

There have been times when the wild beasts have been more merciful than human beings, and spared the woman cast to them in the arena. It is astonishing how little sympathy women have for women. In the home the mistress sees the maid with the signs of suffering she recognizes so well, but she does not lighten the sick girl's load by a touch of her finger. In the store the forewoman sees the pallor and exhaustion which mark womanly weakness, but allows nothing for them. It is work or quit.

$500 REWARD FOR WOMEN

WHO CANNOT BE CURED.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay $500 in legal money of the United States, for any case of Leucorrhea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

They have the most remarkable record of cures made by this world-famed remedy ever placed to the credit of any preparation especially designed for the cure of woman's peculiar ailments.

Dr. Pierce's Pleasant Pellets are the most desirable laxative for delicate women.

Thousands Have Kidney Trouble and Don't Know it.

How To Find Out.

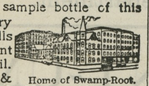

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of **Swamp-Root** is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Home of Swamp-Root.

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

THEDFORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. Thedford's Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by Thedford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than Thedford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901. I have used Thedford's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.

HOW WAGE-EARNERS LIVE

Pay Of Workers Advanced, But Cost Of Living Still More—Sweating Evil—Oyster Industry Declining.

The report of the Maryland Bureau of Industrial Statistics and Information, of which Mr. Thomas A. Smith is chief and Mr. Jacob G. Schonfarber assistant, for the last year has been submitted to the Governor.

Cost Of Living.

In discussing the cost of living there are figures to show that while wages in some branches of industry have increased the increase has not been sufficient to cover the advance in the cost of living. The reports says:

"Let the reader compare the prices and it will readily be seen that even with an increase of wage-earning power of 10 per cent., if such be claimed, the great mass of consumers are much worse off and have a harder time to make ends meet than they had 10 or 12 years ago, when food products could be bought for at least 35 per cent. less than today in medium grade goods only. Perhaps the difference in the best quality food products will average for any table at least 50 per cent. more than 10 years ago."

The discussion includes interviews with heads of families showing their incomes and expenditures. These will be of great interest to those who are curious to know "how the other half lives." Here are some extracts:

"Man of 29, working as boxmaker in factory—family of four children, the eldest being in the public school. Worked every day in the year except Sundays. Total earnings of husband, $364. Wife earned $40 by sewing for neighbors. Living in four rooms, for which they pay $96 yearly rent. Fuel cost them about $20, and $5 a week was the maximum allowance for all kinds of food supply. The clothing allowance for the entire family was but $32, while miscellaneous expenditures, which included some little insurance on the children, amounted to little over $40. This brought the family in debt at the end of the 12 months, and the wife said she did not know how the deficit was to be met.

An Artist's Income.

"The next home visited was that of an artist, a man whose brush and nimble fingers decorates chira for one of the leading houses of Baltimore. There were four daughters of this household, the eldest being 18 years of age. Two of the children were at work, and the total income from which all the creature comforts of the family of six must be supplied was $584. Out of this sum the landlord received $120 for the rent of a six-room house, while the dealer in coal and wood exacted a tribute of $30 for the wherewith to keep warm and cook the family food. Only $65 could be accounted for as expended for clothing for the entire family, and the wife was allowed $6 a week with which to run the family table. Six weeks of involuntary idleness of the breadwinner curtailed the income somewhat, and the illness of the mother and two of the children added to the burden of expenses. This family did not come out even at the end of the 12 months in question, but found themselves indebted to the doctor and grocer in the sum of $30. "We mean to pay our way in the world," said the honest and industrious housewife, "but we find it hard to do so and pay trust prices for all we have to eat and wear. My girls are good girls and do not complain. But the sum of $65 (the amount named as expended for clothing) will not dress two young ladies, myself and husband and the two younger school girls as well as people ought to be dressed who are industrious and work every day when there is work to be had. My husband does not drink, and we mean to pay our debts, and will do so if we are spared. But these are bad times for such as we."

A Salesman's Struggles.

"A salesman in a retail clothing store, with an income of $10 a week and a family of four children and a dependent mother, said he was able to live in Baltimore and keep his family in the necessary comforts of life on that amount of income. His rent was $12 a month, and it costs him $22 for fuel and $65 for clothing for the year. His frugal wife kept the table supplied with such food as was needed with a little more than $4 a week and managed to meet other expenses with the balance of the $520. There was no deficit, nor was there any surplus. When asked about the coming time and the provision she was making for the day of idleness or old age and sickness the wife replied: 'We will cross that bridge when we come to it. We can only hope for the best. One thing is certain: no one can save any money on $10 a week and pay present prices for the things which are essential for the support of a family of seven. It is nonsense to talk of doing so.'

Throughout the State there were in 1902 29 strikes, in which 3,984 persons were involved. Of these 17 were successful or partially so.

Oyster Industry.

The report on the oyster industry shows that there are employed in it in Maryland 31,543 persons and 7,874 vessels and boats, and that $5,818,000 is invested in it. In the past year the number of bushels of oysters used in the city of Baltimore was 2,887,000, the smallest quantity since the beginning of the industry. A few years ago the quantity annually used was generally six or seven million bushels. This shows that Baltimore is losing a great industry for lack of intelligent legislation. The quantity used in the State outside the city was a million bushels.

Many details are given of the canning industry. Baltimore made in 1902 375,000,000 cans and the State packed fruit and vegetables to the amount of 13,123,122 dozen cans. The peach supply was not half the normal receipt.

Among the other features is an interesting table showing the companies chartered in the State during the year. Of these there were no fewer than 529, with an aggregate capitalization of $27,704,000.

CASTORIA.

Bears the Signature of *Chas. H. Fletcher* The Kind You Have Always Bought

There Is No Guess Work About It.

HUBBARD'S FERTILIZERS

Must have superior quality and absolute uniformity and purity. This spring makes their Fifty-Third Season in business and trade increased each year in spite of competition.

For Asparagus.

We have an article that has given more satisfaction as a feeder for this plant than any thing on the market. Such men as Jas. Bell, Jno. P. Nicholson, H. H. Klinefelter, Irving Walker, Albert Story, C. H. Crew and scores of others use it year after year.

For Potatoes.

Use our High Grade Potatoe Manure. We have orders now for nearly $10,000 worth of this goods. It has been used in trucking regions for over 20 years along side the highest grade goods in the country. Mr. Samuel L Wright used it last year and everybody who saw his potatoes say they were the finest grown in this section.

For Oats,
For Top Dressing Your Grass,
For Peach Trees,

we have it; and will give you an alright goods and at an alright price.

For Tomatoes.

Oh yes, there are your Tomatoes, last but not least. Well, you have heard of Our Peerless Tomato Phosphate and it is a wonder. One patron says he got $96.00 more from the cannery man from Tomatoes grown with a ton of Peerless than from another ton $18.00 goods. Mr. Z. T. Gilbert on one occasion grew 19 tons per acre with it. Captain Emory on one occasion grew 17 tons per acre. Mr. J. W Elburn says, take it all around, Peerless is the best goods he ever used in his life. We could give you hundreds of references from four States about this goods and it you are going to grow Tomatoes see us before placing your order.

For Corn.

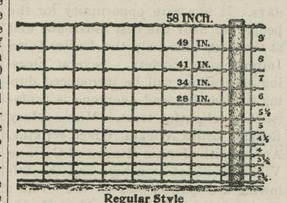

This is the year to phosphate your corn and we have a splendid goods for this purpose. Everybody who bought last year says it did splendidly. It will not cost much per acre and would pay in fodder alone.
