A HOG CHOLERA REMEDY.

Regarding hog cholera, Dr. T. J. Dodge, of Illinois, writes as follows to the Iowa Homestead:

"As the price of hogs is sufficiently high to pay the farmer to use every means of protecting them from the ravages of the cholera, I deem it my duty to give to the public, free, my recipe for the cure of what is termed hog cholera. I have used this remedy for thirty-three years, and raised hogs all of the time, both here and on my ranch in Nebraska, and never lost a hog. Have experimented by placing one well hog with a lot of sick ones and keeping it well by the use of this remedy. You will confer a great blessing upon the farmers of our country by publishing this recipe in full in your valuable paper. I am now engaged in other business, and have been for 16 years, and am willing to let others prosper by the long years of experience of mine with a remedy I discovered myself for the cure of this disease.

The prescription and directions for use are as follows:

"Arsenic, one-half pound; cape aloes, one-half pound; blue vitriol, one-fourth pound; black antimony, one ounce. Grind and mix well the remedy before using.

"The following are the directions for use:

"1. Sick hogs in all cases to be separated from the well ones and placed in dry pens with only five large hogs or eight small ones in each pen.

"2. Feed nothing but dry feed but no water, only the slop containing the remedy, until cured.

"3. When the hogs refuse to eat turn them on their backs and with a long-handled spoon put the dry medicine down their throats.

"4. Dose for one large hog, one teaspoonful three times a day for three days, then miss one day and then repeat the dose until cured. Shoats or pigs one-half the amount.

"5. As a preventative one teaspoonful once a week will keep your hogs in a healthy condition to take on fat. I can place one well hog in a pen with one hundred sick ones and with this remedy keep him well.

"6. Let no other stock have access to this remedy, as it is to them a poison."

Dr. Dodge adds that for many years he sold this recipe for $5.00 and treated thousands of hogs at the rate of $1.00 per hog, paying the owner ten cents a pound for all that died after treatment began.

FARM NOTES.

Farming is poor business when the farming is poor.

Much labor and expense may be saved by planning ahead of time.

Care and fertilizer make the farm; care and feed make the stock.

Any animal when fed heavily should have a change of food, especially sheep.

Free exercise for hogs develops muscle and frame and adds to the value of the pork.

By using the drill for sowing the depth of covering is uniform and there is no loss of seed.

Never let the farm work or stock stand still or retrograde, but keep both progressing steadily.

The productiveness or unproductiveness of a farm depends chiefly on the farmer and his methods.

The value of wood ashes in the orchard and of coal ashes on heavy wet clay can hardly be overestimated.

Always keep stock so well that it is ready for sale at any time, so that if a rise in market occurs advantage may be taken of it.

Quality is placed last in the essential points of fruit for market. Hardiness, size, beauty, ability to stand transportation, season of ripening.

One advantage with the public dairy will be found in the increased richness of the farm, caused by the extra quality and quantity of the manure made on account of keeping more cows and giving them better feed.

Variety in feeding belongs to profitable stock growing, whether swine or other animals, but in connection with variety there must be judgment used in changing and in the combinations. Too marked a change can only be followed with disastrous results.

Bishop Coleman on a Trip.

Bishop Coleman, of Delaware, will leave on a trip in a few days which will last until May, 1905. He will first attend the general convention of the Protestant Episcopal Church at Boston, and from that city will go to Hoboken, whence he will sail on the Koening Albert, for his European trip, and will go via the Straits of Gibraltar to Naples, to Genoa, and then tour Italy, thence through Austria and Hungary, to Servia, to Constantinople, to Palestine, Egypt, Greece, Sicily, Italy, France, to England and return about the time stated.

The Smart Set magazine will entertain you.

SCOTT'S EMULSION

Scott's Emulsion is the means of life and of the enjoyment of life of thousands of men, women and children.

To the men Scott's Emulsion gives the flesh and strength so necessary for the cure of consumption and the repairing of body losses from any wasting disease.

For women Scott's Emulsion does this and more. It is a most sustaining food and tonic for the special trials that women have to bear.

To children Scott's Emulsion gives food and strength for growth of flesh and bone and blood. For pale girls, for thin and sickly boys Scott's Emulsion is a great help.

LIFE SAVER'S ROMANCE.

"Antispooning" Order at Atlantic City Hastened His Marriage.

The announcement of the marriage of Harry Zeiglar to Miss Louisa R. Grinley, both of Atlantic City, discloses a summer romance. Zeiglar was one of the life guards there. He was obliged to go to the children's seashore home to have his limbs treated for sunburn, and there he met Miss Grinley, a nurse, and fell in love with her.

Captain Ruffu, of the life guards, noticed them together so often that he threatened to remove Zeilger to a station farther up the beach, but the latter pleaded so hard to remain near the hospital that Captain Ruffu consented. Late Zeigler asked the captain to be best man at the wedding. The ceremony was performed September 19 by Rev. Dr. C. D. Sinkinson, but was kept secret until now.

An interesting point is that the courtship of Zeigler and his bride was conducted on the beach, and when the mayor issued his "antispooning" order Zeigler was one of the men the mayor instructed to break up lovemaking on the beach. Zeigler says he proposed and was accepted the day after the edict of the mayor was issued.

Many Mothers of a Like Opinion.

Mrs. Pilmer, of Cordova, Iowa, says: "One of my children was subject to croup of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and want no other kind for their children." For sale by M. A. Toulson, druggist, Chestertown, Md.

ELIASON BUILDING, CHESTERTOWN, MD

TRACTION ENGINES.

The following is the law governing the travel of traction engines on the public roads of Kent county, and which is deemed advisable to be published:

Every Traction Engine, when propelled by steam upon or over any public road in this State, shall be accompanied by at least two men, whose duty it shall be to so conduct the Engine as to cause as little alarm as possible to horses, ridden, driven or led upon such road, and to render at all times all reasonable assistance to persons so riding, driving or leading horses upon such road.

The person in charge of said engine, at the signal or request of any person riding a horse, or of any person leading or driving a horse or horses attached to any vehicle; or at the indication of such horse or horses becoming alarmed by said engine, shall go as far as practicable to the side of the road, and remain stationary until the said horse or horses have passed to a safe distance, in the meantime making as little noise as possible with the steam.

One of the men accompanying such engine shall precede such engine at least three hundred yards to warn persons riding or driving upon any public road, of the approach of said engine, and shall assist such person or persons in the management of any horse or horses that may require his assistance to control the same.

If any person in charge of any such engine shall neglect to comply with the provisions of the three preceding sections, he shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than ten dollars, and in default of the payment of said fine, shall be committed to jail for not less than thirty days, or until the fine is paid, or be both fine and imprisonment in the discretion of the justice.

It shall be the duty of the owner of such engine to have a copy of the four preceding sections, and of this section, posted on said engine, and in default thereof he shall be subject to a fine of not less than ten dollars.

By order of the Board of County Commissioners,
A. C. LOUD, Prest.;
CHAS. B. DUDLEY,
HARRY DAVIS,
PERRY B. RASIN,
L. C. AYRES.
CHARLES L. DODD, Clerk. a27-3t.

Catalogs Confuse.

IN SELECTING A COLLEGE
THESE ARE THE VITAL POINTS:

1. HEALTHFULNESS.
Western Maryland College, at Westminster, Md., is 1000 feet above the sea; mild climate; pure air; pure water; perfect drainage.
Has new and substantial buildings. Steam Heat. Electric Light. Furnishes good food; comfortable rooms. Baths. Gymnasium. Athletic Field.

2. SAFE AND REFINED SURROUNDINGS.
Founded 37 years ago by Christian men, Western Maryland College has always striven for Christian ends in education.
Models its discipline after the home, giving its students oversight and protection.
Believes that character is formed by habits and habits by system, and so provides its students with a schedule that leaves no hour of the day unaccounted for.
Receives both sexes for the benefit of both, believing this also to be the ideal of the home; but separates the sexes in classwork and limits social intercourse.

3. MODERN METHODS AND EQUIPMENT.
Western Maryland College came in with the modern educational ideas.
Led the way in that form of co-education recently adopted by the University of Chicago—co-equal, but not co-incident education for men and women.
First College in Maryland to employ a Director of Physical Culture, to build a Gymnasium.
...atories have grown until a ...ate building is necessary for ...
...ity represents best Univer...ds.

4. LOW RATES.
Western Maryland College will give you board furnished room, light, heat, laundry and tuition in all College studies for $200 for the full year of 38 weeks.
Ask our Students, or write to
REV. T. H. LEWIS, D.D.,
President.

WASHINGTON COLLEGE,

Chestertown, Md.

One Hundred and Twenty-Third Session begins September 21st., 1904.

During the past year many changes and improvements have been introduced, all looking to the intellectual and physical welfare of the students. The curriculum has been revised and extended; the Faculty increased, buildings heated by new steam plant, students quarters remodeled and a new administration building begun.
The college offers three courses of study—Classical, Latin-Scientific and Scientific—each leading to the Bachelor's Degree. The elective system, introduced in the new cirriculum, enables each student to select those branches he especially needs. Two sub-freshman classes are maintained for the benefit of those who desire a thorough preparation for college. The Normal Department is now recognized by the State as a part of the public system of education, and stands on the same footing as the other Normal Schools of the State.
Here students may pursue their workin a highly moral community, amid beautiful and healthful surroundings, under careful supervision of health and habits, in comfortable quarters, at very low rates.
