

Great Clearance Sale.

Lots of Oxfords that we have too many of; lots of Oxfords that we have too few of—they form the basis for this Great Clearance Sale.

MANY OF THE OXFORDS WILL BE SOLD AT HALF PRICE.

These are Oxfords for Men, Women and Children—not stock gathered for "a sale," but Oxfords taken from our good regular lines.

At first, it would seem that we are making too large a loss, but we must get through with this sale very soon—hence the important temptation of very low prices.

Then, again, in most of the lots, sizes are missing—it may take you an extra few minutes to be fitted. We cant's ask you to assume a bother unless we make it pay you.

Our Oxford business is a large one—the loss we make in these Clearance Sales average into a very tiny loss on our whole business

SO WE CAN WELL AFFORD IT.

It will be necessary to go after these bargains at once—later they'll be gone.

Very truly yours,

W. AMBROSE CARROLL,

CHESTERTOWN, MARYLAND.

There is no Guess Work About it.

"TRADE MARK"

Wilbur W. Hubbard's Fertilizers

MUST HAVE

Superior Quality and Absolute Uniformity and Purity. This Fall makes their sixtieth season in business, and their trade has increased each year in spite of competition; their sales for the past year having been larger than ever before. Can the sales of an inferior article constantly increase all these years? Our Fertilizers are not better than all others, but they have been, and we are willing for you to try them in competition with any goods on the market for Wheat and Grass. Two of our large buyers called and stated yesterday that the Wheat, and Grass, too, was better where our goods were used in competition with a goods costing several dollars more per ton.

WE PRESUME

You are now thinking about how many acres of Wheat you will sow, the quality of Fertilizer you will use, and of whom the same shall be bought. And just here, by way of advice, let us say, deal with your home manufacturers, if not with us, buy of our competitors. Keep the money in our county. Nevertheless, we solicit your trade with confident belief that you will find it to your interest to buy of us. We have always adhered to a high standard for our brands, as we are anxious that our goods shall have the reputation of being durable rather than cheap, and serve our customers so well that we shall gain their confidence and permanently retain their trade.

HENCE, WE OFFER YOU

Our A. A. Bone Super-Phosphate,

which is a positive Animal Bone Fertilizer, the Potash being derived from high grade sulphate and muriate. No kainit used in its manufacture.

Our Imperial Compound Fertilizer,

which has an Animal Bone Base. It, however, contains some S.C. Phosphate, but the Potash is derived from high grade sulphate. The ammonia from the animal matter on the animal bone, fine ground fish and little nitrate. This goods is a great Wheat and Clover producer, as it carries the Wheat through the winter splendiddly, the nitrate starts it off in the fall, makes the roots take hold, and then the other combination feeds along just as needed, hence, the universal satisfaction it has given.

Our Victor Phosphate

is a splendid goods. Is ammoniated with an excellent source of nitrogen, and runs high in Bone Phosphate. We have received already large orders for this brand. It has given excellent results.

WE HAVE

enlarged our factory, now have railroad and water facilities, and we ask you if a record of 30 years is not a sufficient guarantee to justify you in using the goods.

Very truly yours,

JAPANESE WHALERS.

The Curious Way They Do Their Work With Nets and Knives.

Whales are captured in nets by the Japanese. The whalers put off from the shore as quietly as possible, and when they come within the proper distance of their objective the boats, which have hitherto worked in couples, separate and, dropping their nets as they go, work around to the rear and flanks of their expected kill. The nets are made in large squares, each side being about forty feet long. One net is composed of six squares in line, and the squares are fastened to each other lightly. When all is ready the boats which have been worked around to the rear of the whale then commence to drive him gently toward the nets. Moving along lazily at first, the whale soon realizes that something untoward is happening and, hurrying forward, dashes on to one of the nets. This is the critical moment, and when the fishermen see that the whale is well in the center of one of the squares they raise a great shout and charge in upon him.

When the whale is about spent a man chosen for his strength, activity, pluck, coolness and general fitness for his work then leaps upon his back and with a great triangular shaped knife proceeds to cut two great gashes in his body just back of his head. Through the underlying blubber and these two gashes he passes a rope and, knotting it, makes a loop of it. He then repeats the same operation as far back on his body as he can. When the fight has been completely knocked out of the whale, boats range alongside of him, and by the help of the loops already mentioned the hapless cetacean is slung between them in such a manner as to minimize the danger of his carcass sinking.

Then the boats form in procession, and, making for the shore, there commences the most curious part of the whole affair. The whalers, with real fervor and in the most solemn manner possible, begin a chanting prayer for the ease of the departing spirit by calling out "Joraku! Joraku! Joraku!" in low, deep tones. Upon the third day after the kill a memorial service is held in the village temple, and prayers are offered for the repose of the dead whale's soul.—Chicago News.

POINTED PARAGRAPHS.

How many men work too hard? How many do you know?

Every good husband is henpecked. That's all there is to it.

Classical music is like some people—very hard to understand.

It is said that a farmer gets the best work out of a farm hand who is aspiring to be his son-in-law.

Perhaps one reason why a poor man lives longer than a rich one is that the doctors don't take so much interest in him.

When an economical man suffers a ten dollar loss he cuts off expenditures reaching to $50 before he feels right about it.

If you have faults the idea is not to humiliate yourself by acknowledging them to your enemies, but to get over them if possible for your own good.—Atchison Globe.

Leaping Treason.

King William III. of England was passionately fond of the chase and made it a point never to be outdone in any leap, however perilous. A Mr. Cherry, who was devoted to the exiled family, took advantage of this to plan the most pardonable design which was ever formed against a king's life. He regularly joined the royal hounds, put himself foremost and took the most desperate leaps in the hope that William might break his neck in following him. One day, however, he accomplished one so imminently dangerous that the king when he came to the spot shook his head and drew back. It is said that Mr. Cherry at length broke his own neck and thereby relieved the king from further hazard.

Rossini's Jealousy.

Rossini was intolerably jealous of all his musical contemporaries and particularly of Meyerbeer. In 1836 he heard "The Huguenots," and on listening to the performance from the beginning to the end he made up his mind that Meyerbeer had excelled him and determined to write no more. He lived until 1868, but produced nothing for the lyric stage. His thirty-two years of retirement were spent in the pleasures of a voluptuary. He was particularly fond of good eating and drinking and assembled about him the youngest and gayest society he could attract to his house.

A Roumanian Custom.

A strange custom is still observed in Roumania which reminds one strongly of Robinson Crusoe. When a servant has displeased his or her master the offender takes his boots in his hands and places them before the bedroom door of his master. It is a sign of great submission, and the boots are either kicked away as an intimation that the fault will not be forgiven or else the servant is told to place them on his feet, which shows that he is forgiven.

Inherited.

Shattered Ideal.

"Paw, what does it mean where it says here that the girl's ideal was shattered?"

"Why, it means she found that she could marry a wealthier man."—Detroit Tribune.

Expired.

The defendant, who was held on the charge of keeping a dog without a license, repeatedly tried to interrupt the evidence, but was hushed each time by the court. Finally the clerk turned to him.

"Do you wish the court to understand," he asked, "that you refuse to renew your dog license?"

"Yes, but"—

"We want no 'buts.' You must renew your license or be fined. You know it expired last month."

"Yes, but so did the dog."—Harper's Weekly.

Worth While.

Whatever adds in even the smallest way to the world's brightness and cheer is worth while. One who says an encouraging word to a disheartened neighbor, gives a look of love to a lonely one or speaks a sentence which may become strength, guidance and comfort to another does something worth while. It is always worth while to live nobly, victoriously, struggling to do right, showing the world even the smallest fragments of divine beauty.

"How, for instance?"

"He never bets on one."—Philadelphia Press.

Be kind to the rich. They may not be rich always.—Florida Times-Union.

Revised Version.

"It's curious that women are never great poets or great musicians," said Mr. Meeker.

"What did you say?" asked his wife belligerently.

"I was merely remarking that women are too sensible to squander their energies on poetry and music to the extent that some men do."

"CHEATED THE UNDERTAKER"

Says a Well Known Baltimore Physician.

"Some 12 years ago (1892), while engaged in active practice, I was suddenly attacked with a hemorrhage from the kidneys, accompanied by pain and a sickening, bearing-down sensation. I attributed it to the passing of a 'gravel stone' and the worst would soon be over, but not so. I was treated by some of the best professional talent in America. The case was published in medical journals and brother physicians offered suggestions, but the disease continued until, at last, in despair, after nine (9) long years of the tortures of the damned, I gave up and went to my room to die. My case was diagnosed by several side physicians as 'Bright's, with complications,' by others 'Haematuria, with Catarrh of the Bile Ducts,' but no one could do me the least possible good until the discovery of LAX-O-LITHIA SELTZ, which cured me and which I recommend to all similarly affected. I owe it to suffering humanity to make this fact public, also to state that those who take it need never fear Appendicitis or Typhoid Fever."
