LOCAL MATTERS.

Verdict for Dr. Corkran.—In the Superior Court at Wilmington on Monday afternoon the jury in the case of Zell & Merceret against Dr. W. F. Corkran of the Wilmington Conference, for moneys alleged to be owed them on stock speculations, returned a verdict in favor of Dr. Corkran.

Honor For Kent Boy.—Mr. Harvey M. Culp, son of Mr. Wm. S. Culp, of Chestertown, has recently been appointed assistant superintendent of the Platt Iron Works, at Dayton, Ohio, at a splendid salary. Mr. Culp is a young man of fine mental and mechanical ability. He has been in the employ of the Cramps, the great shipbuilding firm of Philadelphia, for ten years, and until his appointment to Dayton, has been inspector of machinery in the Philadelphia shipyard, a most responsible position. Mr. Culp has many friends here who are delighted to learn of his deserved honor.

Prospect for Peaches Good.—The following report comes this week from Smyrna, Del.: Leading fruit men in this neighborhood do not share in the view of growers as reported from other sections that the peach crop has been practically destroyed by the extreme cold weather. Frederick Thomas, manager of the Glenfern fruit farm, near town, has made an examination of the buds on the trees in his orchard and finds, by various tests, that there has been practically no damage done. The buds of the Elberta and Georgia Bell variety are in an especially healthful condition. If the peaches are destroyed, the damage will have to come later, Mr. Thomas says. Next.

Still Pond Farmers' Club.—The Still Pond Farmers' Club was entertaiaed last Thursday at the home of Mr. and Mrs. William Bonwill. Among those present were Mr. and Mrs. Wm. D. Pennington, Mr. and Mrs. J. E. Jarrell, Mr. and Mrs. Biddle Hossinger, Mr. and Mrs. D. Hill, Mr. and Mrs. Carson Harris, Mr. and Mrs. S. J. Roseberry, Mr. and Mrs. Eugene Bonwill, Mr. and Mrs. William Dukes, Mr. and Mrs. Lenard Price, Rev. T. F. Beauchamp, Misses Cora Harding and Louisa Pennington, Messrs. Tilghman Shafer, and William Hague. The next meeting will be held at the home of Mr. and Mrs. James S. Harris on the last Thursday in March.

Tumor Removed.—Mr. John W. Haddaway, of near Pomona, had a large and very painful tumor removed from his eye at Johns Hopkins Hospital a few days ago. The operation was performed by Dr. Theobold, John Hopkins' famous eye specialist, assisted by Dr. B. Bernard Browne, another noted specialist of the same institution. Mr. Haddaway upon the advice of his physician, Dr. H. G. Simpers, was removed to the hospital for treatment. The operation was entirely successful and disclosed the fact that the tumor was an exceedingly large one and extended nearly to the cranial cavity, but was entirely removed. He is doing very well and expects to be able to return home in a few days. He was accompanied to the city by his daughter, Miss Emma, who has been constant in her attendance to her father.

New Switch for Mr. Hubbard.—Officials of the Pennsylvania Railroad Company were in Chestertown on Wednesday in a special car, for the purpose of consulting with Mr. Wilbur W. Hubbard looking to the building of a switch, from the main track just this side of the large warehouse of the Marvil Package Company on Queen street near Jane's M. E. Church to Mr. Hubbard's large fertilizer factory. Mr. Hubbard has been for years a large patron of the road and in consideration of this fact, after having inspected the distance, the officials determined to grant the request made by Mr. Hubbard and work upon the switch will begin shortly. Mr. Hubbard was the guest of the officials at a splendid luncheon served in excellent style on their special car at the depot. Supt. Holliday and Mr. Kingston, Division Freight Agent, of the Delaware road, were among the officials who made the trip.

Change of Partnership.—The partnership heretofore existing between Comegys Brown and E. S. Stubbs, the well known and popular commission firm of Baltimore, having been dissolved by the death of Mr. Stubbs, the business will be continued at the old stand, 224 S. Charles street, under the same firm name (Brown & Stubbs) by Comegys Brown, (the surviving partner) and E. S. Stubbs, Jr., (son of the deceased partner.) The same policy of fidelity to business and to the interest of their patrons will be adhered to and maintained. There will be new additional cash capitol, thus insuring further protection and safety to their shippers and all who do business with them. Mr. E. S. Stubbs, Jr., has been associated with the old firm as book-keeper and is therefore familiar with the business in all its details.

Fine Stock Received.—Mr. Lewin U. Skirven received by train on Thursday four fine stock ewes and a handsome black percheron stallion. This stock was purchased in the West last week by Mr. Skirven, and as he is most excellent judge of stock, these additions will no doubt prove of great benefit to the farmers and stock raisers of this section.

Boat Expected to Tolchester Today.—A telephone message from Superintendent George E. Noland, states that the Tolchester boat is expected to make her regular Saturday trips to-day, leaving Tolchester at 9 A. M. and 4.30. P. M. Supt. Noland stated that the bay is practically clear of ice to within a half mile of the Kent shore, and he thought the boat would be able to make her way through that. No definite information has been received from the Chester River Line. The bay is clear of ice outside of Love Point and a boat may be expected to Chestertown next week. We have had no boat since Jan 25th.

*†*The pictures of General and Mrs Geo. Washington which were presented to the Chestertown High School by the Senior Sons and Daughters of the Revolution, of which Mrs. Harriett L. W. Hill is directress, were received by the school last week and are much appreciated by the teachers and scholars.

*†*Several of the farmers in the Seventh District have been at work voluntarily opening the public roads this week. Among them are Messrs. Bartus Trew, Henry and C. C. Brown. This is a most excellent plan, and we hope to hear of other farmers in the county doing likewise.

*†*Mr. Marcus Asher, the fur king, informs us of an error in our statement last week in reference to the sale of the 25 coon hides by Messrs. Frank and Charles Skirven. Instead of having been purchased for $6.50, they were bought for $20. The Messrs. Skirven no doubt appreciate the difference, and so does Mr. Asher.

*†*Mr. William T. Wright has rented the home on Maple Avenue, formerly occupied by Mrs. G. Reese Beck, and moved his family therein this week. Pe-ru-na Known and Praised on Land and Sea.

Capt. L. T. Carter, 123 10th Ave., Pensacola, Fla., writes:

"A sick sailor is a pretty helpless man. I have found that Peruna will do more to restore one than any other medicine I know, and I have carried a couple of bottles on board for many seasons.

"Seven years ago Peruna cured me of bronchial trouble in a few weeks and gave me such new life and nerve force that I certainly believe in telling you of it.

"Give me my compass and Peruna and I will steer clear of wrecks of all kinds and land in port safe and well with vessel and men."—L. T. Carter.

Capt. E. A. Watson, M. E., 48 Elizabeth street, Ottawa, Ont., writes:

"Peruna has my heartiest endorsement. If there is any place that you are helpless when ill, it is on board a steamer, at sea, miles away from any assistance.

"Sometimes two or three of my men would be sick at one time and seriously cripple the force, but since we have learned of the value of Peruna, by taking a few doses they recuperate very quickly.

"We use it for colds, lung trouble and kidney diseases, and have also found it very fine for la grippe.

"Peruna is always one of the most important supplies of my steamer."—E. A. Watson.

With a bottle of Peruna on board sailors have a remedy on which they can rely.

New Advertisements.

The "Improved Collossal" seed corn advertised elsewhere in these columns is without doubt a wonderful producer, says E. P. Walls, assistant agriculturalist at Maryland Agricultural College. "It is the product of careful selection and judicious breeding." Edward Towers, director of the Talbot county fair association states "On my farm it actually doubled in yield any other variety; the ears weighed uniformly from 1½ to 2 lbs. each and were frequently 15 inches in length." Mr. Collier will gladly answer any inquires forwarded to him at Easton, Md. Any Kent county farmer may receive sample grains from Mr. Collier by simply addressing him at Easton, Md.

Farmers, if you are going to use anything in the fertilizer line this spring, read the advertisement of Wilbur W. Hubbard that appears in this issue. This is the 60th season Hubbard's Fertilizers have been manufacturued and sold in this county and the fact they are used more largely every year certainly ought to speak in their praise. Hence, if you are going to top-dress your hay, asparagus or strawberries, plant corn, tomatoes, potatoes or truck or feed your peach trees, call on Hubbard for he is in a position to supply you.

The public is cordially invited to call and see the Cyphers Incubator at Mr. M. A. Toulson's drug store. Mr. Toulson is the agent for this celebrated egg hatcher, and will be pleased to explain its good qualities to all callers.

Large orders are being filled daily for Pepsimint, the great dyspepsia and indigestion remedy, manufactured by the Pepsimint Chemical Company, Chestertown. The business of this company is increasing daily on account of the superior quality of the goods. It is for sale at Toulson's and Stam Drug Company's drug stores.

IN MEMORIAM.

CACY—In sad but loving remembrance of our dear father, Francis H. Cacy, who departed this life a little more than a year ago.

His busy hands are folded,
His work on earth is done,
His trials are all ended,
His heavenly crown is won.

Had He above asked us, well we know
We should say, "Oh, spare the blow."
Yet with streaming tears should pray
Lord we love him, let him stay."

Heaven now retains our treasure,
Earth the lonely casket keeps,
Sweetest thoughts shall ever linger
While our darling father sleeps.

His well remembered footsteps,
We are listening for in vain,
And our eyes grow dim with watching
And our hearts are said with pain.

No words will ever be so sweet
As the words he used to say,
No hour will ever be more sad
Than the hour he passed away.

Weep not that his toils are over,
Weep not that his race is run
God grant we may rest as calmy,
When our work like his is done.

Till then we yield with gladness
Our dear father to Him to keep,
And rejoice with sweet assurance
He giveth his loved ones sleep.

Sweetly remembered by his daughter,
M. G. TURNER.

Hubbard's Fertilizers!

The leading farmers and canners through Pennsylvania, New Jersey, Delaware and Maryland speak in their praise, declaring them to be positively the cheapest, the safest, the best to use. Once a trial, always a patron. Wouldn't it be a good idea for you to try them?

For Hay—

Top dress your grass this month. We have a goods that works wonders for this purpose. Try it and the cost per acre will cost less than you imagine.

Asparagus—

Are you going to do anything to it this spring? If so, we have the goods. It has Nitrate of Soda and Fish as the source of ammonia, and runs high in Potash and Phosphoric Acid. Some of the finest Asparagus grown in the country is with this goods.

For Corn—

You fertilize your wheat, why not your Corn? It will pay. We have many customers who use it year after year. We have one man in Delaware already ordered 70 tons. We have two more in Maryland who have their orders booked now for 20 tons each, and so on we could give them to you by the score.

Peach Trees—

Many orchards have been taken up the last few years, and peaches brought a good price last year, and don't you think it would be a good idea for you to feed your trees with our FRUIT GROWER, as it has given universal satisfaction. One patron last year claims to have gotten 30 cents per basket more for the same variety where it had been used. We have scores of testimonials concerning it.

Potatoes—

Well, you should use our High Grade Potato Fertilizer if you are going to plant, for this goods has been used for years in four States with the greatest success. It costs $30 per ton, but Mapes and some of the other goods costs $10 more, but we have never come in competition with other high grade Potato goods that ours has not been equal to any and superior to many. There is hardly a day in the last few weeks that some one from Kent or Queen Anne's has not dropped in our office and said: "That Potato goods of yours is the best ever used, and will want more this spring."

For Tomatoes—

Well, you have heard about our Peerless. Mr. Jacob Shriley says it is the best goods he ever saw for tomatoes. Mr. Stewart Graham writes where Peerless went alongside another goods one looked like manured and the other as if it had none and that Peerless yielded over one third more tomatoes.

Mr. B. H. Moore writes: "I used Peerless on 2 acres, sold 27½ tons at 12 cents per basket; netted me $198.40." D. F. Loose says one ton netted him $95.00 more than another ton of $18.00 goods alongside. C. R. Dashiel says he would have it if it cost $50.00 per ton. Smith, Rouse & Webster, the great canners, say they never heard of goods spoken of more highly. We can furnish hundreds of testimonials. Many have told us their yield from it was four and five tons more per acre.

Now, if you want to sow OATS or top dress your STRAWBERRIES, plant SWEET POTATOES or need a goods for TRUCK, or want anything in the FERTILIZER line, please call on or correspond with us before making your purchases.

Very truly yours,
