SATURDAY, - SEPTEMBER 16, 1905

EX-GOV. FRANK BROWN has announced his candidacy for the Democratic nomination for Governor. "Farmer" Brown is a hustler and will give his opponent a warm fight. The next Governor must be a Democrat and there are plenty of good men can fill it.

THE flagship of the Japanese fleet, the battleship Mikasa, upon which Admiral Togo fought in the recent naval battle of the Sea of Japan, caught fire on Sunday night at midnight and after the explosion of a magazine went to the bottom with 599 men. Admiral Togo was not on board.

THE dates for registration this year are Tuesday, October 3rd, and Tuesday, October 10th, for registration, and Tuesday 17th, for revision only. Parties contemplating getting registered must do so on the first two days, Oct. 3 and 10. They cannot get registered on the 17th, as that day is for revision only.

A WESTERN NEWSPAPER offered a prize for the best answer to the conundrum "Why is a newspaper like a woman?" The prize was won by a lady in Oklahoma, who sent the following answer, "Because every man should have his own and not run after his neighbor's."

THE congregation of a church in a little Pennsylvania town is divided because their pastor is said to have admitted the charge of kissing several girl members of his congregation, adding that he was glad of it and that he would do the same thing again. In the absence of any statement giving the age of either the parson or the girls, or whether or not the parson is married, it is well to suspend judgement.

The Constitutional Amendment.

Every week furnishes new reasons why the white voters of Kent and of this state should support the Constitutional Amendment—in order to check the arrogance and criminality of the lawless negroes. Kent County has a number of good, law-abiding colored citizens, but there is a larger class of the opposite and it is this body that the amendment will control.

In another column is noted the assault of a Kent county farmer's wife on the public highway by a negro.

In Baltimore a young lady was kissed by an impudent negro on a wager, and he was sentenced to two years in jail. And others we might mention.

A low class of negroes are migrating to Maryland from the South. The rush was checked somewhat by removal of party emblems from the ballots and the arrangements of names of nominees in alphabetical form. Defeat the amendment and let ignorance still have an opportunity to participate in elections and the tide of immigration of ignorant and lawless negroes will increase. Should the Republicans carry the State the emolems will be restored to the ballots and party nominees grouped under them. This will add another impetus to negro immigration. The man who votes against the amendment votes for possible and probable negro domination, wittingly or unwittingly. The result will be the same whether he votes with a full understanding of his act or votes at the command of Bonaparte, who has assumed chief leadership of the Republican party.

EXTRACT from a letter by F. A. R, the noted Sun correspondent:

"The experience of every State where the suffrage is confined to the whites has shown it to be beneficial. It has brought purer politics; it has lessened most materially the danger of race conflicts; it has promoted morality among the negroes; it has made fewer criminals, and it has made them a better laboring class. It would have, unquestionably, the same effect in the State of Maryland. The rot about what the Democratic "Ring" of Maryland will do if the negroes no longer vote is not worthy of consideration. The Democratic "Ring" will never have the power, even if it had the inclination, to do a tithe of the dreadful things predicted by the Republicans and the assistant Republicans."

EX-GOVENOR FRANK BROWN, in a recent interview, said: "On general principles, anything the Republicans line up and vote solidly as one man against is a good thing for Democrats to line up as one man and vote solidly for. It is a great misfortune that there should be any division of the Democratic party on an issue that means the white man's supremacy. Every other State south of the Potomac has taken action, and it is a calamity that Maryland should not do so. The right of suffrage is so much prized by the colored voter that it is supposed those interested will drift towards us if the amendment is defeated. There are nearly 150,000 negroes in Baltimore now, more than in any other city in the world and with this number increased the opportunity would be offered for them to dabble in politics and hold public office.

IN Kansas City, Missouri, a citizen was fined for permitting weeds to grow on the pavement in front of his residence. If this sort of thing should become general there are several cities that would be able to reduce their tax-rate at least for one year.

An Interesting Article.

On other pages of this issue will be found an article entitled "Booker T. Washington and the Negro," from the pen of Thomas Dixon, Jr., author of "The Leopard's Spots." This article recently appeared in the Saturday Evening Post, of Philadelphia, and was copyrighted by the Curtis Publishing Co. We have been given the authority to reproduce this article, and would advise its careful perusal by every reader of THE NEWS

City Man Sees Crooked ?

The Baltimore Herald in speaking of the recent Republican Convention says:

Mr. Wilbur Eliason, chairman of the Kent county central committee said that his party had a st ong, and he believed a winning ticket in the field!

The badge of the delegate from Kent was on upside down, and a city man said: "You countrymen are bound to be upside down, wrong side out or standing on your heads. It beats thunder, but it is true"

"It may be true," broke in Capt. Turner, commander of the state police force under Governor Lowndes, "but we sho' men beat you fellows all hollow gettin' right again."

Maybe the city man hadn't gotten right and saw upside down!

Results of Republican Rule.

The following from an editorial in the Cecil County News should be read and carefully considered by all the tax payers of Kent:

"Reckless extravagance has been the rule and not the exception, and roads today are in worse condition than they were when they entered upon their term of office, in spite of the unequaled sum of money expended for that purpose; many sections of road in the county are now being "mended" for the first time this year, the people using them having been compelled to joilt along over ruts and gullies for five months at the very time when the roads should be at their best. Every item of the levy has been exceeded with one or two trifling exceptions, and we now face a debt of $75,000 and the highest tax rate ever levied in Cecil County, $1.20 on $100. No bridges have been erected, no new schoolhouses built, no permanent road constructed, not a single improvement made to show for the increase in tax rate from the Democratic average of 80 cents, and yet we must shoulder this enormous debt."

INSTITUTE RESOLUTIONS.
