account of the illness of a Mr. Wroten, of Easton, Dr. Stevens, of Oxford, having been summoned to attend the sick man. After we had been at Oxford for about an hour, awaiting the arrival of the physican, our chief engineer discovered that one of the boilers had sprung a small leak and the passengers were then apprised of the fact, and that arrangement would be made for the Easton passengers to take Avalon, of the B. C. & A. Ry. Co., which was due at Oxford at 12 o'clock. Many remained aboard the Dumont until the arrival of the Avalon. There was perfect order, no alarm visible, and nobody frightened. Thenext day the slight damage was repaired, and we proceeded as usual on our trips.

The correspondent who reported the incident to the American falsely and inconsistently stated that "about 500 excursionists came to grief;" that "their day's outing was spoiled;" then said "the trip was an uneventful and *pleasant* one;" further, that "on the return they left the beach about 7.45 P. M., *when* their *trouble* commenced." Then he says "everything passed off pleasantly until the boat neared Oxford,'

He caps the climax of mendacity by saying that "the announcement" of the leak "caused a panic among the passengars, who, in thier fear, became wild and excited, and rushed pell-mell over each other in their endeavor to reach the Oxford wharf in safety." This is simply a sensational lie in to to, and is an imposition upon a truth loving public.

We are prepared to prove the above statements of fact by scores of witness who were on board the Dumont at the time so vividly described by the American.

The Dumont was recently inspected by the U. S. inspectors of steam vessels and authorized by the government to navgate the waters of the Chesapease bay and tributaries. She is a staunch and well built vessel, and as safe in every way as any boat that plies in these waters; she was rebuilt in 1900 and is, therefore, practically new; she is manned by a capable crew and the management takes every precaution to insure the safety of its patrons. Every regulation is fully complied with, and such a mishap as did occur might occur at any time on any other boat.

Great injustice has been done the company and its service, and we respectfully present the above substantiated facts to our friends and the general public.

Very respectfully,
THE EASTERN SHORE TRANSPORT CO.

WOMEN'S WOES.

Hard for any woman to do housework—to attend to daily duties with a constantly aching back. Every woman should learn the cause of backache and the cure.

Doan's Kidney Pills

relieve a bad back and cure it—cure every kidney and bladder disorder, from backache to complicated cases.

Mrs. Sarah Walmer, widow of the late Jacob Walmer, the wagon maker of Union Deposit, who spent thirty-one years of her life in that corporation, but is now living with relatives at the corner of North Sixth and Peffer streets, Harrisburg, Pa., says: "From a fall I received on a wet boardwalk in my yard about sixteen years ago, when I injured my back, I had any amount of trouble with my kidneys, having severe backache very near all the time. It hurt me to stoop or lift anything of ordinary weight. Many times at night I could not turn in bed on account of sharp pains. Medicine did very little to relieve, and I had about given up taking any when I saw such glowing accounts of Doan's Kidney Pills. I concluded to try just once again, and I got a box of them at Forney & Knouse's drug store, on Market street. They did me a wonderful amount of good and relieved my aching back."

Doan's Kidney Pills sold at all drug stores; 50 cents. Foster-Milburn Co., Buffalo, N. Y.

Rough Weather

will come, and unless you have your horse shod you will not be prepared for it. You can have him shod at our place and get comfort and safety for him. We make this line of work a specialty, and you run no risk in bringing your horses to us; our experience has taught us to take care of the foot and you save the horse from many evils caused from improper shoeing. No foot, no horse is as true today as when first uttered. Try us when you want your horse shod.

Many Cannot Understand Why

after so many years doing business that

WILBUR W. HUBBARD'S FERTILIZERS

TRADE MARK

Are more extensively used year after; year but the mystery is solved by a visit to our factory which is always open for inspection, and they see the quality of material on hand, and then by using, the result is once a customor always a patron.

We never had on hand a larger supply of high grade materials than we have now preparatory to our fall trade.

A fertilizer man whilst down at the factory a few days ago remarked while looking at a huge pile of Dis. Bone he had never seen more or prettier.

We manufacture Fertilizers and there may be as many as six others in America who make as good goods.

There may be factories as complete, but we do not know any one who strives to make a better goods for the money.

Notwithstanding the fact that all kinds of materials have advanced, we are peculiarly circumstanced to sell you this fall.

Inquire and you will find out that many of the best yields in the county this time were from HUBBARD'S. One gentleman claims to have gotten 34 bushels per acre from Bone Super, or 9 bushels more than from another. Mr. I. R. Leaverton says he is satisfied that the High Grade paid him best, and asked us to enter his order for 45 tons of it. Messrs. Wright, McKenney & Lowe say they never heard of better results and have placed their order with us again. We would therefore advise you before placing your order to call on or correspond with us concerning the matter.

Very truly yours,
