A Run-Down Cow
is a Losing Proposition

The heavy grain ration and the forced feeding for winter milk production tire out and weaken the digestive and milk secreting organs of your dairy cows.

When these organs become fatigued through over-exertion, it is as impossible for them to perform their work properly, or to do the same amount of work, as it is for any other part of the body when in that condition.

In consequence the cow becomes "run down," the milk supply dwindles and the animal often contracts some

SERIOUS DISEASE

These conditions exist inwardly long before they are noticeable outwardly. Your first knowledge of any trouble comes when the milk decreases in quality and quantity, or when your cows have fallen a prey to disease—perhaps TUBERCULOSIS!

FAIRFIELD'S BLOOD TONIC AND MILK PRODUCER

keeps your cows from getting in this condition. It is a Scientific preparation specially compounded for animals that have FOUR stomachs and chew the "cud." It makes the winter foods easy to digest, saves the wear and tear on the digestive organs, and enables the cow to secure all the nutriment her food contains and turn it into the products that fatten her owners pocket-book. **Fairfield's Blood Tonic for Cattle Only** preserves and cures disease by removing the cause.

IT EXTERMINATES GARLIC

when **Fairfield's Blood Tonic for Cattle Only** is fed regularly, and three-quarters of an hour before milking, it will positively remove all taint and taste of Garlic from milk and cream. **Fairfield's Blood Tonic and Milk Producer** makes cows give more, and richer milk; makes calves strong and healthy and causes steers to fatten in half the usual time. The dose is One Tablespoonful and a 50c package contains 60 doses—making it the most economical Conditioner on the market. It is sold under a written guarantee by Davis & Satterfield, Chestertown, Md.; Hague & Hackett, Still Pond, Md.; A. Cohen, Sandy Bottom, Md.; J. W. Ivens, Worton, Md.; W. E. B. Best in the World
UNION MADE
Boys' Shoes $2.00 and $2.50
Fast Color Eyelets Used

W. L. Douglas shoes are the lowest price, quality considered, in the world. Their excellent style, easy fitting and long wearing qualities excel those of other makes. If you have been paying high prices for your shoes, the next time you need a pair give W. L. Douglas shoes a trial. You can save money on your footwear and get shoes that are just as good in every way as those that have been costing you higher prices.

If you could visit our large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better and wear longer than other makes.

CAUTION—W. L. Douglas name and price is stamped on the bottom to protect the wearer against high prices and inferior shoes. **Take No Substitute.** If W. L. Douglas shoes are not for sale in your vicinity, write for Mail Order Catalog. W. L. Douglas, Brockton, Mass.

Capt. Bogardus again hits the Bull's Eye.

The world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living at Lincoln, Ill. Recently interviewed, he says:—"I have suffered a long time with kidney and bladder trouble and have used several well-known kidney medicines all of which gave me no relief until I started taking Foley's Kidney Pills. I used Foley's Kidney Pills I was subjected to severe backache and pains in my kidneys with suppression and oftentimes a cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 percent better. I am never bothered with my kidneys or bladder and once moore feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers." Sold by all druggists. J. T. Power, Millington, Md.

TOWN WATER SUPPLY

Electric Light Company Submits Proposal To Do Pumping.

The Chestertown Electric Light and Power Company has submitted to the Commissioners of Chestertown the following proposition to pump the town water supply by electric motor, discarding the steam power plant except for emergency.

Chestertown, Md., March 1st, 1910.

To the Town Commissioners of Chestertown:

GENTLEMEN:—We beg leave to submit to you the following proposal to pump your town water supply:

We will furnish power to your pumping and will supply the material and labor necessary for the maintenance of all the electrical apparatus for the sum of two thousand ($2,000.00) dollars per year, subject to the following conditions:

1. Payments to be made quarterly on March 1st, June 1st, Sept. 1st and Dec. 1st of each year.
2. The maximum amount of water to be pumped for the sum stated is sixty million (60,000,000) gallons per year.
3. For pumping water in excess of sixty million (60,000,000) gallons per year an extra payment of two and one-half (2½) cents per thousand gallons is to be made, and this extra payment is to be made on June 1st of each year for the excess pumped during the preceding twelve (12) months.
4. We are to be allowed to use the town water as required for the operation of our machinery but all water so used shall be measured and deducted from the total amount pumped as stated in condition No. 3.
5. We will supply all packing and oil necessary for the operation of the pump and will maintain the belt or gears (cog wheels) used to connect the pump and motor but you must bear the cost of maintenance of all other parts of the pump, water piping, pools, pump house and all other items forming a part of your present water system.
6. We will supply the motor and neeessary electrical apparatus but you are to supply the new pump which will be necessary and you will also provide the labor and material necessary for the installations of foundations and pipe connections, etc. We will superintend the installation of this machinery at our expense.
7. We will furnish the labor necessary to keep your present steam machinery clean and ready to operate and will operate this machinery not less than four times a year for a sufficient time to satisfy ourselves that it is in condition to be used in case of necessity. The cost of all repairs and maintenance to this machinery to be borne by you.
8. We will supply the fuel and labor and will operate your present steam machinery at such times as accidents or repairs to our electrical apparatus renders this necessary.
9. If at any time the "static head" (i. e. difference in elevation) between the source of water supply and the storage system is increased by the use of a stand pipe or by any other means both the compensations mentioned above are to be increased in proportion to the increase in "static head" and such increase is to be calculated on the basis of the storage system being full.
10. If it becomes necessary on account of insufficient water supply in any one locality to install pumping machinery in two or more places then the cost not only of the pump, etc., but of the motor and all the other electrical apparatus necessary for these new installations and their connections to our present line are to be borne by you.
11. You are to maintain insurance on your pump house and all the machinery (both electrical and otherwise) contained, and in case of loss by fire the expense of renewal to be borne entirely by you.
12. You are to maintain a telephone at the pump house.
13. This agreement to remain in force for five years from the date when the first quarterly payment, following its execution, is due.
14. This agreement is to be automatically self-renewable for periods of five years each unless either party gives written notice to the other not less than three months before the termination of the five year period.
15. We will hold ourselves in readiness to begin pumping water immediately at any time of the day or night when necessary on account of fire, and for this purpose we will have some one in our plant all the time so that we can begin operation at once.

Respectfully submitted.
THE CHESTERTOWN ELECTRIC LIGHT AND POWER COMPANY,
By ATLEY H. TRACY,
Secretary and Treasurer.

TO TAX BACHELORS.

Mr. Willis, of Kent, Has a Novel Bill in the House.

Mr. Willis, of Kent county, has a bill in hand which is designed to place a tax on Bachelors. It was framed by Mr. Alexander Chaplain, who for forty years superintendent of schools in Talbot county.

The provisions of the bill follow:

"Be it Enacted by the General Assembly of Maryland, that all able-bodied unmarried male citizens between the ages of 25 and 40 years shall pay a yearly tax $3, and those between the ages of 40 and 60 years shall pay a yearly tax of $5."

The bill further provides for the collection of the tax under the direction of the county commissioners in the counties, and under the direction of the mayor and City Council in Baltimore city. It provides for an "enumerator," as the bill calls it, each election precinct in Baltimore city shall be paid an annual salary of $25 for his work of reporting to the tax department all the bachelors in his precinct.

A Recipe From The Eastern Shore.

FIRST PRIZE.

Five miles across from Love Point and Queenstown, lapped by the bright waters of Chester river, lies Eastern Neck Island. In years gone by the fields, woods and waters of the island, as it is called in Kent county, teemed with game, and it was a veritble paradise for the sportsman. Owing to violation of the game laws and wholesale slaughter, game has become scarce, but true Southern hospitality and the ability to cook and serve game still obtain on the island.

Mr. Newton S. Bogle, a friend of long standing, born and reared on the island, still resides on the farm that was once his father's. His recipe for cooking the wild duck cannot be beaten: not only the canvasback and redhead are rendered delicious, but the "trash" duck by his method becomes a dish "fit for a king."

On the occasion of our late Ex-President Cleveland's last gunning trip into Virginia he gave to a representative of the press his recipe for cooking a wild duck, which was so widely different from that followed by the average cook, on comparing the recipe with that of Mr. Bogle, I found to my surprise and delight, that they were almost identical.

N. S. BOGLE'S RECIPE FOR COOKING A WILD DUCK.

After picking and drawing the ducks wash them clean and place in a roasting pan, backs up. Put a good-sized lump of butter on each duck and dust them well with pepper, and have about one inch of water in the pan. Have a fierce wood fire and keep the oven at a scorching heat. As the duck browns in the oven baste often with the water in the pan. When the back is brown turn the duck over, breast up; put on another lump of butter and dust more pepper. Repeat the basting every few minutes until duck is done. Sprinkle salt on the outside and inside of duck and carve in the kitchen, placing the slices of duck on a warmed platter, and pour over them the gravy that has formed in the pan. Should the pan go dry in the process of cooking, more hot water should be added. To tell when the duck is done, stick a fork in the flesh under the wing, and if there is no blood appearing the duck is done.

SADIE P. SLEE,
2327 Madison avenue.

For Rheumatic Pains

As we get older the blood becomes sluggish, the muscles and joints stiffen and aches and pains take hold easier. Sloan's Liniment quickens the blood, limbers up the muscles and joints and stops any pain or ache with astonishing promptness.

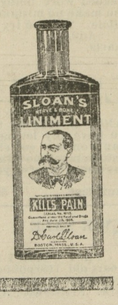

Proof that it is Best for Rheumatism.

Mrs. DANIEL H. DIEHL of Mann's Choice, R.F.D., No. 1, Pa., writes:—"Please send me a bottle of Sloan's Liniment for rheumatism and stiff joints. It is the best remedy I ever knew for I can't do without it."

Also for Stiff Joints.

Mr. MILTON WHEELER, 2100 Morris Ave., Birmingham, Ala., writes:—"I am glad to say that Sloan's Liniment has done me more good for stiff joints than anything I have ever tried."

Sloan's Liniment

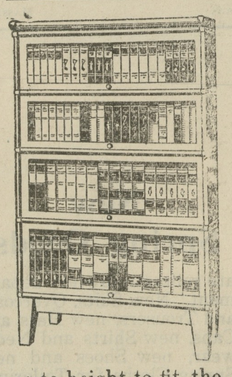

is the quickest and best remedy for Rheumatism, Sciatica, Toothache, Sprains, Bruises and Insect Stings.

What To Do With the Holiday Books

Just now this is a leading question in many thousand American homes.

How can all the new books, with their attractive bindings, be displayed to the best advantage, arranged and classified so as to always be accessible.

Now is the most propitious moment of the entire year to settle this question for all time to come by procuring GLOBE-WERNICKE "Elastic" Book Cases which are graded as to height to fit the books of any library, and in lengths to fit most any room.

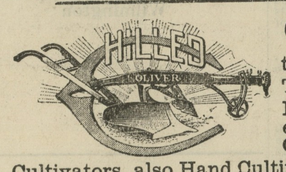

Made in dull and polish finish, quartered oak and mahogany—with plain, leaded and plate glass doors—controlled by the only patent equalizer that absolutely prevents binding.

Three different styles are described in the catalogue—Standard, Mission and Ideal—each one a distinctive type.

We carry the goods in stock and sell at catalogue prices
