The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away ceil by ceil.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. **Swamp-Root** corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

HOW TO CURE RHEUMATISM.

It Is an Internal Disease And Requires an Internal Remedy.

The cause of Rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. Rubbing in Oils and Liniment will not cure, affords only temporary relief at best, causes you to delay the proper treatment, allows the malady to get a firmer hold on you. Liniments may ease the pain, but they will no more cure Rheumatsim than paint will change the fibre of rotten wood.

Science has at least discovered a perfect and complete cure. which is called "Rhumacide." Tested in hundreds of cases, it has affected the most marvelous cures; we believe it will cure you. Rheumacide "gets at the joints from the inside," sweeps the poison out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide "strikes the root of the disease and removes its cause." This splendid remedy is sold by druggists and dealers generally at 50c and $1 a bottle. In tablet form at 25 and 50c a package. Get a bottle to-day. Booklet free if you write to Bobbitt Chemical Co., Baltimore, Md. Trial bottle tablets 25c by mail. 15Jan4m.

A QUAINT OLD TAVERN

The Old Cheshire Cheese, In the Heart of London.

SERVES A FAMOUS PUDDING.

A Noble Pastry It Is, and It Was Sampled by Such Men as Gladstone, Dickens, Thackeray, Tennyson, Trollope and Whistler.

Nearly all Americans when they go to London make it a point to visit that quaint old tavern in the heart of the newspaper and printing business, the Old Cheshire Cheese, to partake of its famous pudding.

It is the Londoner's delight when he gets back to Fleet street to make a rush for the pudding, and it is almost the last thing he eats before leaving it. Travelers in the Sahara have seen mirages of that pudding, and during the Boer war the men shut up in Ladysmith and Mafeking dreamed of it at regular intervals.

Precisely at 1 o'clock p. m. Tom conveys the pudding from the first to the main floor. It is a big pudding, and the price of it is just 2 shillings—that is to say, a feed of it is 2 shillings, as much as you please, as many shares as you ask for, cut and come again, all for 48 cents of American coin. Cheap, aye, and, oh, how good it is! It is worth crossing the Atlantic to get a sniff of it, and the aroma lingers in the memory for many a day.

Big? The dimensions are Falstaffian. It is a round earthen vessel something more than two dozen inches deep, with a diameter of about eighteen inches. A noble pastry, my masters!

When it is placed upon the service table an elliptical white crust meets the hungry gaze. Tom and his myrmidons take their places in front facing the host, who, knife and spoon in hand, poses with gentle dignity and benignant mien. It is a moment of solemn thought when every man hopes that his portion will be larger than his friend's and that he will be blessed with an abundance of gravy. But they ought from years of acquaintance with the host to understand that his hand is as steady as his judgment is impartial.

No more and nothing better for one than for another. He waves his weapons, and the first onslaught is made. The room is full of a delicious steam bearing with it the concentrated essences of ambrosial substances. The guests sniff it up and murmur choice blessings on the cook, the original inventor, the house and the host. It is a time when men feel good, one toward the other.

One smell of that pudding makes the whole world kin. This famous pudding, which has tickled the palates of thousands, is thus compounded:

A crust of flour, water and suet.
Beefsteak.
Sheep's kidneys.
Larks.
Mushrooms (freshly gathered).
Oysters.
Stock.
Pepper and salt.

But it is the boiling that does it. For at least twelve hours this heaven sent pudding is kept slowly simmering in an immense copper specially constructed for the purpose. It must not boil quickly, but the same temperature be kept up the whole period. The steak assumes a juicy tenderness; the larks—not sparrows, as some malignant spirit has suggested, although sparrow pudding is not to be despised—are seethed to the bone, and you can chew up each little songster without an effort; the kidneys are soft and mushy and offer no resistance to the digestive organs, and the oysters, despite their lengthened cooking, are not leathery. The amalgamation and assimilation of the variety of constituents are perfect; the result is bliss.

There is a story told of one eminent litterateur who had seven helpings of the pudding and still yearned for more, and there is another remarkable narrative of four men who ordered a pudding of the regulation size and finished it among them.

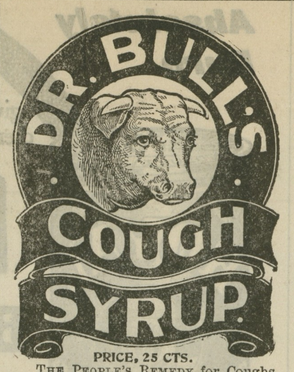

J. Pierpont Morgan praised the pudding, and Theodore Roosevelt was delighted with it. Lord Beaconsfield bestowed his approbation thereon, and Gladstone thought it far superior to his famous "three courses." Dickens, Thackeray, Meredith, Swinburne, Tennyson, Trollope, Whistler, Leighton, Sala, Phil May—all sorts of the best of men of their day have fed upon the pudding, and it no doubt helped to inspire their work.

Apparently any cook can fashion it, mix it, fix it, boil it. Let any cook try it. Lots of cooks have tried it, but the results have not been satisfactory. There was a man who once ran the Old Cheshire Cheese, and in his day the pudding first achieved its great fame. When he sold the old hostelry and took a house in the financial district he announced that the same pudding—the same in every respect—would be served every Saturday.

Many of the Cheese's old patrons came around to celebrate. There was the size, but the aroma was wanting; there were the identical materials, but the flavor was not in them. It was not the same, not a bit of it. There was something missing. It may have been the shades of the departed great ones of a bygone time. And so it is that today the famous dish of the Old Cheshire Cheese tastes as of old, and its devotees cannot be seduced by any designing invitation based upon "just as good" simply because there is nothing just as good.—Philadelphia Ledger.

Thoughts are mightier than the strength of hand.—Sophocles.

CASTORIA
