FEED FAIRFIELD'S BLOOD TONICS POWDERED
A SEPARATE PREPARATION FOR HORSE, COW, HOG AND POULTRY

GREATEST KNOWN BLOOD PURIFIERS

The working capacity of any horse can be practically doubled by feeding FAIRFIELD'S BLOOD TONIC for HORSES regularly. It exterminates worms, builds up the health and saves feed.

The farmer that sowed wheat all over his farm and expected to reap a crop of wheat, oats and corn from same, would be more foolish than the man who feeds his horse, cow, hog and poultry from the same package of Condition Powder and expects to get results. The intelligent farmer feeds FAIRFIELD'S, because there is a separate preparation for each kind of animal.

THE FAIRFIELD PREPARATIONS ARE SOLD UNDER WRITTEN GUARANTEE BY

HERE ARE THE FIGURES!

Evidence Convincing That The $1.85 Tax Rate Was Unnecessary and Unwise—The Burden Falls Upon The Poor.

The statements heretofore made in the NEWS that the $1.85 tax rate levied upon the taxpayers was altogether too high and unwarranted are proven by the figures, and the effort to put the blame on the Organization because of extravagance in road working is a sample of the hollowness of their cause. For instance roads and bridges the past year have cost as follows:

First District	$ 9,925.23
Second District	2,049.26
Third District	14,800.16
Fourth District	4,658.55
Fifth District	3,716.59
Total	$35,149.79

In the levy of the previous year the roads and bridge accounts amounted to $40,689.65, and the tax rate was $1.25, so that the statement that the increased tax rate was caused by increased costs of roads and bridges is untrue.

The roads and bridges for the past year cost **$5,539.86** LESS than last year, so that really the rate, based on last year's figures, should have been $1.20, exclusive of the new road tax! This latter tax would run the rate up to $1.40.

The certificates issued for courts, roads, schools, etc., amount to $85,911.05 which is just $10,000 more than the previous year. This would add about ten cents more to the rate making $1.50 enough for all purposes this year. With this rate for 1910, in 1911 the rate would fall to at least $1.20 and in 1912 to $1, until soon the county would be on a cash basis.

The rate of $1.85 levied by the Barroll faction is from **30** to **35** cents too high, and will fall especially heavy upon the poor. The rich can afford to pay this rate but it will be keenly felt by the great majority of taxpayers. These were not considered as they should have been in levying such a tax. It would have been bad enough to have made it $1.50 but this would have carried the county over a trying period and the tax-payers given a chance to divide the burden and to pay a part each year until the county was put virtually on a cash basis.

It is too late now to change this rate but quit trying to throw the responsibility where it does not belong. The rate was made high for the purpose of relieving next year's tax and for political reasons. Why not confess the truth and give the public a rest.
