W. AMBROSE CARROLL,

Next Door to Postoffice, - Chestertown, Maryland.

There is no Guess Work About it.

TRADE MARK

Wilbur W. Hubbard's Fertilizers

MUST HAVE

Superior Quality and Absolute Uniformity and Purity. This Fall makes their sixtieth season in business, and their trade has increased each year in spite of competition; their sales for the past year having been larger than ever before. Can the sales of an inferior article constantly increase all these years? Our Fertilizers are not better than all others, but they have been, and we are willing for you to try them in competition with any goods on the market for Wheat and Grass. Two of our large buyers called and stated yesterday that the Wheat, and Grass, too, was better where our goods were used in competition with a goods costing several dollars more per ton.

WE PRESUME

You are now thinking about how many acres of Wheat you will sow, the quality of Fertilizer you will use, and of whom the same shall be bought. And just here, by way of advice, let us say, deal with your home manufacturers, if not with us, buy of our competitors. Keep the money in our county. Nevertheless, we solicit your trade with confident belief that you will find it to your interest to buy of us. We have always adhered to a high standard for our brands, as we are anxious that our goods shall have the reputation of being durable rather than cheap, and serve our customers so well that we shall gain their confidence and permanently retain their trade.

HENCE, WE OFFER YOU

Our A. A. Bone Super-Phosphate,

which is a positive Animal Bone Fertilizer, the Potash being derived from high grade sulphate and muriate. No kainit used in its manufacture.

Our Imperial Compound Fertilizer,

which has an Animal Bone Base. It, however, contains some S.C. Phosphate, but the Potash is derived from high grade sulphate. The ammonia from the animal matter on the animal bone, fine ground fish and little nitrate. This goods is a great Wheat and Clover producer, as it carries the Wheat through the winter splendidly, the nitrate starts it off in the fall, makes the roots take hold, and then the other combination feeds along just as needed, hence, the universal satisfaction it has given.

Our Victor Phosphate

is a splendid goods. Is ammoniated with an excellent source of nitrogen, and runs high in Bone Phosphate. We have received already large orders for this brand. It has given excellent results.

WE HAVE

enlarged our factory, now have railroad and water facilities, and we ask you if a record of 30 years is not a sufficient guarantee to justify you in using the goods.

Very truly yours,

WILBUR W. HUBBARD,

CHESTERTOWN' MD.

THE MARYLAND

Agricultural College,

COLLEGE PARK, MD.

MARYLAND'S SCHOOL OF TECHNOLOGY.

R. W. SILVESTER, PRESIDENT.
y29.tf. College Park, Md

WASHINGTON COLLEGE,

Chestertown, Md.

The One Hundred and Twenty-Fourth Session Begins September 20th, 1905.

The college offers three courses of study—Classical, Latin-Scientific, Scientific—each leading to the degree of Bachelor of Arts.

The elective system enables each student to select the studies suited to his particular needs. Two sub-freshmen classes are maintained for the benefit of those who desire a thorough preparation for college.

The Normal Department.

is recognized by the state as a part of the system of public education. A diploma entitles the holder to teach in any county of the state without examination.

Students are provided with good board, and comfortable, well-furnished quarters. The buildings are equipped with every modern convenience—steam heat, electric lights, baths.

Here students may pursue their work in a highly moral community, amid beautiful and healthful surroundings, under careful supervision of health and habits, at very low rates.

For catalogue and further information, address

JAMES W. CAIN, LL. D., President.

Ladders, Harness and Machine Oils. The oils will be sold cheap, as I shall keep oils no longer.

Jos. Guest,

Chestertown Md,

Not for My Own Interest

ENTIRELY,

But for Yours, Too.

I am going to make a change in store-room and location. I have fully decided to move from the store I am now occupying to a much better store and location, and will add to the Jewelry business a very salable line of goods. In order to carry this out I am compelled to reduce my stock that I have on hand, and the only way to sell it is to sell it for what it will bring, and therefore I have decided to have regular sales on Saturday and Saturday nights. Will sell my entire line of Clocks, Silver-plated hollow-ware, Rogers' Tableware, Domestic Sewing Machines. Will also sell Watches and Jewelry, mostly for ladies, Spectacles and Eye Glasses, etc. The sale will begin next Saturday, July 8th.

Read this advertisement carefully and bear in mind that opposition is the life of trade. I ask the patronage of the public. I remain with all my strength to serve the public.

Respectfully,

A. LEVINE

CHESTERTOWN, MD.

HEAT AND LIGHT.

The Difference In the Penetrating Ability of Their Rays.

The rays of heat and light are quite independent of each other in their ability to penetrate different substances. For illustration, glass allows the sun's heat to pass through as readily as it does the rays of light, and that without heating the glass too. If the glass be coated with lampblack, however, the rays of light are arrested, but the heat passes through as before, not a single degree's difference in the latter phenomenon being noticeable. Then, again, both heat and light pass through water, provided it is clear. One of the oddities in this connection is this: Although the heat and light pass through water in its normal state, the addition of a little powdered alum, which readily dissolves without leaving the least murkiness, will arrest the rays of heat to such an extent as to almost immediately raise the temperature of the water to a perceptible degree, yet the light continues to pass through as before.

Ice, like glass, also transmits both heat and light. Dr. Sutherland in "Observations Upon the Icebergs of Baffin's Bay" says: "Several pieces of granite were found deeply imbedded in ice without any communications with outside air. These were all surrounded with what might be termed an atmosphere of water." The explanation of such an oddity is this: The heat passing through the ice had been absorbed by the stones until their temperature had been raised to a degree sufficient to melt the ice around them.

A WEST AFRICAN CITY.

The Capital of Liberia Was Named After President Monroe.

Monrovia was named after the celebrated president of the United States, Monroe, who is responsible for that doctrine which inhibits any European nation from further conquests in the new world. The capital of Liberia is divided into two parts, the low and shoreward sections being given over to large settlements of Kru boys and indigenous negroes, while the upper part of the town is inhabited by Americo-Liberians and European consuls and traders. This civilized part of the town is composed of broad grass grown streets and substantial, well built, comely looking houses, churches, offices and public buildings.

This smart appearance of the houses is in somewhat striking contrast to the neglected condition of the roads. These have never been made and are simply the unleveled rock of more or less flat surface. Consequently at the present time they are absolutely unsuited to any vehicle, though I have seen an enterprising Liberian negotiate them with a bicycle. They are generally covered with a very short, close tuft of thickly growing plants, which is kept in the condition of turf by the constant nibbling of the pretty little cattle that frequent the streets of Monrovia. A less agreeable feature are the pigs, which exist in great numbers and perform the office of scavengers.—Sir Harry Johnston.

A Whistler Retort.

James MacNeill Whistler, the artist, was appreciated among his friends as much for his trenchant wit and sarcastic sayings as for his genius. A young lady on one occasion, her first meeting with Whistler, was giving vent to her appreciation of the "artistic temperament" and was evidently of the opinion that she possessed that requisite herself.

"It is wonderful," she said in conclusion, "what a difference there is between people."

"Yes," replied Whistler, "there is a great deal of difference between matches, too, if you only look close enough, but they all make about the same blaze."

London Beggars In 1700.

In the year 1700 ...n Cary had this to say about London and its beggars: "He that walks the streets and observes the fatigues used by the beggars to make themselves seem objects of charity must conclude that they take more pains than an honest man doth at his trade. Beggary is now become an art of mystery, to which children are brought up from their cradles. Anything that may move compassion is made a livelihood, a sore leg or arm or, for want thereof, a pretended one."

Cheerfulness.

Cheerfulness is one of the great miracle workers of the world. It re-enforces the whole man, doubles and trebles his power and gives new meaning to his life. No man is a failure until he has lost his cheerfulness, his optimistic outlook. The man who carries a smiling face and keeps cheerful in the midst of discouragements, when things go wrong, when the way is dark and doubtful, is sure to win.—Success Magazine.

Gave Her Away.

"Did the father give the bride away?"

"I should say he did. He got rattled, and what do you think he said as he handed her over to the bridegroom? 'It is more blessed to give than to receive.'"—Cleveland Leader.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by M. A. Toulson, druggist, Chestertown, Md.

"CHEATED THE UNDERTAKER"

Says a Well Known Baltimore Physician.

"Some 12 years ago (1892), while engaged in active practice, I was suddenly attacked with a hemorrhage from the kidneys, accompanied by pain and a sickening, bearing-down sensation. I attributed it to the passing of a 'gravel stone' and the worst would soon be over, but not so. I was treated by some of the best professional talent in America. The case was published in medical journals and brother physicians offered suggestions, but the disease continued until, at last, in despair, after **nine (9) long years of the tortures of the damned,** I gave up and went to my room to die. My case was diagnosed by several able physicians as **'Bright's, with complications,'** by others **'Haematuria,** with Catarrh of the Bile Ducts,' but no one could do me the least possible good until the discovery of **LAX-O-LITHIA SELTZ,** which cured me and which I recommend to all similarly affected. I owe it to suffering humanity to make this fact public, also to state that those who take it need never fear Appendicitis or Typhoid Fever."

J. ZACHARY TAYLOR, M. D., Lung, Blood and Nerve Specialist.

LAX-O-LITHIA SELTZ unclogs the Kidneys, stimulates the Liver, clears the Skin, aids Digestion, moves the Bowels, cures Constipation, Biliousness, Dizziness, Jaundice, Uric Acid, and filters the Blood of Waste, Ferment and Germs. **25 Cents.**

ANTI-ZYMO-LARIA TABLETS absolutely cures Malaria, Ague and Fever, Dysentery, Headache, Neuralgia, Menstrual and other pains. Wipes out LaGrippe and a Fresh Cold in a few hours. 25 Cents.

These **Non-Secret Honest Remedies** should be in every home.

MANUFACTURED BY **THE J-Z-T MEDICAL CO.**
SOLD BY ALL DRUGGISTS. BALTIMORE, MD.
