Kent News

SATURDAY, FEBRUARY 17, 1923

The solution of the road problem has been solved in Virginia. Charles Petticrew, a resident of Amherst county, has been fined $50 and given four months on the roads in the Corporation Court of violating the State Prohibition law. R. L. Hendricks was fined $50 and given 30 days on a similar charge.

There are two things that do not go together, and those are automobile driving and liquor. As automobile driving increases more care is constantly needed. Nobody ought to be let loose on the roads with a powerful machine unless he is thoroughly master of himself, perfectly conscious of what he is doing, and in a condition to exercise good judgment.

Gov. Ritchie Entertains Editors

About sixty editors of Maryland were entertained by Gov. Albert C. Ritchie, at the Executive Mansion, at Annapolis, last Saturday. The Governor is a past master in extending Maryland's hospitality and upon this occasion he seems to have scored a most notable success as all present voted the Governor "a jolly good fellow."

A representative of the Kent News was the only editor present from Kent county, but both the county press and city dailies were nearly all represented.

Gov. Ritchie gave a most admirable and comprehensive review of the Maryland State Government, both as to what has been done and plans for the future.

A fine luncheon was served with the Governor's mother, Mrs. Ritchie, presiding at the dining table.

BIRTHDAYS IN FEBRUARY

The month of February, in American history, is a month of notable birthdays. Many of our famous national characters were born in this month. Too long we have known it only because the "Father of His Country" was born on the twenty-second. The most that many of us think concerning February is that it is Washington's month.

Horace Greely, founder and editor of the New York Tribune, was born on the third.

General Sherman was born on the eighth. President William H. Harrison, the ninth in office, affectionately known as "Tippecanoe," because of a signal military victory in the battle of that name, was born on the ninth. Thomas A. Edison, America's greatest living (if not the greatest over all) scientist, has his natal day on the eleventh. But the one other name among February's children remembered next to Washington's is Abraham Lincoln, whose birthday every school child knows is the twelfth. Ten days later is the day first nationally observed as a birthday memorial, that of George Washington. James Russell Lowell, the poet, author, traveler, ambassador to Great Britain was born on the twenty-second, and Henry Wadsworth Longfellow, who still remains our most popular poet, was born on the twenty-seventh.

There are other notables who have this month as the time of their birth, but these are sufficient to show that February has done much for American biography. This month has given us three Presidents—Harrison, Lincoln, Washington; three men of letters—Greely, Lowell, Longfellow; and one scientist—Edison. Each in his own order stands in the forefront of distinction and merit.

There are two other days of February we must not forget. One is the day of "B'r Groundhog," the patron saint of the people who are weather superstitious.

The other day is St. Valentine's, on the fourteenth, when love missives flit through the mails, leaving their sentiments of affection.

Then best of all—to the editors of the News—it is our mother's birthday.

The Best In Cows

AT PRIVATE SALE

Mr. N. S. Hopkins has purchased one of our young registered cows. He also takes two heifers. These are a pair of the finest we have ever grown. To go with these young cattle he takes a young bull from our Colantha Cow. She was the first cow in Kent county to give over 80 pounds of milk per day. On official test she has made 7-day records for three consecutive years that average 560 pounds of milk and 23 pounds of butter.

She is the only cow in the State to have a 3-year old daughter to milk over 600 pounds in seven days. She also has a 7-day record 399 pounds milk and 15 pounds butter.

He is sired by our show bull whose dam was the first cow South of Mason and Dixon line to give over 24,000 pounds of milk and 1200 pounds butter in 1 year. There is a wonderful lot of production back of this young bull.

Mr. Hopkins is a son-in-law of Rev. S. S. Hepburn and expects to make his future home in Kent.

Let us fix you up with a young bull.
