AN INTERESTING ARTICLE entitled, "Booker T. Washington and the Negro," will be found on another page of this issue. We urge all Democrats to read it. Booker T. Washington is the colored man who ate lunch sometime ago with John Wanamaker's daughter in a hotel in Philadelphia.

TUESDAY, October 3, and Tuesday, October 10, are the days for registration this year, and Tuesday, October 17, only is the day for revision. Notices of registration have been posted throughout the county this week by the Board of Supervisors of Election, and those interested will do well to remember the days for registration and revision.

LET EVERY YOUNG MAN entitled to registration see to it that his name gets upon the registration books either on October 3 or October 10. Let every one also who is to be transferred from one voting place to another get his transfer *on time*. The election this fall is an important one, and every white man should deem it a great duty to vote.

THE DEMOCRATIC STATE CONVENTION will be held next Thursday, Sept. 28, in Baltimore. The convention will likely be held at night in the Lyric, and a great demonstration will be held. Senator Gorman will be present and will likely address the assemblage. The amendment will receive a ringing endorsement, and the campaign will be pushed with vigor from that date.

THE ANNOUNCEMENT of ex-Governor Frank Brown as a candidate for Governor in 1908 has served to quicken interest in politics at present. 1908 is a considerable time to wait, but it's the early bird that catches the worm. Gen. Baughman had already announced himself a candidate and who knows but the Eastern Sho' may have a candidate before that eventful year. There may be a half dozen candidates between now and 1908, all working zealously to land the prize.

THAT GEN. MURRAY VANDIVER, Chairman of the Democratic State Central Committee intends to make a hot fight for the passage of the Poe Amendment at the next election is evidenced by the Committee of 19 representative Democrats from all parts of the state and from all factions of the party to assist him. The committee is as follows: Ex-Gov. Frank Brown, Ex-Gov. John Walter Smith, ex-Governor E. E. Jackson, Generel L. Victor Baughman, Frank A. Furst, S. S. Field, Hon. J. F. C. Talbott, James R. Wheeler, Henry Keidel, Col. Buchanan Schley, Hon. Joshua W. Miles, W. Mitchell Diggs, W. Cook Sanderson, Henry Clark, Gen. Lloyd L. Jackson, Edward J. Christy, John J. Hoffman, J. Lewis Gough and Oliver L. Rhodes. Ex-Govenor Jackson was made Chairman of the committee and he will devote his usual energy to to the passage of the amendment.

PRIMARIES WERE HELD throughout Baltimore City on Monday for the nomination of senatorial and legislative candidates as well as for the election of Ward executives. The primaries were conducted on the Crawford County plan, and were most satisfactory. In nearly all of the wards the organization candidates were successful, but in the nomination of candidates, Mr. Isaac Lobe Straus, organization candidate for the Senate, was defeated by Mr. J. Charles Linthicum, who had the able assistance of Congressman John Gill. Mr. Wm. J. Ogden, anti-organization candidate, defeated Mr. Parlett, the organization candidate in the Fourth District, while Mr. Wm. Rayner, organization candidate for the legislature defeated Mr. Milnes Maloy, by a narrow margin. The organization still maintains control of the machinery in city and will control the majority of the legislative candidates. Mr. Strauss' defeat and Mr. Ogden's victory were the greatest surprises of the contest.

Order of Publication.

Elmer E. Leary, Antone Gagalski,
vs.
Bertie May Besowsky, John A. Besowsky, Rosa Besowsky, Fanny Besowsky, Willie Besowsky, Daisy Besowsky, Effie Besowsky, Margie Besowsky, George Besowsky, Annie Sewell, Marion Sewell, Hope H Barroll, new administrator in the place and stead of Robert F. Jewell, late administrator.

In the Circuit Court for Kent County, in Equity.

No. 1565.

The object of this suit is to procure a decree for the sale of the real estate of Rudolph Besowsky deceased, to pay the debts of the said deceased.

The bill states that Rudolph Besowsky, late of Kent county, departed this life intestate leaving no widow surviving him but leaving the following children and heirs at law, viz.: Annie Sewell, who married Marion Sewell, who reside in Rock Hall, Kent county, Maryland, John A. Besowsky, adult, who resides in the State of New Jersey; Bertie May Besowsky and Rosa Besowsky, adults both of whom reside in the city of Baltimore, Maryland; Fannie Besowsky, adult, who resides in Morristown, New Jersey, and the following children not of age: Willie Besowsky and Daisy Besowsky, both of whom reside in Baltimore, Md.; Effie Besowsky, who resides in Talbot county, Md.; Margie Besowsky, who lives in Wilmington, Del., and George Besowsky, who lives in a Catholic school in the State of Delaware.

And the bill further states that there is some uncertainty as to the residence of some of the defendants, and as a precaution the bill alleges generally that all the defendants are non-residents so that if it is impossible to serve personal notice on any of the defendants, due notice may be given to those who do not reside in the State of Maryland, by means of an Order of Publication.

And the bill further states that the said Rudolph Besowsky was in his lifetime indebted unto Elmer E. Leary in the sum of $22.45, and unto Antone Gagalski in the sum of $18.45, and the said Rudolph Besowsky, being so indebted, departed this life intestate, leaving but a small personal estate, not sufficient to pay his debts, and letters of administration have been granted unto Hope H. Barroll.

And the bill further states that the said Rudolph Besowsky left real estate at a great value situated in Kent county, Maryland.

To the end therefore that the real estate of the said Rudolph Besowsky, deceased, or so much thereof as may be necessary may be sold for the payment of the debts of your orators and for the payment of the debts due the other creditors of the said deceased.

It is thereupon ordered this 14th day of September, 1905, by the Circuit Court for Kent county as a court of Equity, that the plaintiffs by causing a copy of this order to be inserted in some newspaper printed and published in Kent county once a week for four successive weeks before the 16th day of October, 1905, giving notice to the said Bertie May Besowsky, John A. Besowsky, Rosa Besowsky, Fannie Besowsky, Willie Besowsky, Daisy Besowsky, Effie Besowsky, Margie Besowsky, George Besowsky, Annie Sewell and Marion Sewell, all of whom are alleged to be non-resident defendants, of the object and substance of this bill and warning them to appear in person or by solicitor on or before the 6th day of November next, to show cause if any they have why a decree should not be passed as prayed.

Typhoid Fever.
How to Prevent Its Spread
—ISSUED BY THE—
STATE BOARD OF HEALTH
OF MARYLAND.

When TYPHOID FEVER appears in a family the source of the infection must be looked for in drinking water or food taken within the preceding twenty days. The patient may not have been infected at home, bnt if a second case occurs this second infection will in all probability be traceable in some way to the first patient. In a majority of instances the drinking water has become infected. Your first business therefore is to find out the quality of your drinking water.

You can do this by asking the local health officer for instruction about shipping us samples of your drinking water. In about a week we will be able to report on the drinking water, but in the meantime the members of the family must not use the raw water. The daily supply of drinking water must be boiled.

The infectious material of typhoid fever is produced in but one way. It grows always in the bowels and sometimes in the bladder. It therefore escapes from the sick person in the stools and urine. If we kill the germs in the stools and urine as soon as they are passed there can be no spread of thyphoid fever. These discharges should therefore be disinfected as soon as possible. You will need a large quantity of a good disinfecting solution.

RECEIPT FOR A GOOD DISINFECTANT.

To four gallons of water add enough salt to make a strong brine. Put this in a five gallon demijohn or jug and add a quart of crude carbolic acid. Shake it up well and you will have a good disinfectant for stools and urine.

The crude carbolic acid known as U. S. P. 90 per cent. is very good and a quart will cost about 50 cents. There is a cheaper grade known as a 30 per cent. acid, which is nearly as effective.

About a pint of this solution should be put in the chamber or bed pan before it is used, so that the discharges will begin to be disinfected as soon as they leave the body. There must always be at least as much of the disinfecting solution as there is of the discharges, so that more of the disinfecting solution may need to be added after the discharges are passed. If the stools are thin and watery their disinfection will be accomplished in half an hour or so, but if the stools are thick or formed very much more time will be required. On that account it is best to have a covered jar or bucket into which the bed pan can be emptied, and to empty this jar only once in 24 hours. If the discharged cannot be finally thrown into a sewer, they should be buried in the soil at a convenient spot where there is no chance of their fouling a water supply. The discharges should never be thrown upon the surface of the ground, for you will hardly be successful in killing all the typhoid bacilli, and you must not place them where those not killed by the acid may be blown about in the dust or carried away by flies to infect other people.

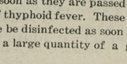

In spite of every precaution those who wait on the sick person will get their hands infected, and it is therefore necessary to wash the hands every time one does any service about the patient's bed or body. Whoever waits on the patient must not prepare food or drink for other persons in the house, or if it is impossible to mind this rule, one must most carefully and thoroughly cleanse the hands before performing any household duty outside the sick room. Good scrubbing with soap, water and a brush, and then rinsing well in a fresh water will suffice for cleansing the hands.

If any one else in the house falls sick within two weeks after the first patient the probability is that the infection was lodged before the precautions were taken in regard to drinking water and the disposal of discharges. But if the second case occurs more than 20 days after the first case, that will signify that we have made a mistake somewhere in our precautions.
