Is it right?

Is it right that a property-owner should lose $4.20 to let a dealer make 50 cents? A dealer makes 50 cents more on fourteen gallons of ready-for-use paint, at $1.50 per gallon, than our agent does on eight gallons of L. & M. paint and six gallons of linseed oil, which make fourteen gallons of the best paint in the world, at $1.20 per gallon; the property-owner loses just $4.20. Is it right?

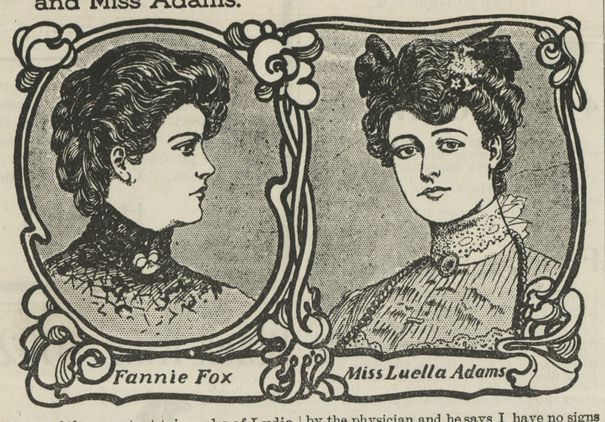

It only requires 4 gallons of L. & M. and 3 gallons linseed oil to paint a moderate sized house.

Ten Thousand Churches painted with Longman & Martinez L. & M. Paint. Liberal quantity given to churches when bought from Smith & Graham, Chestertown; F. H. Harper & Son, Still Pond; J. W. Ivens, Worton; Clements & Co., Crumpton, Md.

PHYSICIANS recommend "Pepsimint," a new granular, effervescent remedy for Indigestion, Dyspepsia, Headache, and Mental Exhaustion. Guaranteed harmless. Pleasant to take. 10 pua 25

Tumors Conquered Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, Tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive menstruation accompanied by unusual pain extending from the ovaries down the groin and thighs.

If you have mysterious pains, if there are indications of inflammation ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound right away and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:— (First Letter.)

"In looking over your book I see that your medicine cures Tumor of the Uterus. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."—Fannie D. Fox, 7 Chestnut St., Bradford, Pa.

Dear Mrs. Pinkham:— (Second Letter.)

"I take the liberty to congratulate you on the success I have had with your wonderful medicine.

"Eighteen months ago my monthlies stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor on the uterus and would have to undergo an operation.

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined by the physician and he says I have no signs of a tumor now. It has also brought my monthlies around once more; and I am entirely well. I shall never be without a bottle of Lydia Pinkham's Vegetable Compound in the house."—Fannie D. Fox, Bradford, Pa.

Another Case of Tumor Cured by Lydia E. Pinkham's Vegetable Compound.

Dear Mrs. Pinkham:—

"About three years ago I had intense pain in my stomach, with cramps and raging headaches. The doctor prescribed for me, but finding that I did not get any better he examined me and, to my surprise, declared I had a tumor in the uterus.

"I felt sure that it meant my death warrant, and was very disheartened. I spent hundreds of dollars in doctoring, but the tumor kept growing, till the doctor said that nothing but an operation would save me. Fortunately I corresponded with my aunt in the New England States, who advised me to try Lydia E. Pinkham's Vegetable Compound before submitting to an operation, and I at once started taking a regular treatment, finding to my great relief that my general health began to improve, and after three months I noticed that the tumor had reduced in size. I kept on taking the Compound, and in ten months it had entirely disappeared without an operation, and using no medicine but Lydia E. Pinkham's Vegetable Compound, and words fail to express how grateful I am for the good it has done me."—Miss Luella Adams, Colonnade Hotel, Seattle, Wash.

Such unquestionable testimony proves the value of Lydia E. Pinkham's Vegetable Compound, and should give confidence and hope to every sick woman.

Mrs. Pinkham invites all ailing women to write to her at Lynn, Mass., for advice.

BOOKER T. WASHINGTON AND THE NEGRO

BY THOMAS DIXON, JR

have educated the negro?" I asked timidly.

"Let the future take care of itself!" the ostrich man snorted. "We live in the present. What's the use to worry about hell? If I can scramble through this world successfully I'll take my chances with the hell problem!"

My friend forgets that this was precisely the line of argument of our fathers over the question of negro slavery. When the constructive statesmen of Virginia (called pessimists and infidels in their day) foresaw the coming baptism of fire and blood ('61 to 65) over the negro slave, they attempted to destroy the slave trade and abolish slavery. My friend can find his very words in the answer of their opponents, "Let the future take care of itself! The slaves are here and here to stay. Greater evils await their freedom. We need their labor. Let the question alone. There is no danger in it unless you stir it."

The truth which is gradually forcing itself upon thoughtful students of our national life is that no scheme of education or religion can solve the race problem, and that Mr. Booker T. Washington's plan, however high and noble, can only intensify its difficulties.

This conviction is based on a few big fundamental facts, which no pooh-poohing, ostrich-dodging, weak-minded philanthropy or political rant can obscure.

The first one is that no amount of education of any kind, industrial, classical or religious, can make a negro a white man or bridge the chasm of the centuries which separate him from the white man in the evolution of human civilization.

Expressed even in the most brutal terms of Anglo-Saxon superiority there is here an irreducible fact. It is possibly true, as the negro, Professor Kelly Miller, claims, that the Anglo-Saxon is "the most arrogant and rapacious, the most exclusive and intolerant race in history." Even so, what answer can be given to his cold-blooded proposition: "Can you change the color of the negro's skin, the kink of his hair, the bulge of his lip or the beat of his heart with a spelling-book or a machine?"

What Abraham Lincoln Said.

No man has expressed this idea more clearly than Abraham Lincoln when he said: "There is a physical difference between the white and black races which, I believe, will forever forbid them living together on terms of social and political equality."

Whence this physical difference? Its secret lies in the gulf of thousands of years of inherited progress which separates the child of the Aryan from the child of the African.

Buckle in his History of Civilization says: "The actions of bad men produce only temporary evil, the actions of good men only temporary good. The discoveries of genius alone remain: it is to them we owe all that we now have; they are for all ages and for all times; never young and never old, they bear the seeds of their own lives; they are essentially cumulative."

Judged by this supreme test, what contribution to human progress have the millions of Africans who inhabit this planet made during the past four thousand years? Absolutely nothing. And yet, Mr. Booker T. Washington in a recent burst of eloquence over his educational work boldly declares:

"The negro race has developed more rapidly in the thirty years of its freedom than the Latin race has in one thousand years of freedom."

Think for a moment of the pitiful puerility of this statement falling from the lips of the greatest and wisest leader the negro race has yet produced!

Italy is the mother of genius, the inspiration of the ages, the creator of architecture, agriculture, manufactures, commerce, law, science, philosophy, finance, church organization, sculpture, music, painting and literature, and yet the American negro in thirty years has outstripped her thousands of years of priceless achievement!

Education is the development of that which is. The negro has held the continent of Africa since the dawn of history, crunching acres of diamonds beneath his feet. Yet he never picked one up from the dust until a white man showed to him its light. His land swarmed with powerful and docile animals, yet he never built a harness, cart or sled. A hunter by necessity, he never made an ax, spear or arrowhead worth preserving beyond the moment of its use. In a land of stone and timber, he never carved a block, sawed a foot of lumber or built a house save of broken sticks and mud, and for four thousand years he gazed upon the sea yet never dreamed a sail.

Who is the greatest negro that ever lived according to Mr. Booker T. Washington? Through all his books he speaks this man's name with bated breath and uncovered head—"Frederick Douglass of sainted memory!" And what did Saint Frederick do? Spent a life in bombastic vituperation of the men whose genius created the American republic, wore himself out finally drawing his salary as a federal office-holder, and at last achieved the climax of negro sainthood by marrying a white woman!

What Education Cannot Do.

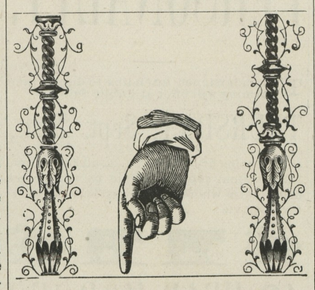

Says the author of Napoleon, Honorable Thomas E. Watson: "Education is a good thing, but it never did and never will alter the essential character of any man or race of men."

I repeat, education is the development of that which is. Behold the man whom the rags of slavery once concealed—nine millions strong! This creature, with a racial record of four thousand years of incapacity, half-child, half-animal, the sport of impulse, whim and conceit, pleased with a rattle, tickled with a straw, a being who, left to his will, roams at night and sleeps in the day, whose native tongue has framed no word of love, whose passions once aroused are as the tiger's—
