ROCK HALL ITEMS.

The home of Mr. and Mrs. Robert Joiner has been made very sad by the loss by death of their infant child. The bereaved family have the sympathy of a large circle of friends.

Haskel Johnson, the eighteen months old son of Mr. and Mrs. S. D. Sewell occupies a unique position in these parts, at least; besides his mother and father, he has two great grandmothers, two grandmothers and two grandfathers, and at an impromptu gathering at the home of Capt. G. T. Sewell a few days ago, all these sires were present save one, who was about three miles away and had it not been for her extreme age, 86 years, Capt. Sewell would have sent for her to be present, too.

Capt. Samuel D Sewell, who has been at the home of his parent for the past month, seems to have at last found the elixir of life. His health is much better than it has been for twelve months and seems to be now heading toward complete recovery.

Mr. L. H. Crockett, who failed to complete arrangements for removing to Tilghman's some time ago has at last succeeded in getting off. Mr. Crockett is a fine old gentleman and just as many of us have just begun to love him he leaves us. Our loss is Tilghman's gain.

Deputy Comodore Downey has been cruising in the Chester river for a week and made a raid on the Queen Anne's tongmen, capturing a number who were convicted and fined for violating the cull law. Had it not been for a squall that raged spitefully, a number of others would have been captured too.

Capt. Downey has caught on to a new method in his watchfulness. He now goes into the hold of the vessel loading with oysters and examines the dump as it is being stowed. If he finds more illegal oysters than the law allows, the buyer goes up with the catcher, see?

Mrs. Mamie A. Stelley (nee Ryan) is at the paternal home for a short stay.

Allen's Lane is being put in good condition by being raised up with dirt that is being hauled from the main road. It is hoped that the work will go on until the whole length of the lane has been thus treated.

Some of our farmers have become disgusted with the twentieth century corn cutters. They have laid them aside as being too slow, and have returned to the 19th century cutters. A number of the oystermen have turned in to lend a helping hand in cutting off corn.

Interior improvements to the M. E. Church are proceeding finely. The outside work cannot begin until the public school building is finished, as we understand Mr. Marion Coleman will now do the church work when he completes his plastering on the school.

The hot spell of the early part of this week has interfered with the oystering interests.

HERE are a few well defined words and it may do you good to remember them: Appendicitis—a modern pain costing $200 more than the old-fashioned stomach-ache. Collector—a man whom few care to see but many ask to call again. Echo—the only thing that can cheat a woman out of the last word. Evolution—clever trick performed by one Darwin who made a monkey out of Adam. Hug—a round about way of expressing affection. Jury—twelve men chosen to decide who is the best lawyer Love—a man's insane desire to become a woman's meal ticket.

GALENA NOTES.

Mrs. Wm. Garrett and three children experienced a thrilling driving accident last Tuesday evening. Mrs. G. had been to school affer her children when about a half mile out of town her horse became frightened and ran. Mrs. Garrett and little boy were kicked on the knee and the dashboard kicked out. Mrs. G. is an expert driver and checked the animal by pulling him into the road side.

Several interesting law suits have been tried this week. In one case the town ordinance against driving or riding a horse on the side-walk was involved, but as the defendant *lead* his horse, Justice Parr decided he was not guilty. In another case a lady was fined for allowing her hog to camage a neighbor's corn.

The Democrats here are heartily in favor of the amendment to disfranchise the ignorant colored voter.

WORTON ITEMS.

The festival held here by the ladies of Union M. E. Church was a great success financially in every way and everyone had a good time. A large crowd was present, the hall and church green being simply packed with people from far and near. But of course everyone is sure of good supper and they are also sure of spending a pleasant evening at a Worton festival.

Mrs. George N. Cooper, of Worton, and sister, Miss Rachel Wood, of Still Pond, are spending a pleasant visit with friends and relatives in Baltimore.

Kieffer Pear Crop.—The failure of the peach crop on the Delmarvia Peninsula may open up a good market for Kieffer pears and create a demand for the fruit. This year the Kieffers are unusually fine. The Delaware Produce Exchange held a meeting in Kent county Wednesday and passed a minute declaring that the price of the Kieffer should be raised to at least twenty-five cents the basket. The exchange calls attention to the desirability of the Kieffer as a preserving pear. In this no pear excels it. The minute adopted by the exchange follows: "The Delaware Produce Exchange find that not since the Kieffer pear came into cultivation has the outlook been so favorable for good prices.

The fire blight having destroyed the Bartlett trees in California, which was the Kieffer's greatest rival; the apple crop surely less than 50 per cent. throughout the United States, the amount of fruit in cans less than 60 per cent. of former years, peaches a failure throughout nearly all of the peach sections, tomatoes advanced more than double the price for some years past and with the wholesale fruit market advancing the price of apples from day to day, we feel called upon to place these facts before the pear growers, believing that a better price than 15 cents per basket will be realized for all good stock, and the executive committee in session fell warranted in believing that the price of 25 cents per half bushel, a peach basket should be received. Buyers in Kent are paying 15 cents per basket.
