You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection
WICK BLUE FLAME
Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible rests, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Standard Oil Company
(Incorporated)

DAY OF CONTINUOUS OVATIONS

Thedore Roosevelt set foot on American soil Saturday, after an absence of nearly 15 months, and was given the greatest welcome ever accorded a private citizen.

Leaving the Kaiserin Auguste Victoria early in the morning, his cutter was escorted up the harbor by warships and a multitude of other craft, forming a naval parade.

Landing at the Battery, Col. Roosevelt was officially welcomed by Mayor Gaynor, and in a short reply pledged his aid in solving the great questions confronting the country.

A land parade up Broadway followed the exercises at the Battery, the Rough Riders, the Spanish War Veterans and the Abernathy boys being conspicuous figures.

Colonel Roosevelt was given an enthusiastic ovation by the great throng on the streets.

After lunching with relatives Colonel Roosevelt and family went to Oyster Bay, where his neighbors gave him another cordial greeting, and where he spoke briefly.

Colonel Roosevelt expressed himself as deeply grateful for the good will shown him and declared that he intended to settle down to absolute privacy.

He refused to discuss politics or his future course of action.

TRESPASSING ON THE RAILROAD PROPERTY

Trespassing on railroad property in violation of the law has caused the deaths of more than 50,000 people in the United States in the last eleven years. In this same period more than 55,000 trespassers have been injured.

With a view to reducing to a minimum the practice of trespassing on its property, the Pennsylvania Railroad has determined to redouble its efforts to secure on its lines that rigid enforcement of the law against trespassing which in foreign countries has done so much to decrease the number of fatalities resulting from trespassing.

In 1907 the Pennsylvania inaugurated a vigorous campaign against trespassing and, due doubtless to this, the number of trespassers killed in 1908 was only 757. In 1909, 732 lost their lives in this way. In the eleven years prior to January 1st, 1910, exactly 7,972 people who were on the Pennsylvania railroad's right of way in wilful violation of the law, in spite of thousands of warning signs along the railroad, were killed. It is thus seen that in the eleven years an average of two trespassers a day have been killed on Pennsylvania Railroad property. The long death roll is every year charged up to the railroad even though these people are killed as a result of their violating the law, and under conditions over which the Company has no control.

It is not only tramps who are killed and injured while trespassing, though thousands of them lose their lives in this way every year. Men of the laboring class, factory workmen, their wives and children, who use railroad tracks as thoroughfares, are killed by the hundreds. That the practice of walking on railroad tracks is prevalent in industrial districts gives added significance to the fatalities on the Pennsylvania system as a result of trespassing. The tracks of the Pennsylvania are lined with factories as they run through the densest industrial section, through territory which holds more than half of the population of the United States. Over 10,000 trespassers were arrested in the year 1909.

In 1898, 4,063 trespassers lost their lives on American railroads; five years later the number was 5,000 and in 1907 the number killed was 5,612—more than 16 a day. These figures are taken from the annual reports of the Interstate Commerce Commission. Figures compiled by the Pennsylvania Railroad alone show that 465 trespassers lost their lives on that system's lines in 1899; 791 were killed in 1904; while in 1907 the number reach 915—an average of three almost every business day in the year.

The Pennsylvania Railroad has now posted its tracks and stationed watchmen to see that warnings against trespassing are respected. By redoubling its efforts the Company is endeavoring to reduce the number of trespassers who are killed and injured by an even greater number than it has done in the past three years.

The co-operation of City and County authorities has been solicited in this campaign. Heretofore the actual punishment of persons violating the laws forbidding trespaseing on a railroad's private property has been infrequent. The cost of imprisonment has deterred the local courts from holding those arrested while trespassing on railroad property.

SUMMER IS HERE.

Upon the 21st the sun crossed the line of Cancer, and summer not too underdone, will haply be the answer. This is, they say, the longest day, however you may search, but you will hardly notice it unless you are at church.

At any rate, the swimming-hole will get a little warmer, and harvest time will vex the soul and slumber of the farmer. He'll pray for hands to tend his lands, spread food and tie the dog; and the wary tramp will make his camp inside a hollow log.

The rich will hie away to spend the summer by the water—to live until the season's end the glad life of an otter. The poor, meanwhile, will sweetly smile, however fortune goes, and splash and rub inside the tub alternate with the clothes.

The singing stars will reindulge their old familiar riddle, and milk and buttermilk will bulge the boarder round the middle. The heart for June will hum a tune, of plenty or a crust, and the whippoorwill, when night is still, will whistle like to bust.
