Narrow Escape from Drowning.—The minstrel company of Culhane, Chase and Weston which showed in Chestertown last Monday night had a narrow escape from drowning in trying to reach Easton.

They left Annapolis at 4 o'clock on Tuesday morning in a naptha launch for Claibourne, expecting to connect with the train which reaches Easton at 7.40 A. M. When a short distance out of the harbor the vessel for some reason came near swamping, and to save the lives of the company it had to be beached. They returned to Annapolis and took the train to Baltimore, but their baggage arrived too late to take the train or steamer to fill engagement at Easton.

Telephone Line Blocked.—It is said that the Diamond State Telephone Company has been balked in its efforts to tie the Peninsula towns together by long-distance telephones at moderate rates by the absolute refusal of the Salisbury people to dispose of their local line, for which they are said to have an exclusive charter. The situation will make it necessary for the Diamond State people to build around Wicomico county in order to get down the Peninsula. This move will prevent people of this State and Peninsula from conversing with the Salisburyites.

ANGELS WITH CUDS OF TOBACCO.

The Rev. Mr. H.——was a good man, but very fond of chewing tobacco.

One day he was caught in a shower in Illinois, and going to a cabin near by knocked at the door. A sharp looking old lady answered his summons. He asked for shelter.

"I don't know you," she replied, suspiciously.

"Remember the Scriptures," said the dominie, "Be not forgetful to entertain strangers, for *thereby some have entertained angels unaware.*"

"Angels don't come around with cuds of tobacco in their mouths," she replied and slammed the door in his face.

They Say.

That the chronic kicker deserves to stub his toe.

That it is easy to do right when sin ceases to be a pleasure.

That few men are so sympathetic as to feel sorry for their creditors.

That its easier to make a fool of a man than to make a man of a fool.

That the man with a clear conscience doesn't mind if people see through him.

That Eve was the first woman to complain that she didn't have anything to wear.

That even the people who have money to burn can't take it with them when they die.

That the man who has the greatest confidence in himself has the least in other people.

That fate is very old, and yet all of us are constantly piling upon her shoulders added burdens.

That we hear a lot about the self-made man, but we have to go to a dealer in cosmetics to learn about the self-made woman.

That the young man who tells his best girl she is the light of his life is usually the one who kicks about the gas bill after they are married.

September Forecasts.—In all probability a general storm disturbance, central the last two days of August, will still prevail in the middle and eastern parts of the country during the first day or two of September. The moon is full on August 29th; is on the celestial equator on the 30th, the central day of a Vulcan storm period, and in perigee on September 1st.

About the time of the moon's last quarter or extreme north declination on the 5th, reactionary disturbances will show themselves. The Mercury period is central on the 8th, extending its influence from the 1st to the 15th. At the same time the autumnal equinox, being central on the 22nd, covers the whole month with its perturbing influence. As we enter the regular storm period, central on the 10th, we may expect a very warm spell in most parts. From about Monday, the 9th, to Friday, the 13th, barometic readings will become disturbed, and dangerously low depressions will admonish of possible violence. Storms of this period are apt to reach a crisis on and touching the 10th, 11th and 12th. Tidal waves in the gulf and around the coasts will be abnormally high and fierce about the 12th and 13th.

The reactionary storm period, central about the 16 and 17th will bring perceptible changes to storm conditions—changes to warmer, falling barometer, growing cloudiness and precipitation, but more general and energetic disturbances are almost certain to result during the Vulcan Storm Period on the 22nd, coincident with the center of the earth's autumnal equinox. Ordinarily about Saturday, the 21st, to Tuesday, the 24th, would be the danger days of this period but we figure that equatorial, or West India storms will be more probable and violent from about the 26th to 30th. During these last days the moon is on the equator on the 26th, full on the 28, and in perige on the 39th. Tidal waves will rise to a maximum in many parts of the earth during this period, central on the 28th and 29th.

Pennsylvania Railroad's Special Excursions to Pan-American Exposition.

The Pennsylvania Railroad Company will run special excursions to Buffalo on account of the Pan-American Exposition, from Philadelphia and adjoining territory, on September 5, 11, 17 and 26. Round-trip tickets good going only on special train leaving Philadelphia at 8.44 A. m., and good for passage to Philadelphia by any train on day preceeding date of excursion from that city, and good to return within seven days, including date of excursion from Philadelphia, will be sold at a rate of $10.80 from stations on Delaware Division. Those tickets will not be good in Pullman parlor or sleeping cars in either direction. Stop of 30 minutes will be made at Williamsport for luncheon. For additional information consult local ticket agents.
