FURNITURE ADVANCES

Advances of from 10 to 15 per cent in the price of furniture, due to higher cost of various materials are reported in trade reviews. It is explained that plate glass, paint and varnish and materials for upholstering are now 25 to 75 per cent higher in cost than a year ago. All these commodities are subject to heavy duties imposed by the Fordney-McCumber profiteers' tariff act.

395,962 FORDS ARE DELIVERED IN U. S. IN FIRST QUARTER.

Sales of Ford Cars and Trucks in the United States alone for the first quarter of 1923 reached the enormous total of 395,962, the greatest sales record in the history of the Ford Motor Company for a similar period of months. This is an increase of 135 per cent over the same period last year when Ford retail deliveries totaled 168,500.

Even these stupendous figures do not indicate the number of sales which could have been made had production facilities been greater. Every month dealer requirements have been far in excess of the company's manufacturering ability. For May dealers' orders reached the enormous figure of 300,000 Ford Cars and Trucks.

While reservations now are being put on early predictions that this year would see 3,000,000 cars and trucks produced in the United States increasing demand for Ford products will, all indications are, keen production at capacity rate for the remainder of the year, bringing it well over the million and a half mark by January 1 next, maintaining the established Ford percentage of producing as many cars and trucks as all other manufacturers combined.

AMERICA'S TWELVE GREATEST WOMEN

The 12 greatest living American women, in the opinion of a special committee of the National League of Women Voters, which was appointed to select such a list was made in Washington on Saturday night. The women selected are:

Jane Addams, philanthropist.
Cecilia Beaux, painter.
Carrie Chapman Catt, politics.
Anna Botsford Comstock, natural history.
Minnie Maddern Fiske, stage.
Louise Homer, music.
Julia Lathrop, child welfare.
Florence Rena Sabin, anatomy.
M. Carey Thomas, education.
Martha Van Rensselaer, home economics.
Edith Wharton, literature.

In making public these names the committee declared it was "humanly impossible" to know who the really greatest women in the country were and that the selections had been made on the basis of those who had contributed most in their fields to the betterment of the world.

The selections were made, it was explained, at the request of Senorita Mandujano, a Chilean delegate to the Pan-American Conference of Women in Baltimore a year ago, who desired to write about the American Women for the women of South America.

THEFT FROM UNCLE LEADS TO ARREST

Constables Dunn and Jerkins took a trip over into Caroline on Wednesday and there arrested John and Walter McGinnes, wanted in this county to answer for a charge of theft made by their uncle, Lemuel McGinness, of Church Hill. It seems as though the two McGinness' stole from their uncle an automobile tire, a wheel, two horse collars, two bridles, some plow harness and lines. Both were committed to jail and subsequently were released on bail to await trial.—Record.

SEES NO DRUNKENNESS

The Hon. Thomas Walker, member of the legislative assembly for the Kanowna Constituency of the State of Western Australia, commissioned by the Australian Government to investigate the resullts of prohibition in the United States conferred with Federal Prohibition Commissioneer R. A. Haynes and stated that in traveling across the continent he had made it a point to talk with big employers of labor, all of whom pronounced prohibition a great economic success.

"My most interesting observation," said Mr. Walker, "has been on your streets, in your railway carriages and at public gatherings. I walked over much of the downtown district of Washington and I did not see a single drunken man. Who can say as much for London, Paris, Berlin or Rome? That there is liquor drinking in private is doubtless true, but in two generations this will have passed. Even now the dangerous quality of liquor being sold in America has caused many persons to stop drinking for fear they may be poisoned. I am much gratified with what I've seen and heard."

Here's a Car You'll Want to See! The Nash Six Coupe

Here's an admirably designed car for business and professional use or for the small family.

It enjoys all the advantage of being a year round car and yet it performs almost with the upkeep economy of an open model.

And though a three-passenger model there's room for a fourth person—the auxiliary seat disappearing neatly beneath the instrument board when not in use.

In beauty, in brilliant performance, and in enclosed car niceties of appointment you'll find this new Nash Coupe especially attractive.

The smartly low-swung body is the prize work of craftsmen known for their fine coach conceptions both here at home and abroad.

And Nash engineers have embodied in the chassis, the motor, and the carburetor new advances in design and construction that serve to set this car in a particular class of its own.

Our shipment is a small one. It may be some time before more reach us. So don't delay. Come in today.

Ask Any Nash Owner About Nash Service

If you want a clear picture of the service we render, ask any Nash owner.

There's no truer indication of prevailing satisfaction than the hearty endorsement he'll give us.

We, in turn, realize most fully that this owner-appreciation is the greatest asset we can gain.

And it is our rigid policy constantly to justify it through every service-benefit that men and money provide.
