Mrs. Warren returned to her home in Philadelphia last Saturday.

ROCK HALL ITEMS.

Messrs. Lee Durding and Geo. Maslin have quite a force repairing the roads leading into and through our town.

Contractor Judifind has been investing in pigs for winter pork. He purchased two and placed them in a chicken crate to send home. On arriving home he found one had escaped through the slats. The other he placed in a pen. After leaving it for a few minutes he returned to find it, too, had crawled through a knot hole and cannot be found. He said let the d—— pigs go. William Middleton purchased one and brought it home in a coffee-essence box.

Business is booming, and our merchants would be even more successful if they would use more printer's ink in acquainting the public with what they have for sale.

Much excitement was created in our town by the report that Messrs. Ed. Proctor and Marion Downey were caught in the squall of Thursday last and probably lost. Searching parties were sent out and found them quietly fishing their nets.

Virgil Kendall offers his services as postmaster of Rock Hall at the expiration of the present incumbent's term. This office should be more in the centre of the town. Any one of the stores near the church would be a better location; say at T. B. Durding, Joseph Downey or Kramer's stores.

The trial of fishermen vs. game warden was further postponed.

It is about time for the agitation of oyster planting to begin so that our legislative candidates may know what our people want. The beds are depleted, the past season almost a failure and there must be something done or our citizens be compelled to find other employment. Now let our oystermen get together and suggest by what means this industry can be made a lucrative one. The daily press have letters frequently expressing the opinion "that oystermen are not proper judges as to what is for their best."

The police steamer anchored in Swan Creek to-night and will begin to overhaul nets and pounds to-morrow (Thursday). They have notified the owners that if the meshes are under the size prescribed by law that they must remove them at once or the warden will destroy them. This comes at a time when, if the law is enforced, it will work a hardship to our fishermen. They are law-abiding citizens, and many are unacquainted with the provisions of the law. First, because many take no paper. Second, because the law has not been sufficiently advertised and special attention called to its requirements. One gentleman whom I know would refuse to violate the law, has expended one hundred and nine dollars for a new net, whose meshes are less than the requirements. This is a dead loss, and should the seller refuse to exchange it, it will become mere junk.

The dancing school will resume operations in a few days, and give our young people their most fascinating pleasure.

The following are the graduates of the Rock Hall public schools: Edna Durding, Edna Judifind, Myrtel Durding, Lois Leary, Wilmot Crosby and Gertie Kramer.

Hick's Forcasts for May.

Reactionary storm conditions will prevail during the last two days of April and the first of May. By the 1st, disturbances will have passed to the eastern parts of the country, with cooler, clearing weather and rising barometer following from the west.

The storm period, 4th to 9th, will be ushered in as early as the 4th with decided and rapid change to warmer in all parts westward. The barometer will show marked atmospheric depression in the same regions, and as these conditions increase and move eastward over the country, a series of decided rain, hail, wind and thunder storms will begin, repeating themselves in many localities for several successive days, leading up to the 8th or 9th.

Centering on the 12th, 13th and 14th, reactionary storm conditions will reappear and make their regular, progressive transition from west to east across the country. These disturbances will culminate in many thunder and rain storms on and touching the 14th, following which, the barometer will rise, winds will shift to the west and north, with change to much cooler weather.

The next storm period will center on the 17th, covering the 16th to the 20th. This period will culminate on the 17th, 18th and 19th in failing barometer, much higher temperature, and another cycle of daily rain, thunder and wind storms. Light disturbances may break out into renewed energy on and touching the 22d. 23rd 24th. Change to anti-storm conditions—cooler weather, bracing air and rising barometer—should appear from about the 24th to 27th.

The closing storm period for May is central on 29th, extending from the 27th, to the 31st. The storm diagram shows that this period lies within the Mercury disturbance which is central on June the 3rd. The Moon is on the celestial equator on the 28th. and in apogee on the 29th. These facts combine point to general and possibly severe disturbances, progressively over the country from west to east, during the last five days of May. The most notable storms of this period will center on and touching the 28th and 29th.

Fine Old Residence Destroyed.—The homestead of Wm. J. Price, "Sportsman's Hall," on Wye River, Queen Anne's county, was burned to the ground Thursday afternoon. The fire was caused by a defective flue, and in less than a half hour from the time it was discovered the building and contents were in ashes. The house was a large frame building, and was considered one of the finest residences in that section of the county. It was tenanted by W. H. Waters, who lost all of his furniture and wearing apparel. The building was insured for about half of its value, and the furniture was insured for about $500.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon city, Fla., has written the manufactories that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by M. A. Toulson, Druggest.

COLLEGE NOTES.

Senior examinations will begin on Monday, May 15.

A Tennis fever is raging on the hill at present. The courts are in demand at all hours of the day.

Miss Virginia Holt, of Hillsboro, paid a short visit to her brother, Mr. Arthur Holt, on Wednesday afternoon.

Messrs. A. W. Bryan, E. F. Bryan, and R. C. Bryan, of Centreville, spent Sunday on the hill with their cousin, Mr. E. B. Bryan.

Messrs. A. S. Marine, ex-'04, and F. B. Noble, '02, who are now law students at the University of Maryland were welcome visitors at the hill over Saturday and Sunday.

The address before the Adelphia Literary Society this year will be delivered on Monday evening, June 19, by Rev. L. E. Barrett, D. D., of Dover, Del. Dr. Barrett is a prominent lecturer and is well known in Chestertown.

The college boys are watching with interest the work of Townsend, the ex-W.C pitcher, who is now with the Washington team. "Jack" is the inventor of a new ball called the "Delaware Peach Seed," which has been effective in winning his two latest games.

The Championship aspirations of the Kennedyville aggregation received a severe setback on the College Campus Saturday last, when the college team walloped the Kent stars to the tune of 5 to 2. Wilson and Schutz occupied the points for W. C. and rendered efficient service. The features of the game were the batting of McGinnes and a one-handed stop of a hot grounder by Brice.

The most charming social function that has been held on the hill this year was the lawn fete given by the Pieria Literary Society on Saturday evening last. Normal Hall had been specially arranged for the occasion, and the decorations, which were the best ever seen on the hall, displayed an unusual amount of taste and skill. The refreshments were served in abundance, and with an originality that is so characteristic of Pierian ingenuity. The reception commiteee was composed of the officers of the society, Misses Hale, Griffen, Smith, Walker and Kirby.

STILL POND ITEMS.

Dr. and Mrs. J. W. Urie will move from their home in Baltimore to their home on the farm near Still Pond.

Miss Daisy Ford visited her friend Miss Anderson at her home in Cecil.

Miss Jennie Bowers has been visiting friends in Baltimore.

Mrs. William Clark who has been quite sick, we are glad to state, is able to be up.

On account of the weather not looking favorable last Thursday, there were not so many present at the league social, which was held at the home of Mrs. W. G. Rasin.

Mrs. Clements who has been visiting in Wilmington and Philadelphia has returned home after a very pleasant trip.

Sunday being a beautiful day our Sunday school room was full of bright faces. All the teachers were out on time. We think if the teachers are at their places on time the scholars will think they ought to do the same. We think by so doing we will do a great work. That one day being a day of all days of the week. It is really a reaping day, on which the faithful instruction and personal work of the teachers are manifested. It is hoped, therefore, that the teachers will begin at once, if they have not already begun, to make earnest prayer in behalf of their scholars, and earnest appeals during the lesson hour, and in personal interviews at their homes and elsewhere to give themselves to Christ and their presence to the Sunday school. The pastor and superintendent can greatly aid in their public utterances to awaken serious thoughts on the subject of religion. The parents have an opportunity with their wonderful influence to make the sabbath day the day of ingathering of their children by sending them to the Sunday school where they will be welcomed by the teachers and superindent.

Mr. William Rasin, of Baltimore, is visiting friends here.

Mr. Earnest Horsey, clerk in F. H. Harper's store, made a business trip to the city last week.

Mr. William Medders, who has been visiting in New York, has returned home.

W. C. T. U. NOTES.

At a meeting of the W. C. T. U., held at the home of Mrs. Georgia Reed on Wednesday afternoon, the following resolution was unanimously adopted:

To the Md., Del. & Va. R. R. Co:—After fruitless attempts on the part of the W. C. T. U. to bring about the closing of the bar on the Chester River line of boats, it is rejoiced to learn of the same by the voluntary act of the controlling company of this and other bay lines. It rejoices also in the fact that an advanced temperance sentiment is making it possible for large corporations to accomplish what small organizations necessarily fail to do in shaking the foundations of the liquor traffic. In tendering you the heartfelt thanks of the W. C. T. U., it bespeaks for you a larger and holier revenue than that gained by the price of men.
