## MOTHER OF LARGE FAMILY

**Recommends Lydia E. Pinkham's Vegetable Compound to Other Mothers**

Windom, Minn.—"I was so run-down that I was just good for nothing. I was to become the mother of my ninth child, and I thought I did not have the strength to go through with it. I took Lydia E. Pinkham's Vegetable Compound, and it has surely done all I could ask it to do and I am telling all my friends about it. I have a nice big baby girl and am feeling fine. You may use this letter to help other sick mothers." — Mrs. C. A. MOEDE, Box 634, Windom, Minn.

**My First Child**

Glen Allen, Alabama.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and gives me strength. I recommend it and give you permission to use my testimonial letter."—Mrs. IDA RYE, Glen Allen, Alabama.

## State's Oyster And Shad Yield Reported Lessening

**Harrison W. Vickers, Jr., Chairman Of Conservation Commission, Calls For Loans To Curb Setting Of Nets Beyond The Proper Limits.**

The need to restore the supply of oysters and shad in Maryland is set forth in the annual report of the Conservation Commission, which Harrison W. Vickers, Jr., chairman of the Commission, has just forwarded to Governor Ritchie.

Both the shad and oyster supply have been declining, the report points out, and Mr. Vickers has offered a remedy in each case. He suggests that proper State and Federal legislation be enacted to curb the setting of nets. In the report he states that the nets now are so numerous and extend so far beyond their proper limits that it is practically impossible for the shad to do any mort than enter the bay. Mr. Vickers states that few of these fish ever reach the head of the rivers, their natural spawning ground.

**Oyster Rocks Depleted.**

Mr. Vickers points out, too, that year by year the oyster rocks have become depleted and resuscitation of them has been neglected to such an extent that many rocks formerly productive to a high degree now are entirely barren.

By planting oyster shells on which the oyster spat might attach itself and by the transplanting of bivalves from congested beds and from sections in which they do not thrive because of the lack of natural food in the waters, Mr. Vickers believes the oyster industry soon could be restored.

He believes, too, that a large annual appropriation for a period of eight or ten years with which to begin this reconstruction work is the only manner in which it can be carried on effectively, Mr. Vickers says that the present tax on oysters to cover inspection is sufficient to place on the industry, and says there should never be any further demand or need for an increase. The report indicates that the Commission rapidly is reaching the point where it will be self-supporting.

**Touches On Pollution.**

Mr. Vickers points to the comparison of appropriations for the past few years. In 1921 the fund provided for the Commission by the Legislature was $59,740; in 1922 this was cut to $33,740; for 1923 the appropriation calls for $8,756.09.

Pollution of the water in Curtis bay also is touched upon in the report, and Mr. Vickers says that due to the investigation which the Commission conducted in conjunction with the State and City Boards of Health. it is believed ultimate results will be good.

## CECIL MARCH COURT

The Cecil Circuit Court convened again on Monday morning, after the recess taken on Wednesday, of last week, with Associate Judges Wickes and Keating in attendance. The removed case from Caroline county, set for the day, it was learned, was under way toward settlement, and Court took up the suit of J. Thomas Nickerson vs. Harry Bamberger, removed there for trial. J. H. Legg and James F. Evans for plaintiff; S. Scott Beck and Clayton for defendants. Tried before the Court. The suit grew out of the sale of 1100 bushels of corn by the defendant in December 1918, at $1.38 per bushel, to be delivered at the car for shipment. When the car arrived, the defendant refused to deliver the corn which had advanced 17 cents in price.

Mr. Nickerson, a grain dealer, of Sudlersville, was called and testified that Mr. Bamberger met him and told him he had 1100 bushels of corn for sale. He met him again and told him he would sell the corn at $1.38, its price at the time, as he wanted to move before New Years. Mr. Nickerson wrote for a permit for use of a car, as was then required, which arrived later. Corn had meanwhile advanced 17 cents per bushel, and Mr. Bamberger refused delivery at the car, as had been arranged. As no written contract or agreement had been made, under the law of uniform sales. Mr. Beck prayed the Court to find a verdict for the defendant, which accordingly rendered.

## MRS. SAMS IS OUT WITH THE FACTS

**Says Tanlac Ended Two Years Of Suffering From Unstrung Nerves And Stomach Disorders.**

Jesse W. Cadle, carpenter and president of Union No. 1126, residing at 25 Brewer Ave., is still another well known Annapolis man to come forward in behalf of Tanlac.

"I hope my experience will help some other sufferer, for if it hadn't been for somebody else's statement I might still be suffering," he declared. "I had stomach trouble so bad it simply made me miserable. After eating, gas bloated me up anl pressed on my chest till I thought I'd smother. My food often felt like a heavy burning lump in the pit of my stomach for hours. I was so weak and run down I couldn't lift a hammer, couldn't sleep, anl almost always had a sharp, cutting pain in the small of my back.

"But since taking Tanlac I feel like a new man. I never have indigestion, sleep like a top and always feel ready for work. Tanlac certainy is a remarkable medicine."

Tanlac is for sale by all good druggists. Over 35 million bottles sold. —Adv.
