TORTURING PAIN.

Half This Man's Sufferings Would Have Killed Many a Person, But Doan's Cured Him.

Thousands of grateful people are telling every day how Doan's Kidney Pills cured them of distressing and dangerous kidney and bladder troubles.

Yet other thousands are suffering every day from these same ills. Why? They are either very negligent or very skeptical. Neglect of kidney disorders leads to dropsy, diabetes, Bright's disease and other fatal diseases.

Sincere, honest testimony like the following should convince every skeptic.

A. C. Sprague, stock dealer, of Normal, Ill., writes: "For two whole years I was doing nothing but buying medicines to cure my kidneys. I do not think that any man ever suffered as I did and lived. The pain in my back was so bad that I could not sleep at night. I could not ride a horse and sometimes was unable even to ride in a car. My condition was critical when I sent for Doan's Kidney Pills. I used three boxes and they cured me. Now I can go anywhere and do as much as anybody. I sleep well and feel no discomfort at all."

A. C. SPRAGUE.

A FREE TRIAL of this great kidney medicine which cured Mr. Sprague will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

the Jew is not because of his inferiority, but because of his genius. We are afraid of him, we Gentiles who meet him in the arena of life, get licked and then make faces at him. The truth is the Jew had achieved a noble civilization—had his poets, prophets, priests and kings—when our Germanic ancestors were still in the woods cracking cocoanuts and hickorynuts with monkeys. We have assimilated the Jew because his daughter is beautiful and his son strong in mind and body!

The Danger of a Nation Within a Nation.

The trouble with Mr. Booker T. Washington's work is that he is silently preparing us for the future heaven of amalgamation—or he is doing something equally dangerous, namely, he is attempting to build a nation inside a nation of two hostile races. In this event he is storing dynamite beneath the pathway of our children—the end at last can only be in bloodshed.

Mr. Washington is not training negroes to take their place in any industrial system of the south in which the white man can direct or control him. He is not training his students to be servants and come at the beck and call of any man. He is training them all to be masters of men, to be independent, to own and operate their own industries, plant their own fields, buy and sell their own goods, and in every shape and form destroy the last vestige of dependence on the white man for anything.

I do not say this is not laudable—I do not say that it is not noble. I only ask what will be its end for the negro when the work is perfect? Every pupil who passes through Mr. Washington's hand ceases forever to work under a white man. Not only so, but he goes forth trained as an evangelist to preach the doctrine of separation and independence.

The negro remains on this continent for one reason only. The southern white man has needed his labor, and therefore has fought every suggestion of his removal. But when he refuses longer to work for the white man, then what?

Mr. Booker T. Washington says on page 65 of his book: "The negro must live for all time beside the southern white man."

On what sort of terms are they to live together? As banker and borrower? Hardly, if the negro is the banker. Even now, with the white man still hugging the hoary delusion that he can't get along without the negro, he is being forced to look to the Old World for his labor. The simple truth is, the south will lag behind the world industrially in just so far as she depends on negro labor. The idea that a white man cannot work in the fields of the south is exploded. Only one-third of the cotton crop is today raised by negro labor. Even now the relations of the races, with the negro an integral part of the white man's industrial scheme, become more and more difficult.

A Gulf That Grows Wide.

Professor Kelly Miller says: "It is a matter of common observation that the races are growing further and further apart."

Mr. Washington says on this point: "for the sake of the negro and the southern white man there are many things in the relations of the two races that must soon be changed" (page 65). The point I raise is that education necessarily drives the races further and further apart, and Mr. Washington's brand of education makes the gulf between them if anything a little deeper. If there is one thing a southern white man cannot endure it is an educated negro. What's to be the end of it if the two races are to live forever side by side in the south?

Mr. Washington says: "Give the black man so much skill and brains that he can cut oats like the white man—then he can compete with him."

And then the real tragedy will begin. Does any sane man believe that when the negro ceases to work under the direction of the southern white man, this "arrogant," "rapacious" and "intolerant" race will allow the negro to master his industrial system, take the bread from his mouth, crowd him to the wall and place a mortgage on his house? Competition is war—the most fierce and brutal of all its forms. Could fatuity reach a sublimer height than the idea that the white man will stand idly by and see this performance? What will he do when put to the test? He will do exactly what his white neighbor in the north does when the negro threatens his bread—kill him!

Abraham Lincolon foresaw this tragedy when he wrote his Emancipation Proclamation, and he asked congress for an appropriation of a billion dollars to colonize the whole negro race. He never believed it possible to assimilate the negro into our national life. This nation will yet come back to Lincoln's plan, still so eloquently advocated by the Negro Bishop, Henry M. Turner.

It is curious how the baldheaded assertion of a lie can be repeated and repeated until millions of sane people will accept the bare assertion as an established fact. At the close of the war, Mr. Lincoln, brooding over the insoluble problem of the negro's future which his proclamation had created, asked General Benjamin F. Butler to devise and report to him immediately a plan to colonize the negroes. General Butler, naturally hostile to the idea, made at once his famous, false and facetious report, "that ships could not be found to carry the negro babies to Africa as fast as they are born!" The president was assassinated a few days later. This lie is now forty years old, and Mr. Booker T. Washington actually repeats it as a verbal inspiration, though entirely unconscious of its historic origin.

We have spent about $800,000,000 on negro education since the war. One-half of this sum would have been sufficient to have made Liberia a rich and powerful negro state. Liberia is capable of supporting every negro in America. Why not face this question squarely? We are temporizing and playing with it. All our educational schemes are compromises and temporary makeshifts. Mr. Booker T. Washington's work is one of noble aims. A branch of it should be immediately established in Monrovia, the capital of Liberia. A gift of ten millions would do this, and establish a colony of half a million negroes within two years. They could lay the foundations of a free black republic which within twenty-five years would solve our race problem on the only rational basis within human power. Colonization is not a failure. It has never been tried.

We owe this to the negro. At present we are deceiving him and allowing him to deceive himself. He hopes and dreams of amalgamation, forgetting that self-preservation is the first law of nature. Our present attitude of hyprocisy is inhuman toward a weaker race brought to our shores by the sins of our fathers. We owe him a square deal, and we will never give it to him on this continent.

Origin of the Derby.

The twelfth Earl of Derby is unknown to the reader of the ordinary history book. Lovers of art know him vaguely as the peer who married the pretty and popular actress Eliza Farren, whom the young Lawrence painted so brilliantly. But the earl yearly has his revenge when all the world and his wife flock to Epsom to see the race for the Derby stakes, for that race, in its institution in 1780, was named after the jovial young peer who was one of the leading patrons of the Georgian turf.—London Standard.

Butter In Slices.

From time immemorial in Cambridge, England, the dairymen roll the butter so as to form a long stick weighing a pound, which they sell in slices, as if it were sausage. In the market the butter merchants do not need to use either weights or scales. A simple glance is sufficient for these people accustomed to the time honored practice. A very neat cut with the knife divides the yard into halves, quarters or eighths very exactly, and it appears that the customer is never given short measure.

Not for My Own Interest

ENTIRELY,

But for Yours, Too.

I am going to make a change in store-room and location. I have fully decided to move from the store I am now occupying to a much better store and location, and will add to the Jewelry business a very salable line of goods. In order to carry this out I am compelled to reduce my stock that I have on hand, and the only way to sell it is to sell it for what it will bring, and therefore I have decided to have regular sales on Saturday and Saturday nights. Will sell my entire line of Clocks, Silver-plated hollowware, Rogers' Tableware, Domestic Sewing Machines. Will also sell Watches and Jewelry, mostly for ladies, Spectacles and Eye Glasses, etc. The sale will begin next Saturday, July 8th.

Read this advertisement carefully and bear in your mind that opposition is the life of trade. I ask the patronage of the public. I remain with all my strength to serve the public.

Respectfully,

A. LEVINE
