SPEND $30,000,000 ON TURF.

Americans Fond of Racing—$2,5000,000 Made by New York Tracks.

It costs the votaries of the turf $30,000,000 to witness horse racing in America each year, more than half as much as was voted by Congress for the prosecution of the war with Spain, says the New York World. This vast amount comes out of the pockets of the public that it may witness a lot of thoroughbreds chase one another around the various tracks of the country in contests of speed.

In New York alone nearly $3,500,000 is spent during the racing season, from April 15 to November 15, to maintain the six racing associations that deal in the "sport of kings."

To own a racetrack at the present time is better and more profitable than to have a diamond mine.

The different racing associations in New York are becoming enormously wealthy. They are required to pay into the State Treasury a tax of 5 per cent. on the receipts. The revenue is so great, however, they hardly notice this.

Each association pays its stockholders 10 per cent. on their holdings. Twenty and 25 per cent. could easily be paid from the amount cleared at each meeting, but the directors of each club think it advisable not to declare too big a dividend, and the surplus is invested in gilt-edge securities.

This season has been an exceptionally profitable one, and the six associations in New York will clear nearly $2,5000,000. The other $1,000,000 derived from various sources is used to defray the expenses of running the meetings.

An idea of the money made by the associations may he had by an examination of the appended table. The amounts are approximated on an estimated basis of the money handled last season.

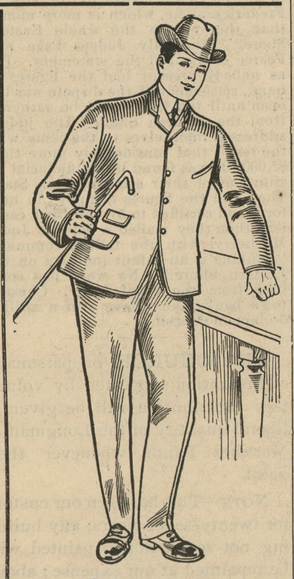

One hundred and eighty days' racing, divided among six associations, with an average attendance of 8,000 a day, at $2 per head	$2,880,000
The telegraph privileges for six meetings, at $1,500 for six meetings, at $1,500 for each meeting	9,000
Revenue from the restaurant, bar, etc., at $4,000 for each meeting	24,000
Daily income from "layers," estimated at 100 on the line—a low figure—$25 per day, 180 days in all	450,000
Total	$3,363,000
Cost of running the tracks daily (salaries of officials added money to starters, taxes, etc.)—$5,000 per day (180 days)	900,000
Total net income (less 5 per cent State tax)	$2,463,000
