RAY PEACH.

A Special New Variety—That has been thoroughly tested.

Ray—This peach is of the Chinese strain, a remarkable grower, so much of it is noticeable in the nursery from other varieties. It ripens just after Troth's Early; size of Belle of Georgia or Moore's Favorite; white flesh with red blush; a shipper. The original tree has borne 16 successive crops without a single miss, and the small orchard of 264 trees, budded from same tree, 7years old, has borne 4 successive crops that have netted over ($2,200) twenty-two hundred dollars. We have the exclusive stock of this variety, the first that has ever been offered, which we furnish at double price of regular variety of peach.

ITS MERIT IS PROVED

RECORD OF A GREAT MEDICINE

A Prominent Cincinnati Woman Tells How Lydia E. Pinkham's Vegetable Compound Completely Cured Her.

The great good Lydia E. Pinkham's Vegetable Compound is doing among the women of America is attracting the attention of many of our leading scientists, and thinking people generally.

The following letter is only one of many thousands which are on file in the Pinkham office, and go to prove beyond question that Lydia E. Pinkham's Vegetable Compound must be a remedy of great merit, otherwise it could not produce such marvelous results among sick and ailing women.

Dear Mrs. Pinkham:—

"About nine months ago I was a great sufferer with womb trouble, which caused me severe pain extreme nervousness and frequent headaches, from which the doctor failed to relieve me. I tried Lydia E. Pinkham's Vegetable Compound, and within a short time felt better, and after taking five bottles of it I was entirely cured. I therefore heartily recommend your Compound as a splendid uterine tonic. It makes the monthly periods regular and without pain; and what a blessing it is to find such a remedy after so many doctors fail to help you. I am pleased to recommend it to all suffering women."—Mrs. Sara Wilson, 31 East 3d Street, Cincinnati, Ohio.

If you have suppressed or painful menstruation, weakness of the stomach, indigestion, bloating, leucorrhœa, flooding, nervous prostration, dizziness, faintness, "don't-care" and "want-to-be-left-alone" feeling, excitability, backache or the blues, these are sure indications of female weakness, some derangement of the uterus or ovarian trouble. In such cases there is one tried and true remedy—Lydia E. Pinkham's Vegetable Compound.

The Holiness congregation are holding a series of meetings in the Town Hall. Each evening they had a large and attentive congregation. Brother Woed brings out many good points and his sermons are very enlightening.

ROBERT L. W. RASIN DEAD

Founded Fertilizer Firm—Was An Expert In Chemistry And Widely Known—Only Brother Of Mr. I. Freeman Rasin.

Mr. Robert W. L. Rasin, only brother of Mr. I. Freeman Rasin, died Saturday afternoon at 4 o'clock at his home, 2402 St. Paul street, Baltimore.

Most of Mr. Rasin's life was spent in conducting the fertilizer industry, and for many years he has been known as an expert chemist in that line of work. He was born at Coursey Point, Queen Anne's county, Md., October 27, 1836, and was the son of Robert W. and Mary Ringgold Rasin. When a boy he entered Loyola College, where he developed his first taste for chemistry. He was a diligent student in other branches, and the degree of doctor of philosophy was conferred upon him.

Leaving school he associated with the Philadelphia Guano Company, and later was employed in the management of the Sombrero Guano Company. His knowledge of chemistry and renown as an expert in the manufacture of fertilizers soon spread, and he was next given the position of general manager of the Navassa Phosphate Company. A few years later he formed the Rasin Fertilizer Company, of which he became the head. The interests of the company entended to all parts of the country, and agencies and connections were soon established in Europe and South America. When this firm, a few years ago, was merged into the Rasin-Monumental Company Mr. Rasin retired from active management.

During much of Mr. Rasin's life he made his home on his farm, in Kent county. The estate is known as Old Field Point, and is on a pretty bend in the Sassafras river. The site, it is said, was once the camping ground of a tribe of Indians. The Rasin family is among the oldest in Kent and Queen Anne's counties. Mr. Rasin's ancestors came from France in the seventeenth century. The Ringgolds, his mother's family, have also been long established.

Mr. Rasin had a wide acquaintance among business men all over the United States and many close friends. He was treasurer of the Maryland Horticultural Society, president of the Chemical Fertilizing Association and vice-president of the Palmetto Phosphate Company. He was a trustee of St. Mary's Industrial School, and at times was active in the administration of other instructions of the kind.

Mr. Rasin's first wife died several years ago. His second wife was Mrs. A. S. Ruth, who survives him, with the following children, all by the first wife: Mrs. Thomas A. Godey, Mrs. Sidney Ashbridge, Mrs. William R. Cole, all of Baltimore; Mrs. Andrew D. McKenna, of Philadelphia, and Dr. R. C. Rasin.
