FEED FAIRFIELD'S BLOOD TONICS POWDERED A SEPARATE PREPARATION FOR HORSE, COW, HOG AND POULTRY

GREATEST KNOWN BLOOD PURIFIERS

The working capacity of any horse can be practically doubled by feeding FAIRFIELD'S BLOOD TONIC for HORSES regularly. It exterminates worms, builds up the health and saves feed.

The farmer that sowed wheat all over his farm and expected to reap a crop of wheat, oats and corn from same, would be more foolish than the man who feeds his horse, cow, hog and poultry from the same package of Condition Powder and expects to get results. The intelligent farmer feeds FAIRFIELD'S, because there is a separate preparation for each kind of animal.

THE FAIRFIELD PREPARATIONS ARE SOLD UNDER WRITTEN GUARANTEE BY

j22-3t. STARTT & LUSBY.

...Localettes...

THE Road Commission have planned to commence April 1st on the 7⅞ miles of road between Goose Hill and Locust Grove.

CAPT. W. C. A. THOMPSON has sold his 8-months-old colt by Alday Clements horse for $100.

THE Fairlee Grange will give a minstrel show in Fairlee Hall next Friday night. Some fine artists will be in the circle and a good time is anticipated.

THE Patriotic Sons of America, Washington Camp No. 34, Chestertown, Md., will celebrate Washington's birthday at their camp room Fraternal Hall, at 8 o'clock p. m., Tuesday, February 22nd, with an appropriate program. The committee having the promise of the fluent orator, William F. Russell, Esq., to make an addess appropriate to the occasion, promise the members of Camp and visiting friends an evening of pleasure and instructive entertainment.

Early Lambs.—Mr. S. Grollman has bought nearly 1,000 early lambs for which he is paying $5. He shipped 9 lambs from Queenstown this week and they averaged 40 pounds each.

Annual Banquet.—The Mt. Vernon Literary Society of Washington College have issued invitations to its 63rd annual banquet Tuesday, Feb. 22, 1910, at 8 o'clock in William-Smith Hall. The committee consists of Messrs. Chas. H. Gibson, P. J. Johnson, Ruskin B. Warren, B. A. Johnson, C. T. Ryan.

Badly Bruised.—As Rev. O. E. Jones was driving through Warwick one day last week he stopped to give a boy a ride. A heavy farm-wagon was coming towards him; the driver did not know Mr. Jones was going to stop, and he was going so fast he could not pull out of the way of the carriage. The wagon struck the carriago, turning it over and throwing Mr. Jones out. He was not seriously injured but was badly bruised.

"Wet and Dry."—The ladies of Christ Church have inaugurated a "Wet and Dry" tea party, an innovation in the social life of the church. The first "party" was held Thursday afternoon from 3 to 5 o'clock at the home of Mrs. Charles N. Satterfield, which proved a delightful occasion. Mrs. J. F. Howard will entertain this evening, Mrs. Frank Duyer will hold one next week and others in different sections of the town will follow in quick succession, until the whole church and friends will be included. More later.

Real Estate Sales.—Mr. Harry Jefferson has sold to Mr. Frank Duyer the dwelling on Cannon street occupied by Mr. Charles H. Johnson. The residence will be improved with a front porch, &c., and occupied next year by Mr. Jack Duyer.

J. W Russell, real estate broker, has sold the Thomas Toulson farm in Quaker Neck to Wm. C. Townsend. This farm adjoins Mr. T.'s, has no buildings on it, and contains 111 acres.

Judge James A. Pearce, as agent for his sister, Mrs. Ringgold, has sold the farm in Queen Anne's county, known as the lower "Wye" or "Hobbs Farm" to Capt. Charles W. Butler. The farm contains 244 acres and the price paid was $10,500.

Mew Laundry Plant Assured.—A special meeting of the stockholders of the Family Steam Laundry was held on Thursday afternoon and measures were adopted looking to the re-establishment of their plant with better and more up-to-date machinery, so that the new plant will have greater capacity at less cost. Several locations have been offered the laundry and arrangements will soon be made to secure suitable quarters. Representatives of two of the leading laundry machinery companies in the United States have been here and gone over the list of machinery required, and each has submitted a bid for same. This is an enterprise that ought to appeal to the people of Chestertown and Kent county, and they should lend their aid and patronage in upholding the Family Steam Laundry in its efforts to give more and better service. They have temporary headquarters in the old Transcript Building, near the Voshell House. Phone 34 will bring Mr. Sheets or his assistant to your relief.

Orphan's Court.—The will of Miss Helen Power was admitted for probate and Miss Victoria Power made administratrix c. t. a. She bonded for $8,000. Messrs. A. F. Huey and W. B. Copper were made appraisers. The will makes these provisions: To Victoria and Annie Power interest in furniture, etc., unpublished book and an equal share in estate after paying bequests as follows: Dr. Edw. S. Power, $500; Edward G. Gillespie, nephew, and Annie M. Yarnall and Emma H. Gillespie, nieces, each $100; to Thomas Smth Sojensky and sisters Martha and Kina, each $25; nieces Edith and Angeline Power each $25. The witnesses to the will were Clara H. Bryan and Mattie G. Hazell, dated Jan. 5, 1909.

Letters of administration c. t. a. upon estate of John C. Brice were granted to Agnes Brice who bonded for $200.

Mr. Merrick Clements was named a member of the Board of incorporators of Chester Cemetery in place of John K. Aldridge, deceased.

Fern Scale.—Many housewives in Chestertown and elsewhere have been worried over what looked to be scale on their Boston ferns. The NEWS editors who take quite an interest in flowers presented a sample of the "scale" to Mr. Harry L. Boyd who sent it to the State entomologist. His letter follows:

COLLEGE PARK, MD., Feb. 14, 1910.

MR. HARRY L. BOYD, Chestertown, Md.

MY DEAR SIR.—Your communication of 10th inst. is duly received and I beg to state that upon examination of the fern enclosed that the little brown dots on the under side of the leaf is simply the productive organs of the fern and it is of course not an insect. There may be of course an insect attacking the fern, but what you consider to be an insect is of course the nature of this plant. How does the insect do the injury by eating, or sucking the juice from the fern? You can usually control plant lice or scale insects by washing the plants in a good strong soap solution.

Hoping to serve you further, I am,

THOMAS B. SYMONS, State Entomologist.

We would add that tobacco water is also a good solution with which to spray. Some use tobacco smoke successfully in ridding the plants of bugs, etc.
