GALENA ITEMS.

Galena, Kent Co., Md., Aug. 3, '04.

TO EDITORS OF THE TRANSCRIPT:—Kind friends, could you have been with us on last Friday afternoon at Galena M. E. Church yard you would have seen quite a beautiful and yet solemn and sacred scene as a lady, in the person of Mrs. Sallie Rouse Jones, of Lynch's, and her many friends of Galena and vicinity, and in fact from Chestertown and other parts of this county, had assembled to assist in performing the last sad rites in erecting a very fitting emblem in marble to her dear departed sisters, long since deceased. They were the beautiful daughters of the late R. H. Rouse, late of this county, and his former wife, Sophia Ringgold Rouse, and sisters, also of Mr. Franklin Ringgold Rouse, of Worton, and aunts of Mr. George Ringgold Rouse, now of Chestertown, and Mary Augusta and Lydia Ann Rouse. Mrs. Jones though only a half sister, always has cherished the utmost devotion for these sisters, and has now, after all these years, shown her love and devotion by erecting in loving remembrance a very handsome tombstone to their memory, although she was only 7 years of age when they died. They both died of consumption inherited from their mother years ago at the ages of 19 and 22 years respectively. Kindly publish and oblige friend.

Cholera Infantum.

This disease has lost its terrors since Chamberlain's Colic, Cholera and Diarrhoea Remedy came into general use. The uniform success which attends the use of this remedy in all cases of bowel complaints in children has made it a favorite wherever its value has become known. For sale by M. A. Toulson, Chestertown Md.

Mutual Fire Insurance Co.

OF KENT COUNTY,

during the past nine years has returned to the holders of its policies, where the policies have been cancelled, $39,000.00.

The accounts of its policy holders show that for the same period the actual cost of insurance has not been more than 66 per cent. of the premium paid, and that policies only nine years old have now standing to their credit 33 per cent. of the amounts paid it.

If you wish to diminish the ultimate cost of your insurance, insure your property in the

The Skylark.

Skylarks are rather prolific birds, having two broods in the year, and often laying as many as five eggs, though four is the usual number. The nest is so difficult to find that it is practically never discovered except by accident, as when, for instance, the hayfields are mown, or what is being hoed. The bird very seldom nests near the margin of a field, where it might be put off its nest by passersby. On the shores of the North sea skylarks will nest in the "bents" and "marram" close to the edge of the sand hills, though they have to fetch food to their young from a considerable distance. There is always something very pleasing in the sight of a lark's nest. It is usually sunk in a hollow, and, unlike the nests of many ground building birds, is most carefully made, the cup being deep and perfectly circular, and lined with very fine grasses, though the outer part is made of rough, dead bents, and often of a most irregular shape in order to fill up the hole in which it is made.—London Spectator.

Night Blossoms.

Many flowers, natives most of them of regions where the day is intensely hot, expand their blossoms at night. Notable among them is the Victoria Regia, which opens its splendid calyx near the Amazon at nightfall and closes it at dawn.

The queen of the night blooms for one night only, and has its home on the islands of the Caribbean sea. The triangular cactus, whose flowers are a foot in length and width, follows the same habit.

From Virginia comes the biennial oenothera, or "night light," which was brought to England in 1614 because its twisted red root could be eaten as salad.

Among British night flowers are the rocket, or night violet, the evening primrose and the campion. The white or yellow color and the fragrance of these flowers of nocturnal habit attract roving moths, which carry the pollen and so fertilize the plants.—London Standard.

IN SELECTING A COLLEGE

THESE ARE THE VITAL POINTS:

1. HEALTHFULNESS.
   Western Maryland College, at Westminster, Md., is 1000 feet above the sea; mild climate; pure air; pure water; perfect drainage.
   Has new and substantial buildings. Steam Heat. Electric Lights. Furnishes good food; comfortable rooms. Baths. Gymnasium. Athletic Field.
2. SAFE AND REFINED SURROUNDINGS.
   Founded 37 years ago by Christian men, Western Maryland College has always striven for Christian ends in education.
   Models its discipline after the home, giving its students oversight and protection.
   Believes that character is formed by habits and habits by system, and so provides its students with a schedule that leaves no hour of the day unaccounted for.
   Receives both sexes for the benefit of both, believing this also to be the ideal of the home; but separates the sexes in classwork and limits social intercourse.
3. MODERN METHODS AND EQUIPMENT.
   Western Maryland College came in with the modern educational ideas.
   Led the way in that form of co-education recently adopted by the University of Chicago—co-equal, but not co-incident education for men and women.
   First College in Maryland to employ a Director of Physical Culture, and to build a Gymnasium.
   Laboratories have grown until a separate building is necessary for them.
   Faculty represents best Universities.
4. LOW RATES.
   Western Maryland College will give you board furnished room, light, heat, laundry and tuition in all College studies for $200 for the full year of 38 weeks.
