LOCAL MATTERS.

Tuberculosis Association.—The first annual meeting of the National Association for the Study and Prevention of Tuberculosis will be held at the New Willard Hotel, Washington, D. C., Thursday and Friday, May 18th-19th. All persons interested in the subject may attend the sessions. The list of speakers includes the most prominent physicians, sanatarians and charity workers in America.

Automobile Route for Kent.—An Automobile route between Chestertown and Tolchester, with a possible extention to Rock Hall is expected to be established by a prominent former resident of Kent county, now connected with the Pennsylvania Railroad within the next ten days or two weeks. It is understood that two cars, sufficiently large enough to carry ten or twelve passengers are being constructed, and as soon as finished they will be put into service.

Opposition Line in Chester River.—It is likely that the Md., Del. & Va. R. R. Co. will have to contend with an opposition line in Chester River in the very near future. A gentleman interested in the new line stated to us yesterday morning that he would place a boat on the route that will not only handle freight, but will also be fitted up for the accommodation of passengers. The boat will be run to the landings above the bridge, and will be of such size and speed as to guarantee safe and quick transportation.

A Fine Concert.—The entertainment, "The Jolly Farmers," given in Stam's Hall on Thursday evening by Centreville talent for the benefit of the Centreville Cornet Band, was a decided success. The hall was crowded with an appreciative audience, and every part in the play was splendidly sustained. The singing and instrumental music called forth many encores and altogether was one of the best entertainments of the season. A part of the performers came to Chestertown in Mr. Blanchard Emory's fine gasoline launch, making the trip from Centreville in two hours and twenty minutes.

Town Commissioners.—The new board of town commissioners organized on Monday evening last by electing Mr. John W. Hirons, the oldest member of the board in point of service, president. Mr. Wm. S. Carroll, the newly elected commissioner, took the oath of office and assumed his place on the board. Mr. Thomas S. Bordley was elected clerk for the ensuing year. Mr. Wm. J. Hudson was re-elected day officer, and Mr. J. Frank Getshall night officer. The commissioners adopted a resolution looking to immediate improments to the town streets and the enforcement of certain ordinances of the town that will prevent nuisances.

Proposed Gas Plant.—Three gentlemen, Mr. Robert H. Pollock, of Baltimore, Mr. Kramer, of Frederick, and the president of the York Engineering, Company, of York, Pa., were in Chestertown, on Thursday and Friday, examining conditions relative to establishing a gas plant for the town. The gentlemen met the Board of Town Commissioners in special meeting on Thursday evening and it is understood that negotiations were entered into that will lead to the establishment of a plant here in the near future. The gentlemen are worthy men, and they state that they mean business. The plant which it is proposed to establish will supply gas for heating and cooking purposes, but they will also light the town and residences if desired. The gas will be supplied at such a figure per thousand feet, as will make it pratical for all purposes and it is understood that the gentleman have accepted a proposition which the commissioners offered for the establishment of a plant. It is not definitely known when work will begin.

GALENA ITEMS.

One of our young sporting men while out driving last week met with a very embarrassing mishap. It seems as though he left town with the intention of going to Crumpton alone, but finding the road long and dreary, stopped on his way and took a lady companion. Arriving at Caumpton at a late hour, to his disappointment he found the churches crowded, so they took a drive in the country. The horse, going at full speed, at a walking rate, was overtaken by a team, and as the latter went to pass he ran into the carriage occupied by the ourting couple, causing a smashed hind wheel. The gentleman said to his lady, "What must I do to be saved?" They sat still awhile, and finally he concluded that she get out and lead the horse and he carry the axle in his arms. So away they went up the road, but to their comfort a friend met them, learning the distressing position in which they were, directed them to his house, and fixing them up, started them to their respective homes, and they arrived some time in the morning. Thus ends the experience of the couple.

Mr. Raymond Prettyman has gone to Colorado to spend the summer.

Many of our farmers are through planting corn and some have finished replanting.

Our merchants are busy and trade is on the boom.
