CORN sold for 54½ cents in city yesterday.

JUDGE PARKER, the defeated Democratic Presidential candidate has removed to New York and opened an office for the practice of law.

THE late election in Maryland resulted in the election of seven Democratic electors and one Republican. T. Herbert Shriver, Dem., was defeated. A cartoon in the News pictures ex-Gov. Frank Brown and Charles P. Bonaparte as enjoying the fact that "they saw us first!"

The charge that Congressman Jackson has been defrauded out of an election is false. The truth is, that he did not get enough votes to elect him, and if he is seated by a Republican House he will occupy a seat which rightfully belongs to Hon. Thomas A. Smith, who made a clean honest fight and won by the votes of the intelligent electorate of the Eastern Shore.

Reasons for the Result.

Yes, it was a great surprise. It was even more than a surprise, for we had hoped for a closer fight, especially when Parker was backed by the silver and gold men. But it is evident that most of the gold men who left the party in 1896 did not come back, while many silver men either voted for Roosevelt or for someone else.

At no period of the campaign has there seemed to be a hope of electing Parker against such odds, but we thought surely he would carry New York and Missouri! The greatest and primary reason for the result was the prevailing business prosperity and the extraordinary success which has attended the agricultural population. People had an idea that things were going well with country and that there was no need for a change. This condition together with unlimited cash from Trusts, railroads and large corporations, the army of office-holders and pensioners, the army and navy and the prestige of having won twice, made Roosevelt's election doubly sure.

Judge Parker was a grand candidate and a noble Democrat but lacked the force and strenuousness of Bryan, Watson and Roosevelt. Judge Parker says the Democratic party has a great mission in the future. Before long people will realize that tariff-fed trusts and illegal combination are absorbing the wealth of the nation. They will, he says, throw off these leeches, but the Republican party will not aid them to do it for its leaders appreciate too well the uses to which moneys of trust can be put in political campaigns.

When that time comes the people will turn to the Democrats for relief and the party should be ready with an organization of patriotic citizens covering every election district to work for the cause.

We must also show people of the way a vicious tariff works. In conclusion the Judge says the greatest moral question now confronting the people is: "Shall the trusts and corporations be prevented from contributing money to the control or to aid in controlling elections."

Col. Bryan who did noble work for the ticket says Parker was the victim of unfavorable conditions and a mistaken party policy. The result is due to the fact that the Democratic party attempted to be conservative in the presence of conditions which demand radical remedies. It sounded a partial retreat when it should have ordered a charge along the line.

The Democratic party has nothing to gain by catering to organized and predatory wealth. It must invite an open and emphatic opposition to those elements. The party if desirous of winning success must take the side of the plain, common people.

He insists that honest, well meaning Democrats, who a few months ago favored the reorganization of the party now see they must either go with the Republicans, or join the Democrats of the West and South in making a Democratic party a positive, aggressive and progressive reform organization. There is no middle ground.

Weather Forecast.—Hicks predicted the storm of Sunday and says, on and touching the 19th and 20th there will be a reactionary swing of the elements back to more general and decided storm conditions. Depressed barometric conditions will appear, the temperature will rise progressively from the west, and autumnal storms of rain and snow will take up their tradition march from west to east over the country, all followed by return of the rising barometer and change to much colder. The last regular general storm period for November is from the 24th to the 29th. The increasing force of this period will be severely felt from about Friday, the 25th to Monday the 28th. But marked storm conditions will appear about the time of the full moon on the 22nd. Upon the whole, we warn our readers of very general and forceful storms during the last six or eight days of November. In every probability a November cold wave will spread over much of the country, bringing frosts even into the southern States, during the last days of the month.
