PLAN TO PROTECT OYSTER INDUSTRY.

An Association Incorporated With That Important Aim in View.

The Baltimore *American* of Tuesday says:

The Oystermen's Protective Association was incorporated yesterday, for mutual protection, etc., by W. Trickett Giles, Thomas B. Webster, Stephen C. Little, E. Rigby McDorman and Thos H. Tankersley, who, with Charles H. Dubois, James D. Anderson, Wm. F. Applegarth, Robert F. Walter, James E. Kirwan, Richard S. Dodson, and James F. Kelley, constitute a board of directors for the first year, excepting Mr. W. Trickett Giles.

Mr. Giles, in speaking of the objects of the association, said:

"The purpose of the incorporation of the Oystermen's Protective Association of Maryland is to bring together into one organization all those engaged in any of the various branches of the oyster industry, to the end that the oyster supply in Maryland may be increased and the financial condition of those engaged in said industry may be improved.

"It is an alarming fact, that, while Maryland has the best oyster rocks in the world, our oyster industry is on the decline, and many of our citizens are seeking other states in order to pursue the line of work that their experience has particularly fitted them for. 'What is the remedy?' is the all-absorbing question.

"I have given this question the deepest thought of which I am capable for the past 15 months, and have consulted some of the best and brightest men engaged in the business, and I have yet to meet the first one who demurs to the proposition that if this industry is saved to our people they must organize, and that they should have organized years ago.

"It will be under the management of a board of directors, but it is the purpose to organize in the city of Baltimore and in all the tidewater counties vitally interested in this question as many branch organizations or associations as may be desired, to have these associations represented by delegates in a state convention, the duty of which will be to determine what course to adopt to reach the desired end. There has never been any doubt in my mind but that there is sufficient intelligence, common sense and knowledge of the oyster question possessed by those engaged in the oyster industry in some or all of its branches to properly manage it for the good of all concerned, and for the benefit of the state, if they can be brought together imbued with a common purpose.

"Organization such as I have outlined is the only way in which what have always appeared to be conflicting interests, and what are in reality conflicting interests to a certain extent, can be brought together in a spirit of mutual concession, which will surely result in the betterment of all and of the perpetuation and increase of this most valuable industry in the state of Maryland.

"It is our further purpose, to eliminate as far as possible this question from politics. This association is nonpolitical. Some of its directors belong to one of the great political parties, some to the other. They were not selected for their political affiliations, but for their knowledge of and interest in the great question this association will deal with."

Accidents at Rock Hall.

Arnold Davis, a pupil of the Rock Hall public school, was bitten by a dog while at play on the school house grounds on Thursday. It is not known whether the dog was mad or not.

Church Note.

Christ Meth. Prot. Church.—Rev. D. L. Greenfield, pastor. Testimony meeting at 9.30 A. M. 10.30 A. M. Sermon Theme, "The Impartial God." 2.30 P. M. Sunday School. 7.15 P. M. Christian Workers' Song Hour. 8.00 P. M. Sermon to Young Men on "The Two Forts."

W. C. T. U. NOTES.

The regular monthly meeting of the Kennedyville W. C. T. U. was held Friday evening of last week, May 12th, in the M. P. Church. After a short song service, with Miss Susie Melvin at the organ, the meeting opened with singing "Where he leads me I will follow," and prayer by Mr. J. R. Jarrell. A very instructive scripture reading was given by Mrs. Rachel Hill. Minutes of the last meeting were read by the secretary. Recitations were given by Misses Ada Hurlock, Lizzie Jones, Lizzie Hesner. Quite an amusing article was read by Miss Susie Johnson.

The president, Mrs. Othoson, gave a very appropriate talk in which she admonished the strong to help the weak as much as possible and to overlook their infirmitves and should they fall, take them by the hand and help them rise again. The choir sang "We'll give them something better," and thus closed a very interesting meeting. On June 9th, the birthday of Jennie Cassidy, will be observed by holding mission service. All are invited to be with us as we hope to have a very entertaining and instructive program.

BEER OR TIME.

Thirty-five words of fine print tucked into an obscure corner of a great daily newspaper tell this significant story:

Mahanoy City, Pa., April 22.—Given the alternative of a nine-hour workday or giving up their customary glass of beer every hour, 200 employes of the Kahier's Brewery here, after much hesitation, yesterday decided to givet up the beer.

While the field workers in the great temperance reform are growing impatient—some of them—to see larger tangible results for their labors, there is a splendid work of education going forward without any herald of banners or gathering of clans. It would have been impossible ten years ago for these two hundred employes *in a brewery*, or anywhere else for that matter, to see the value of a rest hour over several glasses of free beer. That they see it now is one result of the attitude and education of the present time on this question.

The fact is, we who work in this reform are doing a greater good than our limited vision comprehends. We need to realize that the invisible forces are ever the mightiest. It may be drudgery to keep up the interest in a Loyal Temperance Legion hour in some rural district, but it is a "blessed" drudgery that has wings folded away in every one of those hours of sacrifice, wings of light that bear the truth farther than we can tell, to return to us some day a thousand fold.

The world will never know by what tiny seeds of suggestion, bits from sermons, memories of faithful white-ribbon saints, floating scraps of truth in newspapers and on bulletin boards, lispings from childish lips, holy results of secret prayers, those two hundred hearts have been taught and trained until they were brave enough to bid two hundred right hands lay down the beer glass and accept in its place a little bit of time. Oh, woman! woman! drop forever that weight of discouragement and go forward, not faithless but believing.

MISS JULIA MARLOWE
Heartily Approves of Peruna For the Nerves.

IN a recent letter to The Peruna Medicine Co., Miss Julia Marlowe, of New York City, writes the following:

"I am glad to write my endorsement of the great remedy, Peruna, as a nerve tonic. I do so most heartily."—Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are the reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition.

This is especially true in the spring season. Every spring a host of invalids are produced as the direct result of weak nerves.

This can be easily obviated by using Peruna. Peruna strikes at the root of the difficulty by correcting the digestion.

Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality which leads to strong, steady nerves, and thus nourishes life.

Peruna is in great favor among women, especially those who have vocations that are trying to the nerves.

Peruna furnishes the lasting vigor for the nerves that such people need.

Thousands of testimonials from women in all parts of the United States are being received every year. Such unsolicited evidence surely proves that Peruna is without an equal as a nerve tonic and a vital invigorator.

Buy a bottle of Peruna to-day. If you do not receive all the benefits from Peruna that you expected, write to Dr. S. B. Hartman, Columbus, Ohio.
