Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

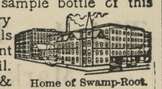

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

A PHILADELPHIAN ON THE MISUSE OF THE LITTLE WORD "FUNNY."

Mr. H. P. Ford, a Philadelphian, and graduate of Washington College, who takes an artistic interest in Philology, has this to say on the use of the word "Funny":—

Perhaps no word in our language is more frequently misused than "funny." To many persons almost everything that happens is "funny," and yet there are but few words that have so many synonyms which one who considers the proprieties of speech would prefer to use. Here are some of the many words which, in their proper connection, should be used instead of "funny":—

Amusing, anomalous, abnormal, comical, crochet, curious, droll, eccentric, erratic, exceptional, extraordinary, fantastic, grotesque, irregular, laughable, ludicrous, marvellous, nondescript, odd, outlandish, peculiar, preposterous, quaint, rare, remarkable, ridiculous, singular, strange, uncommon, unparallelled, unprecedented, unique, unusual, whimsical, wonderful.

A few illustrations may serve to show the abuse of the word: To have two thumbs on one hand is not "funny" but abnormal; one who insists on wearing his hair very long is not "funny" but eccentric; one who is changeable in his disposition, doing to-day what he would not do yesterday, is not "funny" but erratic; one who follows his individual opinions in opposition to prevailing customs is not "funny" but peculiar; for a cat to make a companion of a rat is not "funny" but unnatural; to be able to give correct answers to complex problems, without going through minute calculations, is not "funny" but exceptional, extraordinary; that message may be sent with the speed of thought is not "funny" but marvellous; for a Northern winter to be free from very cold weather is not "funny" but uncommon, unusual; for strong men to be lost and a babe alone to be saved from a wreck is not "funny" but remarkable; for the planets to revolve in their orbits is not "funny" but wonderful; when a dear old lady clings to customs of the long ago, she is not "funny" but quaint; should two fortunes be willed to a person in one day, it would not be a 'funny" but a singular coincidence. But enough has been said to set forth the gross misuse of this word.

Perhaps the following, quoted from Fernald's "English Synonyms" may prove instructive in this connection, as showing the correct use of some of the synonyms mentioned aboye:—

"Odd' is unmated, as an odd shoe, and so uneven, as an odd number. 'Singular' is alone of its kind; as, the singular number. What is singular is odd, but what is odd may not be singular; as, a drawer full of odd gloves. A 'strange' thing is something hitherto unknown in fact or in cause. A singular coincidence is one the happening of which is unusual; a strange coincidence is one the cause of which is hard to explain. That which is 'peculiar people.' i. e., especially chosen his own; as, Israel was called Jehovah's 'peculiar people,' i. e., especially chosen and cherished by Him. In its ordinary use there is the implication that the thing peculiar to one is not common to the majority nor quite approved by them, though it may be shared by many; as, the Shakers are 'peculiar.' 'Eccentric' is off or aside from the centre, and so off or aside from the ordinary and what is considered the normal course; as, genious is commonly eccentric. 'Eccentric' is a higher and more respectful word than odd or queer. 'Erratic' signifies wandering, a stronger and more censorious term than eccentric. 'Queer' is transverse or oblique, aside from the common in a way that is comical or perhaps slightly ridiculous. 'Quaint' denotes that which is pleasingly odd and fanciful, often with something of the antique; as, the quaint architecture of mediaeval towns. That which is 'funny' is calculated to provoke laughter; that which is 'droll' is more quietly amusing. That which is 'grotesque' in the material sense is irregular or misshapen in form or outline or ill-proportioned so as to be somewhat 'ridiculous.'"

Let us in the future hear less frequently the expression, "How funny!"

Best Fish Story of the Season.

Maryland sufferers from rheumatism who have tried the bee sting cure for their ailments without beneficial results may be interested in another remedy which is said to have been used successfully in the West. A man who had been afflicted with rheumatism many years and was, according to his own account, in a most distressing condition, experienced instant relief, if he tells the truth, from a fishing expedition. This man, who had swallowed barrels of medicine and perhaps also tried to argue himself into the belief that his sufferings existed only in his imagination, went fishing recently. He hooked a big and powerful bass, had an exciting struggle before he landed the fish, and found, to his inexpressible joy, that his malady disappeared the moment the fish was in his basket. While his reasoning does not seem to be conclusive, he is convinced that any victim of rheumatism can be healed if he will tackle the right sort of bass. He points with pride to his own freedom from suffering as an unanswerable argument in favor of the fish cure. There are people who are skeptical even about the value of the bee-sting remedy. No doubt they will laugh derisively at the idea that there was any connection between the disappearance of the Western man's rheumatic pains and the advent, at the end of a fishing line, of a bass of noble proportions. These skeptics never stop to consider what a powerful factor in the world's affairs is simple, unquestioning faith. On general principles, it must be admitted, the Western man's story seems to be the product of a fisherman's imagination, and fishermen, as everybody knows, are reputed to be very skillful manipulators to the truth. But when a person makes affidavit that he is sound in body after years of torture, and that his deliverance from bodily anguish occurred simultaneously with his capture of a big fish, what are the unbelievers going to do about it? It seem preposterous, of course, that the bass should possess healing powers. People have been fishing for thousands of years and nobody ever reported that he had caught a fish which could banish disease and make the sick well. If it be true that the western man has discovered a species of the finny tribe that can cure which physicians have given up in despair, it was his duty to suffering humanity to inform the world of his discovery. It is now in order for him to furnish exact specifications as to the nature of this wonder-working. Perhaps the Western man's bass was the only one of the kind in existence. That is frequently the case in other discoveries of a similar nature. If there be any more healing fish left, and the Western man will indicate where they are to be found, it is safe to say that many thousands of sufferers will immediately go a-fishing. The bee-sting cure may be all right. Beehives are so plentiful, however, that people can always avail themselves of the remedy when other measures fail. It is more agreeable to angle for bass than to invite the wrath of a swarm of bees properly equipped with the antitoxin of rheumatism.

TOTAL ECLIPSE OF THE MOON.

A total eclipse of the Moon takes place at midnight Thursday the 16th of October and is visible in the State of Maryland The eclipse from beginning to end will last more than two hours, totality occuring at 1.10 o'clock Friday morning. Such phenomena never grow common or uninteresting, except to sleepy quadrupeds, fowls and reptiles, and even they show symptoms of enthusiasm, fear and wonder when eclipses are prolonged and pronounced. Eclipses of the Moon are just as interesting without a telescope as with it. Unlike an eclipse of the Sun, in which event the solid orb of the Moon passes between us and the Sun, the Moon only plunges through the long, tapering shadow of the Earth, and the thin shadow is largely dissipated in the telescope by the refracted light on the Moon's face. If the night is clear on the 16th the sight will be most interesting as the moon is full at the hour the eclipse takes place.

Quit Throwing.—While several boys were returning from Worton school last Thursday Arrie Younger threw a stone which struck Willie Garrett in the eye. Dr. Hessey treated the wound which was quite serious. We are glad to report that the lad's eye will be saved; this should prove a warning to boys

ALL DOCTORS FAILED.

It is in the province of men to live in good health and fine spirits from youth all the way to old age. All they need is the system and blood cleansed occasionally. Very many aged people bear witness that Victor Liver Syrup not only preserves and prolongs life, but makes the old feel young. Also it has cured cases already given up by the best medical talent. Says T. I. Markin, Montpelier, Ind., "Your Victor Liver Syrup restored my son to health, when all Doctors failed." Call upon your Druggist for it.
