AN EVARTS FEE.

Showing How It May Sometimes Pay to Be a Poor Writer.

Not many lawyers write legibly, and the late William M. Evarts wrote such an execrable hand that it was very often difficult to read it. This caused a mistake at one time which resulted in the eminent lawyer receiving a retainer for ten times the amount he requested. The late William Allen Butler, an eminent member of the New York bar, was counsel for one of the legatees in the celebrated Stokes will case years ago, in which the late Dr. Henry P. Stearns was one of the expert witnesses. Something like $15,000,000 was involved, and Mr. Butler told his client that he would like an associate in the conduct of the case. He was asked whom he would suggest, and he said he thought Mr. Evarts would be the best man owing to his superior knowledge of the law and his great reputation as an advocate. The client agreed, and Mr. Butler was instructed to see if Mr. Evarts would come into the case.

Accordingly Mr. Butler wrote to Mr. Evarts and invited him to be associated in the case and name his retaining fee. In due time he received a reply, which he saw at a glance was in the affirmative and, without stopping to read it further, slipped it into another envelope and mailed it to his client. In a day or two he received a call from Mr. Evarts, who inquired what sort of a man his brother lawyer's client was.

"Didn't you hear from him after I sent your letter to him?" queried Mr. Butler.

"Yes," replied Mr. Evarts, "but he sent me a check for $25,000, and I only asked him for $2,500."

It was apparent that Mr. Evarts' chirography misled the client. This is the story as told by a lawyer who was familiar with the facts, but it is not known whether Mr. Evarts returned the difference of $22,500 or whether he worked it out.—Hartford Courant.

THE KALLIMA BUTTERFLY.

An Insect That Perfectly Imitates a Dead Tree Leaf.

A moth usually rests with his fore wings outspread over the prominent pattern of his hind wings, says Waldemar B. Kaempffert in the Booklovers Magazine. In any other posture he would inevitably meet a swift death. A butterfly, on the contrary, rests usually with his wings uplifted and pressed together. Otherwise, the gaudy upper surface would be as conspicuous as the black ink on this white paper—a signal for attack by relentless and voracious foes. In order to hide himself the butterfly has, therefore, lavished all the resources of his imitative art on the under surface of his wings. By far the most astonishing instance of this kind is afforded by the East Indian Kallima butterfly, the blue upper surface of which is richly and ostentatiously adorned with a stripe of orange, but the under surface of which bears a truly staggering likeness to a leaf, when the wings are drawn together. Here we have an insect that apes not merely the approximate shape and color of a dead leaf, but also the midrib with the delicate veining, the sharp point, and the short stem common to many tropical leaves.

It might be supposed that this imitation of an ordinary object is sufficiently minute to protect the Kallima from its enemies. Self preservation apparently demands not merely a dead leaf simulated, but in touches even more exquisite, for the resemblance has been so craftily carried out that the lighter colored varieties, a dead, shriveled leaf flecked with parasitic growths, stained and spotted to give the appearance of holes eaten by caterpillars.

How Owls Catch Chickens.

When I was a chunk of a boy I shot a horned owl, the spread of whose wings was four and one-half feet, and, to the surprise of the boy who had carried it for several miles, the weight was only four pounds. They were rather numerous at that time in that section of the country and were troublesome about carrying off chickens, which mostly roosted in apple trees about the farm buildings. The belief that they could carry away full grown hens was a common one. It was also commonly believed that an owl never picked a chicken off the roost, but, alighting on the limb, crowded the chicken off and as it flew toward the ground caught it on the wing.—Forest and Stream.

Bacon and the Fishers.

In "Aubrey's Lives" this quaint story is told of Lord Bacon: "His lordship, being in the garden looking on fishers as they were throwing their netts, asked them what they would take for their catch. They answered so much. His lordship would offer them not more, but so much. They drew up their nett, and in it were only two or three little fishes. He then told them it had been better for them to have taken his offer. They replied they hoped for a better draft, but, said his lordship, 'Hope is a good breakfast, but an ill supper.'"

A Paper House.

"Only think," exclaimed Fenderson, "of the many uses to which paper is now put!"

"I know," replid Bass. "I was at the theater the other night, and I was told it was all paper, and it was a fine, substantial looking structure too."

The Hole In the Roof.

No man is belittled by having a decent roof over his head, and no bishop is made a saint by living in a hovel.—From "The Bishop's Niece," by George H. Picard.

It is really the errors of a man that make him lovable.—Goethe.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

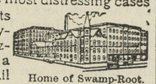

If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Enclosed with every bottle is a Ten Cent package of Grove's Black Root Liver Pills.

DRIFTING TOWARDS BRIGHT'S DISEASE

Many people who are neglecting symptoms of kidney trouble, hoping "it will wear away," are drifting towards Bright's Disease, which is kidney trouble in one of its worst forms.

FOLEY'S KIDNEY CURE

stops irregularities, strengthens the urinary organs and builds up the worn-out tissues of the kidneys so they will perform their functions properly. Healthy kidneys strain out the impurities from the blood as it passes through them. Diseased kidneys do not, and the poisonous waste matter is carried by the circulation to every part of the body, causing dizziness, backache, stomach trouble, sluggish liver, irregular heart action, etc.

If you have any signs of Kidney or Bladder Trouble commence taking FOLEY'S KIDNEY CURE at once, as it will cure a slight disorder in a few days and prevent a fatal malady. It is pleasant to take and benefits the whole system.

How to Find Out.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased, and FOLEY'S KIDNEY CURE should be taken at once.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes:

"About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble."

Two Sizes, 50 Cents and $1.00.
