"STANDARD"

The Balanced Gasoline

Convincing proof:

In the face of the fact that the motoring public is more particular today, more people this season are using "Standard," the balanced gasoline, *than ever before.*

"Standard" is meeting the demand of a large majority of motorists for an all-round superior performance in gasoline—for uniform quality and that quality the finest wherever and whenever they buy it.

Stop at a "Standard" pump the next time—and every time. For complete satisfaction.

PROS AND CONS OF PURSE NET FISHING

The pros and cons of purse net fishing—a much mooted topic in these columns recently—is discussed in letters to Fishermen's Luck by two men who hold widely different sentiments.

One, a purse netter, defends the practice of hauling purse nets and declares that the amount of fish taken by purse netters is widely overdrawn while the other is an angler who maintains that purse netting should be abolished.

From Capt. Thomas F. Davis, of Rock Hall, Md., who takes exception to some of the statements recently made by one of a party of fishermen in Fishermen's Luck comes the following:

"To the Editor of Fishermen's Luck—

"In order that the public may get some true facts regarding purse-net fishing, I wish to contradict some of the statements made by a member of the fishing party composed of Mr. John H. Sellman, Mr. Ward H. Mills, and Mr. Sidney V. Mills, in Fisherman's Luck in The Sunday Sun of August 26th.

"At present there are eight boats purse-net fishing in the vicinity of Rock Hall and Tolchester. The entire eight boats have not caught over 40 tons of fish this season. So this makes the statement that 20 to 40 tons of fish caught in one day and made by one of the members of this party sound very absurd.

"We call these men greedy who make their living thus in an honest way is a little far-sighted. They fish six days in a week, thus abiding by the law, and take the Sabbath day for rest day. What kick should the sporting angler make when he has the entire bay at his disposal on the Sabbath day unmolested Who bothers him if he angles all seven days of the week,

"It would be just as reasonable for the Legislature to stop the farmer from raising and selling his cattle, hogs and produce as it would be to stop the purse-net fishermen from catching fish.

"This business is far from destructive, as only the larger ones are caught while the smaller ones remain in the water. I am a pure-net fisherman and am anxious that this be published."

Then, on the other hand, are the theories of H. Tiemian, secretary of the Sunny Beach Fishing Club, who declared that he expressed the consensus of opinion of the members of that organization in his letter on the subject.

To the editor of Fishermen's Luck he wrote:

"I have written to this column before condemning the wholesale murder of our game fish in our bay and its tributaries, and I would like to express my opinion again in regard to some of the facts.

"Our club, the Sunny Beach Fshing Club, would state that we are heartily in favor of the stand that the Anglers Club of Maryland is taking and we will do whatever this club will to advocate to abolish this murdering purse netting in our Bay, which kills the brood fish by the tons.

"We are also glad that this club has taken a stand that I advocated last year, and will cooperate with the actions of this club whatever steps they may take to introduce a bill in the Legislature to abolish this fishing and give the regular sportsman a chance to have some sport and to make an honest and fair living with his nets."

That the Legislature will have to solve the problem of the purse-net hauling, in the upper Bay at least, seems to be a foregone conclusion, and, with the advocators for and against it lining up, it looks like it is going to be no easy question to decide.

CHIROPRACTIC

NOT A NEW OR UNTRIED METHOD

Discovered in 1895 by D. D. Palmer of Davenport, Iowa, the Chiropractic has grown by leaps and bounds, until today there is scarcely a community of any size without a Chiropractor, and the good word of Chiropractic is being spread to every corner of the earth.

The fact that in the past 10 or 12 years the great majority of the States of the Union have given legal recognition to Chiropractic proves that Chiropractic is advancing on its merits alone.

Chiropractic is well known in the larger towns and cities, especially in the Western States. Numerous people in Kent county have tried Chiropractic in Baltimore, Wilmington and Philadelphia with good results but generally speaking Chiropractic is comparatively new in this section of the Shore.

Being a new method of healing and differing radically from all other methods naturally there is bound to be a great deal of scepticism regarding its curative value. To overcome this scepticism and to show and prove my confidence in the curative value of Chiropractic. I am willing to make this offer.

After analyzing your case if I find that I can help you, I will agree to take your case with the understanding that if you follow my instructions and take the adjustments for a sufficient length of time you will get well or your money will be refunded.

You have all to gain; nothing to lose. You cannot now afford to hesitate to try Chiropractic and regain your health. No charge for consultation.
