HEARING NEXT MONDAY ON FISH-STAKE PETITION

Major F. C. Harrington, United States District Engineer, announces that a hearing will be given next Monday on the petition of Rock Hall fishermen to change the existing regulations governing the placing of fishnet stakes in the Chesapeake Bay between Sandy Point and Pooles Island. A board of officers will be convened for the purpose in Room 403 of the Custom House, Baltimore, at 10.30 a. m.

Fishermen at the head of the bay are reported to be strongly opposed to the application of the Kent county men, as they say granting permission to place stakes and nets as the petitioners desire will practically close the bay to the passage of fish beyond that point and will ruin the business around Havre de Grace and Perryville.

NEW CO. TO ADJUST ROUTES TO SHORE

Through the incorporation of the Baltimore and Eastern Shore Railroad by interest intimately connected with the Pennsylvania Railroad and by several Maryland capitalists, radical readjustment of present routes from Baltimore to Shore points is expected. Chief among these plans is believed to be abandonment of the Baltimore to Clairborne route by the railroad boat and concentration of the Shore business at Love Point.

In brief, the new company's route will run from Love Point to West Denton, with a spur at Queenstown to connect the line with Centreville. West Denton, to avoid the expense of maintaining the long trestle which connects those points, and Denton travelers will go around half a mile over the State roads bridge to the West Denton depot.

Further, it is expected that the new line will make connection at Queen Anne with the stretch to Easton, where, in turn, it will run onto the tracks of the Baltimore, Chesapeake and Atlantic and run generally eastward through Preston, Hurlock, Vienna, Salisbury and Berlin to Ocean City. A readjustment of grades will be necessary at Queen Anne, but this, it is said, will be easy to accomplish.

The distance from Love Point to West Denton is approximately 33 miles, and the spur from Queenstown to Centreville is 6 miles, making the length of the new Baltimore and Eastern Shore road about 40 miles. From Easton to Ocean City is 72 miles, and the connecting link from Queen Anne to Taston is very short

Including the boat trip of 27 miles from Baltimore to Love Point, the new route to Ocean City would be about 132 miles, or just about the same as the present run via Claiborne.

Should the steam railroad connection between Easton and Claiborne be abandoned, it is believed that gas railroad cars will be introduced for that stretch, to connect with the State ferry from Annapolis, in addition to the bus lines now running from Salisbury and intermediate points to the State ferry wharf.

ST. LOUIS CARDINALS PURCHASE FLOWERS

Darcy S. (Jake) Flowers, who is said to be the finest shortstop in the Eastern Shore League, has been sold to the St. Louis National League Club for $1,500 and a player who is to be either an infielder or a pitcher. In the event of the new player not proving satisfactory the local club is to receive an additional $500.

Flowers is to report to St. Louis at the close of the present season. Flowers first played ball as an infielder with Cambridge High School. After graduation he came to Washington College, where he made a brilliant record on the diamond, besides playing football and basketball.
